REQUESTED ACTION

Authorize the Department of Health and Human Services Office, to amend three (3) Agreements with AmeriHealth Caritas New Hampshire Inc., 200 Steven Drive, Philadelphia, PA 19113, Boston Medical Center Health Plan Inc., Schraffts City Center, 529 Main Street, Suite 500, Charlestown, MA 02129, and Granite State Health Plan Inc., 2 Executive Park Drive, Bedford NH, 03110, by changing the program start date from July 1, 2019 to September 1, 2019 to accommodate sufficient time for readiness activities needed to effectuate a well-executed implementation of health care services to eligible and enrolled Medicaid participants through New Hampshire's Medicaid managed care program known as New Hampshire Medicaid Care Management, and by decreasing the price limitation by \$126,335,836 from \$924,150,000 to an amount not to exceed \$797,814,164 in State Fiscal Year 2020, for period September 1, 2019 through June 30, 2020, effective upon Governor and Executive Council approval, with a change to the completion date of August 31 2024, from June 30, 2024. The original Agreements were approved by Governor and Executive Council approval on March 27, 2019, Tabled Late Item A (Tabled by Governor and Executive Council on February 20, 2019).

Funds for Granite Advantage Health Program are 93% Federal and 7% Other for calendar year 2019 and 90% Federal and 10% Other for calendar year 2020 (as defined in RSA 126-AA:3, I); funds for the Child Health Insurance Program are 78.8% Federal and 21.2% General funds; and funds for the standard Medicaid population funding under the Medicaid Care Management account are 51% Federal, 24.3% General and 24.7% Other funds.

Funds are anticipated to be available in the following account(s) for State Fiscal Years (SFY) 2020 through 2025 upon the availability and continued appropriation of funds in the future operating budgets. The Centers for Medicare and Medicaid Services (CMS) requires that managed care rate certifications must be done on no more than a twelve-month rating period demonstrating actuarial soundness thereby necessitating annual rate reviews in order to determine amounts each state fiscal year and corresponding contract amendments. Rates will be updated annually and as necessary for changes in the program enacted by the legislature. A description of how this contract aligns with the state budget process is included in the explanation below. For these reasons, expenditures for the program are identified only for SFY 2020.

EXPLANATION

The purpose of this request is to amend the three (3) Medicaid Care Management (MCM) capitated, and risk-based Agreements by changing the program start date from July 1, 2019 to September 1, 2019. The amendment is necessary to provide a sufficient readiness ramp up period for the Department and the Contractors known as the Managed Care Organizations (MCOs) so the health care services to 180,000 eligible and enrolled Medicaid participants through New Hampshire's Medicaid managed care program known as New Hampshire Medicaid Care Management, are implemented smoothly, and by decreasing the price limitation by (\$126,335,836) from \$924,150,000 to an amount not to exceed \$797,814,164 in State Fiscal Year 2020, September 2019-June 2020.

The proposed change in program start date, to a later date, was necessary to provide Governor and Executive Council sufficient time to review the new contracts, hold two informational hearings, and to allow the Department and the MCOs the needed time for readiness to occur for the new Agreements. These three (3) MCOs will serve approximately 180,000 members including pregnant women, children, parents/caretakers, non-elderly, non-disabled adults under the age of 65, and individuals who are aged, blind or disabled, among others, as described in the Medicaid Care Management (MCM) contracts. The MCOs will cover the acute care, behavioral health, and pharmacy services for all Members and work with the Department to address the crucial social determinants of health in accordance with the attached MCM contracts.

The MCOs will provide a person-centered, integrated, and comprehensive delivery system that offers a very substantial array of accessible Medicaid services, taking into account each Member's physical well-being, behavioral health (mental health and substance use disorders), and social circumstances. The Department will challenge its MCO partners to work responsively with the provider community and MCM Members to improve access to care and promote healthy behaviors. New Hampshire's MCM program will incentivize value over volume, enhance program efficiency, and hold MCOs accountable for demonstrable improvements in health outcomes.

Table One represents a ten-month year capitation rate for the Standard Medicaid and the NH Granite Advantage Health Care Program for the period September 2019 through June 2020 with a comparison to the SFY 2020 rates in the February 15, 2019 signed contracts approved by the Governor and Executive Council of March 27, 2019 (Tabled, 2/20/2019 Late item #A). This allows alignment with State of New Hampshire fiscal year through SFY 2024. The change to the completion date of August 31 2024 is requested to allow for the full 60-month contract that was specified in the request for proposals.

Total	\$444.28	\$446.21	0.4%

*The CHIP capitation rate is an average of the specific rate cells in which CHIP members are enrolled. We do not develop a CHIP specific capitation rate.

Area served: Statewide. Source of Funds: Funds for Granite Advantage Health Program are 93% Federal as appropriated by Congress and 7% Other for calendar year 2019 and 90% Federal and 10% Other for calendar year 2020 (as defined in RSA 126-AA:3, I); funds for the Child Health Insurance Program are 78.8% Federal as appropriated by Congress and 21.2% General funds; and funds for the standard Medicaid population funding under the Medicaid Care Management account are 51% Federal as appropriated by Congress, 24.3% General and 24.7% Other funds.

In the event that Federal funds become no longer available or are decreased below the 93% level for calendar year 2019 or 90% level for calendar year 2020, for the Granite Advantage Health Program, consistent with RSA 126-AA:3, no state general funds shall be deposited into the fund and medical services for this population would end consistent with RSA 126-AA:3,VI and the terms and conditions of the federal waiver issued by the Centers for Medicare and Medicaid Services.

REQUESTED ACTION

Authorize the Department of Health and Human Services to enter into Agreements with, AmeriHealth Caritas New Hampshire Inc., 200 Steven Drive, Philadelphia, PA 19113, Boston Medical Center Health Plan Inc., Schraffts City Center, 529 Main Street, Suite 500, Charlestown, MA 02129, and Granite State Health Plan Inc., 2 Executive Park Drive, Bedford NH, 03110, to provide health care services to eligible and enrolled Medicaid participants through New Hampshire's Medicaid managed care program known as New Hampshire Medicaid Care Management, in an amount, for State Fiscal Year 2020 shared by all vendors, not to exceed \$924,150,000, effective upon Governor and Executive Council approval, with providing services to members on July 1, 2019 through the completion date of June 30, 2024.

Funds for Granite Advantage Health Program are 93% Federal and 7% Other for calendar year 2019 and 90% Federal and 10% Other for calendar year 2020; funds for the Child Health Insurance Program are 79.4% Federal and 20.6% General funds; and funds for the standard Medicaid population funding under the Medicaid Care Management account are 51% Federal, 24.3% General and 24.7% Other funds.

Funds are anticipated to be available in the following account(s) for State Fiscal Years (SFY) 2020 through 2024 upon the availability and continued appropriation of funds in the future operating budgets. The Centers for Medicare and Medicaid Services (CMS) requires that managed care rate certifications must be done on a twelve-month rating period demonstrating actuarial soundness thereby necessitating annual rate reviews in order to determine amounts each state fiscal year and corresponding contract amendments. Rates will be updated annually and as necessary for changes in the program enacted by the legislature. A description of how this contract aligns with the state budget process is included in the explanation below. For these reasons, expenditures for the program are identified only for SFY 2020.

EXPLANATION

The purpose of this request is to enter into capitated, risk-based Agreements to provide acute care and other medical services to eligible and enrolled Medicaid participants New Hampshire's Medicaid managed care program known as New Hampshire Medicaid Care Management. ~~These three (3) Vendors will serve approximately 180,000 members including pregnant women, children, parents/caretakers, non-elderly, non-disabled adults under the age of 65, and individuals who are aged, blind or disabled, among others, as described in the Medicaid Care Management (MCM) contracts.~~ The Managed Care Organizations (MCOs) will cover the acute care, behavioral health, and pharmacy services for all Members and work with the Department of Health and Human Services (DHHS) to address the crucial social determinants of health in accordance with the attached MCM contracts.

The MCO Vendors will provide a person-centered, integrated, and comprehensive delivery system that offers a very substantial array of accessible Medicaid services, taking into account each Member's physical well-being, behavioral health (mental health and substance use disorders), and social circumstances. DHHS will challenge its MCO partners to work responsively with the provider community and MCM Members to improve access to care and promote healthy behaviors. New Hampshire's MCM program will incentivize value over volume, enhance program efficiency, and hold MCOs accountable for demonstrable improvements in health outcomes.

Two of the Vendors, Boston Medical Center Health Plan Inc., and Granite State Health Plan Inc., are respectively otherwise known as Well Sense Health Plan, and New Hampshire Healthy Families. The Department presently contracts with both of these Vendors to provide New Hampshire's Medicaid Care Management program.

I. Procurement Process

These contracts represent the culmination of the Department's first re-procurement of the MCM program since its commencement in December 2013. The Department's process for the development of the program reflected in the contracts and the contracts themselves represent a significant improvement over the prior procurement process and the program itself. The Department -- for the first time ever -- put out the Request for Proposals for public comment and held public information sessions in each of the Executive Council Districts last July in Concord, Keene, Manchester, Nashua, Littleton and Portsmouth before it was issued to potential respondents.

These three (3) Vendors were selected through a competitive bid process. A Request for Proposals RFP-2019-OMS-MANAG-02 was posted on the Department of Health and Human Services' web site from August 30, 2018 through October 31, 2018. A mandatory bidder's conference was held on September 7, 2018. In-person attendance at the Mandatory Bidder's Conference was a requirement to submit a proposal. The Department received four (4) proposals. The proposals were reviewed and scored by a team of individuals with program specific knowledge. The Bid Summary is attached.

II. Central Features of the New MCM Program

This procurement was also focused on improving the program for beneficiaries and providers and introducing many new features. The goals of the new MCM program are to

- Improve care of Members
- Improve health outcomes
- Reduce inpatient hospitalization and re-admissions
- Improve continuity of care across the full continuum of care
- Improve transition planning when care is completed
- Improve medication management
- Reduce unnecessary emergency services
- Decrease the total cost of care
- Increase member satisfaction
- Improve provider participation in the program

In order to help achieve these goals, the new contracts make many changes in the current program. These include the following:

- **Additional Care Coordination and Care Management** resources to provide significantly more beneficiary support to those in greater need, including providing it at a local level. MCOs must provide Care Management for at least 15% of high-risk/high-need members, and MCOs must conduct local care management or contract with a designated care management entity for at least 50% of high-risk/high-need members.
- **Behavioral Health (Mental Health and Substance Use Disorder) provisions** support integration of care with physical health, implementation of the Department's new 10-year Mental Health Plan, and advance SUD treatment. MCOs are required to take into account each person's physical health, behavioral health (mental health and substance use disorders), and social and economic needs. MCOs are required to work with Members, Providers, integrated delivery networks (IDNs), and community mental health

programs (CMHPs) to integrate physical health and behavioral health and address social determinants of health that affect health outcomes and the cost-effectiveness of care.

- **Emergency Room Waiting Measures** include the provision of additional clinical staff to support the provision of services in hospital emergency departments to reduce the need for Members to wait for inpatient services.
- **Support the Community Mental Health Centers and Substance Use Disorder Providers** by entering into capitated payment arrangements with Community Mental Health Programs and Providers, and reimburse substance use disorder providers at rates no less than the DHHS fee-for-service rates. MCOs must also contract with any willing peer recovery provider.
- **Alternative Payment Models (APMs)** provisions require MCOs to incentivize value over volume and significantly reduce current fee for service billing arrangements.
- **Community Engagement** specifies a role for the MCOs to support beneficiaries in fulfilling the Community Engagement requirement, including assisting their members with understanding qualifying activities and exemptions.
- **New Provider Supports** require MCOs to implement prompt and accessible credentialing and re-credentialing processes that will be used to conduct provider outreach and support; standardize work processes to ensure efficient implementation of the program and minimal provider burden relative to claims billing processes, reporting, and prior authorizations; meet prompt payment requirements and pay claims based on the effective date of the Current Procedural Terminology code, and establish a provider grievance and appeals process.

- **Pharmacy Counselling and Management** are strengthened to help improve the safety and therapeutic benefits to beneficiaries and the economy of the program.
- **Beneficiary Choice and Competition** is increased by providing Medicaid beneficiaries with three high-quality MCOs from which to choose.

- **Incentives and opportunities for beneficiaries to participate in healthy behaviors** must be provided by MCOs to improve individual health.
- **Cost transparency** through reference based pricing and incentives to beneficiaries.
- **Accountability for results** is increasing because a share of payment to MCOs will be directly linked to their performance, ensuring accountability for results, particularly in high priority areas such as addressing substance use disorders, integrating physical and behavioral health, providing robust care management, and reducing unnecessary use of high-cost services.
- **Public Reporting** is an added contract element. Each selected MCO will be responsible for submitting an annual report to the Governor and the legislature reporting on how the MCO has addressed State priorities for the MCM Program, including those specified in RSA 126-AA and in other State statute, policies, and guidelines; what innovative programs it has established; how it is addressing social determinants of health of its members, and how it is improving the population health of the state and other key metrics of the program.
- **Heighten program compliance and integrity provisions** have been added that allow for liquidated damages to be applied to the MCOs around contractual performance; provisions that incent MCO performance around collections for third party liability and coordination of benefits; and general fraud waste and abuse.

- **Medical Loss Ratio** is specified in the contract at a minimum amount of 85% that must be spent on service delivery to beneficiaries, any amount less is to be rebated back to the Program.

III. Ratemaking and Budget

The Department's actuary, Milliman, has certified a rate that is actuarially sound for this program. These rates are reflected in Table 1 below:

Table 1 New Hampshire Department of Health and Human Services SFY 2020 Capitation Rate Change Based on Projected SFY 2020 MCO Enrollment by Rate Cell			
Population	January 2019 to June 2019 Capitation Rate	SFY 2020 Capitation Rate	Percentage Change
Standard Medicaid			
Base Population	\$303.54	\$315.15	3.8%
CHIP*	188.36	196.71	4.4%
Behavioral Health Population	1,294.03	1,386.51	7.1%
Total Standard Medicaid	\$371.26	\$389.03	4.8%
Granite Advantage Health Care Program			
Medically Frail	\$993.36	\$1,025.07	3.2%
Non-Medically Frail	423.21	482.80	14.1%
Total GAHCP	\$532.03	\$586.30	10.2%
Total	\$416.29	\$444.28	6.7%

*The CHIP capitation rate is an average of the specific rate cells in which CHIP members are enrolled. We do not develop a CHIP specific capitation rate.

Federal law requires that managed care rates be reviewed no less frequently than a 12-month period. The Department aligns this process with the state fiscal year. Over the last several years, the rates have been reviewed and an amendment made to the MCM contracts in May or June for the fiscal year beginning on July 1st. In order to maintain actuarial soundness, the rates are also required to be reviewed in the event of significant program changes. For example, while the Department established rates for FY 2019 last spring, the Department was required to refresh and update the rates when the Medicaid expansion program was brought back into managed care on January 1, 2019 – in the middle of the state fiscal year.

This year, there are items in both the Governor's budget and in other legislation now pending that, if and when enacted, would require Milliman to revise the rates. Specifically, there are proposals to (i) raise the rates paid to community based designated receiving facilities, (ii) add transitional housing for persons who can be discharged from New Hampshire Hospital; (iii) add mobile crisis teams or other behavioral health crisis services. All of these

additional services will have to be incorporated into the capitated rates for the managed care program consistent with their effective dates.

As a result, the Department anticipates that following the end of the legislative session, Milliman will review all program changes and any other relevant information, and adjust the rates as necessary. The Department would expect to bring an amendment to the contract in the September or October time frame for this purpose.

The certified rate established for the program that is reflected in this contract is within the Department's budget for state fiscal year 2020. Even though that the rates have been increased, a decline in the number of persons enrolled in Medicaid and a decline in the acuity of the population that has reduced expenditures in certain of the highest rate cells accounts for a reduction of total expenditure in the program within the current budget. As we have in the past, the Department and Milliman will work with the legislature in the budget process to ensure that the program is funded consistent with the budget.

Area served: Statewide.

Source of Funds: Funds for Granite Advantage Health Program are 93% Federal as appropriated by Congress and 7% Other for calendar year 2019 and 90% Federal and 10% Other for calendar year 2020; funds for the Child Health Insurance Program are 79.4% Federal as appropriated by Congress and 20.6% General funds; and funds for the standard Medicaid population funding under the Medicaid Care Management account are 51% Federal as appropriated by Congress, 24.3% General and 24.7% Other funds.

In the event that Federal funds become no longer available or are decreased below the 93% level for calendar year 2019 or 90% level for calendar year 2020, for the Granite Advantage Health Program, consistent with RSA 126-AA:3, no state general funds shall be deposited into the fund and medical services for this population would end consistent with RSA 126-AA:3, VI and the terms and conditions of the federal waiver issued by the Centers for Medicare and Medicaid Services

3.1 Notwithstanding any provision of this Agreement to the contrary, and subject to the approval of the Governor and Executive Council of the State of New Hampshire, if applicable, this Agreement, and all obligations of the parties hereunder, shall become effective on the date the Governor and Executive Council approve this Agreement as indicated in block 1.18, unless no such approval is required, in which case the Agreement shall become effective on the date the Agreement is signed by the State Agency as shown in block 1.14 ("Effective Date").

3.2 If the Contractor commences the Services prior to the Effective Date, all Services performed by the Contractor prior to the Effective Date shall be performed at the sole risk of the Contractor, and in the event that this Agreement does not become effective, the State shall have no liability to the Contractor, including without limitation, any obligation to pay the Contractor for any costs incurred or Services performed. Contractor must complete all Services by the Completion Date specified in block 1.7.

4. CONDITIONAL NATURE OF AGREEMENT.

Notwithstanding any provision of this Agreement to the contrary, all obligations of the State hereunder, including, without limitation, the continuance of payments hereunder, are contingent upon the availability and continued appropriation of funds, and in no event shall the State be liable for any payments hereunder in excess of such available appropriated funds. 5.2 The payment by the State of the contract price shall be the only and the complete reimbursement to the Contractor for all expenses, of whatever nature incurred by the Contractor in the performance hereof, and shall be the only and the complete compensation to the Contractor for the Services. The State shall have no liability to the Contractor other than the contract price.

5.3 The State reserves the right to offset from any amounts otherwise payable to the Contractor under this Agreement those liquidated amounts required or permitted by N.H. RSA 80:7 through RSA 80:7-c or any other provision of law.

5.4 Notwithstanding any provision in this Agreement to the contrary, and notwithstanding unexpected circumstances, in no event shall the total of all payments authorized, or actually made hereunder, exceed the Price Limitation set forth in block 1.8.

6. COMPLIANCE BY CONTRACTOR WITH LAWS AND REGULATIONS/ EQUAL EMPLOYMENT OPPORTUNITY.

6.1 In connection with the performance of the Services, the Contractor shall comply with all statutes, laws, regulations, and orders of federal, state, county or municipal authorities which impose any obligation or duty upon the Contractor, including, but not limited to, civil rights and equal opportunity laws. This may include the requirement to utilize auxiliary aids and services to ensure that persons with communication disabilities, including vision, hearing and speech, can communicate with, receive information from, and convey information to the Contractor. 6.2 During the term of this Agreement, the Contractor shall not discriminate against employees or applicants for employment because of race, color, religion, creed, age, sex, handicap, sexual orientation, or national origin and will take affirmative action to prevent such discrimination.

6.3 If this Agreement is funded in any part by monies of the United States, the Contractor shall comply with all the provisions of Executive Order No. 11246 ("Equal Employment Opportunity"), as supplemented by the regulations of the United States Department of Labor (41 C.F.R. Part 60), and with any rules, regulations and guidelines as the State of New Hampshire or the United States issue to implement these regulations. 7.2 Unless otherwise authorized in writing, during the term of this Agreement, and for a period of six (6) months after the Completion Date in block 1.7, the Contractor shall not hire, and shall not permit any subcontractor or other person, firm or corporation with whom it is engaged in a combined effort to perform the Services to hire, any person who is a State employee or official, who is materially involved in the procurement, administration or performance of this

Agreement. This provision shall survive termination of this Agreement.

7.3 The Contracting Officer specified in block 1.9, or his or her successor, shall be the State's representative. In the event of any dispute concerning the interpretation of this Agreement, the Contracting Officer's decision shall be final for the State.

8. EVENT OF DEFAULT/REMEDIES.

8.1 Any one or more of the following acts or omissions of the Contractor shall constitute an event of default hereunder ("Event of Default"):

8.1.1 failure to perform the Services satisfactorily or on schedule;

8.1.2 failure to submit any report required hereunder; and/or

8.1.3 failure to perform any other covenant, term or condition of this Agreement.

8.2.2 give the Contractor a written notice specifying the Event of Default and suspending all payments to be made under this Agreement and ordering that the portion of the contract price which would otherwise accrue to the Contractor during the period from the date of such notice until such time as the State determines that the Contractor has cured the Event of Default shall never be paid to the Contractor;

8.2.3 set off against any other obligations the State may owe to the Contractor any damages the State suffers by reason of any Event of Default; and/or

8.2.4 treat the Agreement as breached and pursue any of its remedies at law or in equity, or both.

9. DATA/ACCESS/CONFIDENTIALITY/PRESERVATION.

9.2 All data and any property which has been received from the State or purchased with funds provided for that purpose under this Agreement, shall be the property of the State, and shall be returned to the State upon demand or upon termination of this Agreement for any reason.

9.3 Confidentiality of data shall be governed by N.H. RSA chapter 91-A or other existing law. Disclosure of data requires prior written approval of the State.

10. **TERMINATION.** In the event of an early termination of this Agreement for any reason other than the completion of the Services, the Contractor shall deliver to the Contracting Officer, not later than fifteen (15) days after the date of termination, a report ("Termination Report") describing in detail all Services performed, and the contract price earned, to and including the date of termination. The form, subject matter, content, and number of copies of the Termination Report shall be identical to those of any Final Report described in the attached EXHIBIT A.

11. **CONTRACTOR'S RELATION TO THE STATE.** In the performance of this Agreement the Contractor is in all respects an independent contractor, and is neither an agent nor an employee of the State. Neither the Contractor nor any of its officers, employees, agents or members shall have authority to bind the State or receive any benefits, workers' compensation or other emoluments provided by the State to its employees.

12. **ASSIGNMENT/DELEGATION/SUBCONTRACTS.** The Contractor shall not assign, or otherwise transfer any interest in this Agreement without the prior written notice and consent of the State. Notwithstanding the foregoing, nothing herein contained shall be deemed to constitute a waiver of the sovereign immunity of the State, which immunity is hereby reserved to the State. This covenant in paragraph 13 shall survive the termination of this Agreement.

14. INSURANCE.

14.1 The Contractor shall, at its sole expense, obtain and maintain in force, and shall require any subcontractor or assignee to obtain and maintain in force, the following insurance:

14.1.1 comprehensive general liability insurance against all claims of bodily injury, death or property damage, in amounts of not less than \$1,000,000 per occurrence and \$2,000,000 aggregate; and

14.2 The policies described in subparagraph 14.1 herein shall be on policy forms and endorsements approved for use in the State of New Hampshire by the N.H. Department of Insurance, and issued by insurers licensed in the State of New Hampshire.

14.3 The Contractor shall furnish to the Contracting Officer identified in block 1.9, or his or her successor, a certificate(s) of insurance for all insurance required under this Agreement. Contractor shall also furnish to the Contracting Officer identified in block 1.9, or his or her successor, certificate(s) of insurance for all renewal(s) of insurance required under this Agreement no later than thirty (30) days prior to the expiration date of each of the insurance policies. The certificate(s) of insurance and any renewals thereof shall be attached and are incorporated herein by reference. Each certificate(s) of insurance shall contain a clause requiring the insurer to provide the Contracting Officer identified in block 1.9, or his or her successor, no less than thirty (30) days prior written notice of cancellation or modification of the policy.

15. WORKERS' COMPENSATION.

15.2 To the extent the Contractor is subject to the requirements of N.H. RSA chapter 281-A, Contractor shall maintain, and require any subcontractor or assignee to secure and maintain, payment of Workers' Compensation in connection with activities which the person proposes to undertake pursuant to this Agreement. Contractor shall furnish the Contracting Officer identified in block 1.9, or his or her successor, proof of Workers' Compensation in the manner described in N.H. RSA chapter 281-A and any applicable renewal(s) thereof, which shall be attached and are incorporated herein by reference. The State shall not be responsible for payment of any Workers' Compensation premiums or for any other claim or benefit for Contractor, or any subcontractor or employee of Contractor, which might arise under applicable State of New Hampshire Workers' Compensation laws in connection with the performance of the Services under this Agreement.

16. **WAIVER OF BREACH.** No failure by the State to enforce any provisions hereof after any Event of Default shall be deemed a waiver of its rights with regard to that Event of Default, or any subsequent Event of Default. No express failure to enforce any Event of Default shall be deemed a waiver of the right of the State to enforce each and all of the provisions hereof upon any further or other Event of Default on the part of the Contractor.

17. **NOTICE.** Any notice by a party hereto to the other party shall be deemed to have been duly delivered or given at the time of mailing by certified mail, postage prepaid, in a United States Post Office addressed to the parties at the addresses given in blocks 1.2 and 1.4, herein.

18. **AMENDMENT.** This Agreement may be amended, waived or discharged only by an instrument in writing signed by the parties hereto and only after approval of such amendment, waiver or discharge by the Governor and Executive Council of the State of New Hampshire unless no

The wording used in this Agreement is the wording chosen by the parties to express their mutual intent, and no rule of construction shall be applied against or in favor of any party.

20. **THIRD PARTIES.** The parties hereto do not intend to benefit any third parties and this Agreement shall not be construed to confer any such benefit.

21. **HEADINGS.** The headings throughout the Agreement are for reference purposes only, and the words contained therein shall in no way be held to explain, modify, amplify or aid in the interpretation, construction or meaning of the provisions of this Agreement.

22. **SPECIAL PROVISIONS.** Additional provisions set forth in the attached EXHIBIT C are incorporated herein by reference.

23. **SEVERABILITY.** In the event any of the provisions of this Agreement are held by a court of competent jurisdiction to be contrary to any state or federal law, the remaining provisions of this Agreement will remain in full force and effect.

4.1.3.5.2 DHHS may determine that the alternative service or setting is a medically appropriate and cost-effective substitute by either: prospectively providing to the MCO a list of services that the MCO may consider In Lieu Of Services; or by the MCO receiving approval from DHHS to implement an In Lieu Of Service.

4.1.3.5.3 DHHS has authorized medical nutrition, diabetes self-management, and assistance in finding and keeping housing (not including rent), as In Lieu Of Services. This list may be expanded upon or otherwise modified by DHHS through amendments of this Agreement.

4.1.3.5.5 The MCO shall monitor the cost-effectiveness of each approved In Lieu of Service by tracking utilization and expenditures and submit an annual update providing an evaluation of the cost-effectiveness of the alternative service during the previous twelve (12) months, in accordance with Exhibit O.

4.1.5.5 The MCO shall not deny treatment obtained when a Member had an Emergency Medical Condition, including cases in which the absence of immediate medical attention would not have had the outcomes specified in 42 CFR 438.114(a) of the definition of Emergency Medical Condition.

4.1.5.6 The MCO shall not deny payment for treatment obtained when a representative, such as a Participating Provider, or the MCO instructs the Member to seek Emergency Services [Section 1932(b)(2) of the Social Security Act; 42 CFR 438.114(c)(1)(i); 42 CFR 438.114(c)(1)(ii)(A) - (B)].

4.1.5.7 The MCO shall not limit what constitutes an Emergency Medical Condition on the basis of lists of diagnoses or symptoms.

4.1.5.8 The MCO shall not refuse to cover Emergency Services based on the emergency room Provider, hospital, or fiscal agent not notifying the Member's PCP, MCO, or DHHS of the Member's screening and treatment within ten (10) calendar days of presentation for Emergency Services. [42 CFR 438.114(e); 42 CFR 422.113(c)(2)(i)-(ii); 422.113(c)(2)(iii)(A)-(C)]

4.1.6.2 The MCO shall limit charges to Members for Post-Stabilization Services to an amount no greater than what the organization would charge the Member if the Member had obtained the services through the MCO. [[42 CFR 438.114(e); 42 CFR 422.113(c)(2)(iv)]

4.1.6.3 The MCO's financial responsibility for Post-Stabilization Services, if not pre-approved, ends when:

4.1.8.1 The MCO shall provide the full range of preventive, screening, diagnostic and treatment services including all medically necessary 1905(a) services that correct or ameliorate physical and mental illnesses and conditions for EPSDT eligible beneficiaries ages birth to twenty-one in accordance with 1905(r) of the Social Security Act. [42 CFR 438.210(a)(5)]

4.1.8.2 The MCO shall determine whether a service is Medically Necessary on a case by case basis, taking into account the medical necessity criteria specific to EPSDT defined in 42 U.S.C. Section 1396d(r), 42 CFR 438.210, and 42 CFR Subpart B—Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) of Individuals Under Age 21, and the particular needs of the child and consistent with the definition for Medical Necessity included in this Agreement.

4.1.8.3 Upon conclusion of an individualized review of medical necessity, the MCO shall cover all Medically Necessary services that are included within the categories of mandatory and optional services listed in 42 U.S.C. Section 1396d(a), regardless of whether such services are covered under the Medicaid State Plan and regardless of whether the request is labeled as such, with the exception of all services excluded from the MCO.

4.1.8.4 The MCO may provide Medically Necessary services in the most economic mode possible, as long as:

4.1.8.4.1 The treatment made available is similarly efficacious to the service requested by the Member's physician, therapist, or other licensed practitioner;

4.1.8.4.2 The determination process does not delay the delivery of the needed service; and

4.1.8.4.3 The determination does not limit the Member's right to a free choice of Participating Providers within the MCO's network.

4.1.8.5 Specific limits (number of hours, number of visits, or other limitations on scope, amount or frequency, multiple services same day, or location of service) in the MCO clinical coverage policies, service definitions, or billing codes do not apply to Medicaid Members less than twenty-one (21) years of age, when those services are determined to be Medically Necessary per federal EPSDT criteria.

The MCO may require Prior Authorization for other diagnostic and treatment products and services provided under EPSDT.

4.1.8.8 The MCO shall conduct Prior Authorization reviews using current clinical documentation, and shall consider the individual clinical condition and health needs of the child Member. The MCO shall not make an adverse benefit determination on a service authorization request for a Member less than twenty-one (21) years of age until the request is reviewed per EPSDT criteria.

4.1.8.9 While an EPSDT request is under review, the MCO may suggest alternative services that may be better suited to meet the Member's needs, engage in clinical or educational discussions with Members or Providers, or engage in informal attempts to resolve Member concerns as long as the MCO makes clear that the Member has the right to request authorization of the services he or she wants to request.

4.1.8.10 The MCO shall develop effective methods to ensure that Members less than twenty-one (21) years of age receive all elements of preventive health screenings recommended by the AAP in the Academy's most currently published Bright Futures preventive pediatric health care periodicity schedule using a validated screening tool. The MCO shall be responsible for requiring in contracts that all Participating Providers that are PCPs perform such screenings.

4.1.8.11 The MCO shall require that PCPs that are Participating Providers include all the following components in each medical screening:

4.1.8.11.1 Comprehensive health and developmental history that assesses for both physical and mental health, as well as for Substance Use Disorders;

4.1.8.13 The MCO shall perform outreach to Members who are due or overdue for an EPSDT screening service on a monthly basis.

4.1.8.13.1 The MCO shall provide referral assistance for non-medical treatment not covered by the plan but found to be needed as a result of conditions disclosed during screenings and diagnosis.

4.1.8.14 The MCO shall submit its EPSDT plan for DHHS review and approval as part of its Readiness Review and in accordance with Exhibit O.

4.1.9 Non-Emergency Medical Transportation (NEMT)

4.1.9.2 The MCO shall provide the most cost-effective and least expensive mode of transportation to its Members. However, the MCO shall ensure that a Member's lack of personal transportation is not a barrier of accessing care. The MCO and/or any Subcontractors shall be required to comply with all of the NEMT Medicaid State Plan requirements.

4.1.9.3 The MCO shall ensure that its Members utilize a Family and Friends Mileage Reimbursement Program if they have a car, or a friend or family member with a car, who can drive them to their Medically Necessary service. 4.14 Alternative Payment Models

4.14.1 As required by the special terms and conditions of The NH Building Capacity for Transformation waiver, NH is implementing a strategy to expand use of APMs that promote the goals of the Medicaid program to provide the right care at the right time, and in the right place through the delivery of high-quality, cost-effective care for the whole person, and in a manner that is transparent to DHHS, Providers, and the stakeholder community.

4.14.2 In developing and refining its APM strategy, DHHS relies on the framework established by the Health Care Payment Learning and Action Network APM framework (or the "HCP-LAN APM framework") in order to:

4.14.2.1. Clearly and effectively communicate DHHS requirements through use of the defined categories established by HCP-LAN;

4.14.2.2 Encourage the MCO to align MCM APM offerings to other payers' APM initiatives to minimize Provider burden; and

4.14.2.3 Provide an established framework for monitoring MCO performance on APMs.

4.14.3 Prior to and/or over the course of the Term of this Agreement, DHHS shall develop the DHHS Medicaid APM Strategy, which may result in additional guidance, templates, worksheets and other materials that elucidate the requirements to which the MCO is subject under this Agreement.

4.14.4 Within the guidance parameters established and issued by DHHS and subject to DHHS approval, the MCO shall have flexibility to design Qualifying APMs (as defined in Section 4.14 of this Agreement) consistent with the DHHS Medicaid APM strategy and in conformance with CMS guidance.

4.14.5 The MCO shall support DHHS in developing the DHHS Medicaid APM Strategy through participation in stakeholder meetings and planning efforts, providing all required and otherwise requested information related to APMs, sharing data and analysis, and other activities as specified by DHHS.

4.14.6 For any APMs that direct the MCO's expenditures under 42 CFR 438.6(c)(1)(i) or (ii), the MCO and DHHS shall ensure that it:

4.14.6.1 Makes participation in the APM available, using the same terms of performance, to a class of Providers providing services under the contract related to the reform or improvement initiative;

4.14.6.2 Uses a common set of performance measures across all the Providers;

4.14.6.3 Does not set the amount or frequency of the expenditures; and

4.14.6.4 Does not permit DHHS to recoup any unspent funds allocated for these arrangements from the MCO. [42 CFR 438.6(c)]

4.14.7 Required Use of Alternative Payment Models Consistent with the New Hampshire Building Capacity for Transformation Waiver

4.14.7.1 Consistent with the requirements set forth in the special terms and conditions of NH's Building Capacity for Transformation waiver, the MCO shall ensure through its APM Implementation Plan (as described in Section 4.14) that fifty percent (50%) of all MCO medical expenditures are in Qualifying APMs, as defined by DHHS, within the first twelve (12) months of this Agreement, subject to the following exceptions:

4.14.7.1.1 If the MCO is newly participating in the MCM program as of the Program Start Date, the MCO shall have eighteen (18) months to meet this requirement; and

4.14.7.1.2 If the MCO determines that circumstances materially inhibit its ability to meet the APM implementation requirement, the MCO shall detail to DHHS in its proposed APM Implementation Plan an extension request: the reasons for its inability to meet the requirements of this section and any additional information required by DHHS.

4.14.7.1.2.1. If approved by DHHS, the MCO may use its alternative approach, but only for the period of time requested and approved by DHHS, which is not to exceed an additional six (6) months after the initial 18 month period.

4.14.7.1.2.2. For failure to meet this requirement, DHHS reserves the right to issue remedies as described in Section 5.5.2 (Liquidated Damages) and Exhibit N, Section 3.2 (Liquidated Damages Matrix).

4.14.7.2 MCO Incentives and Penalties for APM Implementation

4.14.7.2.1 Consistent with RSA 126-AA, the MCO shall include, through APMs and other means, Provider alignment incentives to leverage the combined DHHS, MCO, and providers to achieve the purpose of the incentives.

4.14.7.2.2 MCOs shall be subject to incentives, at DHHS' sole discretion, and/or penalties to achieve improved performance, including preferential auto-assignment of new members, use of the MCM Withhold and Incentive Program (including the shared incentive pool), and other incentives.

4.14.8 Qualifying Alternative Payment Models

4.14.8.1 A Qualifying APM is a payment approach approved by DHHS as consistent with the standards specified in this Section 4.14.8 (Qualifying Alternative Payment Models) and the DHHS Medicaid APM Strategy.

4.14.8.2 At minimum, a Qualifying APM shall meet the requirements of the HCP-LAN APM framework Category 2C, based on the refreshed 2017 framework released on July 11, 2017 and all subsequent revisions.

4.14.8.3 As indicated in the HCP-LAN APM framework white paper, Category 2C is met if the payment arrangement between the MCO and Participating Provider(s) rewards Participating Providers that perform well on quality metrics and/or penalizes Participating Providers that do not perform well on those metrics.

4.14.8.4 HCP-LAN Categories 3A, 3B, 4A, 4B, and 4C shall all also be considered Qualifying APMs, and the MCO shall increasingly adopt such APMs over time in accordance with its APM Implementation Plan and the DHHS Medicaid APM Strategy.

4.14.8.5 DHHS shall determine, on the basis of the Standardized Assessment of APM Usage described in Section 4.14.10.2 (Standardized Assessment of Alternative Payment Model Usage) below and the additional information available to DHHS, the HCP-LAN Category to which the MCO's APM(s) is/are aligned.

4.14.8.6 Under no circumstances shall DHHS consider a payment methodology that takes cost of care into account without also considering quality a Qualifying APM.

4.14.8.7 Standards for Large Providers and Provider Systems

4.14.8.7.1 The MCO shall predominantly adopt a total cost of care model with shared savings for large Provider systems to the maximum extent feasible, and as further defined by the DHHS Medicaid APM Strategy.

4.14.8.8 Treatment of Payments to Community Mental Health Programs

4.14.8.8.1 The CMH Program payment model prescribed by DHHS in Section 4.11.5.1 (Contracting for Community Mental Health Services) shall be deemed to meet the definition of a Qualifying APM under this Agreement.

4.14.8.8.2 At the sole discretion of DHHS, additional payment models specifically required by and defined as an APM by DHHS shall also be deemed to meet the definition of a Qualifying APM under this Agreement.

4.14.8.9 Accommodations for Small Providers

4.14.8.9.1 The MCO shall develop Qualifying APM models appropriate for small Providers, as further defined by the DHHS Medicaid APM Strategy.

4.14.8.9.2 For example, the MCO may propose to DHHS models that incorporate pay-for-performance bonus incentives and/or per Member per month payments related to Providers' success in meeting actuarially-relevant cost and quality targets.

4.14.8.10 Alignment with Existing Alternative Payment Models and Promotion of Integration with Behavioral Health

4.14.8.10.1 The MCO shall align APM offerings to current and emerging APMs in NH, both within Medicaid and across other payers (e.g., Medicare and commercial shared savings

4.14.8.10.2 The MCO shall incorporate APM design elements into its Qualifying APMs that permit Participating Providers to attest to participation in an "Other Payer Advanced APM" (including but not limited to a Medicaid Medical Home Model) under the requirements of the Quality Payment Program as set forth by the Medicare Access and CHIP Reauthorization Act of 2015 (MACRA).

4.14.9 MCO Alternative Payment Model Implementation Plan

4.14.9.3 Additional details on the timing, format, and required contents of the MCO APM Implementation Plan shall be specified by DHHS in Exhibit O and/or through additional guidance.

4.14.9.4 Alternative Payment Model Transparency

4.14.9.4.1 The MCO shall describe in its APM Implementation Plan, for each APM offering and as is applicable, the actuarial and public health basis for the MCO's methodology, as well as the basis for developing and assessing Participating Provider performance in the APM, as described in Section 4.14.10 (Alternative Payment Model Transparency and Reporting Requirements). The APM Implementation Plan shall also outline how integration is promoted by the model among the MCO, Providers, and Members.

4.14.9.5 Provider Engagement and Support

4.14.9.5.1 The APM Implementation Plan shall describe a logical and reasonably achievable approach to implementing APMs, supported by an understanding of NH Medicaid Providers' readiness for participation in APMs, and the strategies the MCO shall use to assess and advance such readiness over time.

4.14.9.5.2 The APM Implementation Plan shall outline in detail what strategies the MCO plans to use, such as, meetings with Providers and IDNs, as appropriate, and the frequency of such meetings, the provision of technical support, and a data sharing strategy for Providers reflecting the transparency, reporting and data sharing obligations herein and in the DHHS Medicaid APM Strategy.

4.14.9.5.4 MCO shall provide the financial support for the Provider infrastructure necessary to develop and implement APM arrangements that increase in sophistication over time.

4.14.9.6 Implementation Approach

4.14.9.6.1 The MCO shall include in the APM Implementation Plan a detailed description of the steps the MCO shall take to advance its APM Implementation Plan:

4.14.9.6.1.1. In advance of the Program Start Date;

4.14.9.6.1.2. During the first year of this Agreement;
and

4.14.9.6.1.3. Into the second year and beyond, clearly articulating its long-term vision and goals for the advancement of APMs over time.

4.14.9.6.2 The APM Implementation Plan shall include the MCO's plan for providing the necessary data and information to participating APM Providers to ensure Providers' ability to successfully implement and meet the performance expectations included in the APM, including how the MCO shall ensure that the information received by Participating Providers is meaningful and actionable.

4.14.9.6.3 The MCO shall provide data to Providers and IDNs, as appropriate, that describe the retrospective cost and utilization patterns for Members, which shall inform the strategy and design of APMs.

4.14.9.6.4 For each APM entered into, the MCO shall provide timely and actionable cost, quality and utilization information to Providers participating in the APM that enables and tracks performance under the APM.

4.14.9.6.5 In addition, the MCO shall provide Member and Provider level data (e.g., encounter and claims information) for concurrent real time utilization and care management interventions.

4.14.9.6.6 The APM Implementation Plan shall describe in example form to DHHS the level of information that shall be given

5.3.4.1.10 Upon receipt of notification from DHHS, the MCO shall send notice of the decision to suspend program payments to the Provider within the following timeframe:

5.3.4.1.10.1. Within five (5) calendar days of taking such action unless requested in writing by DHHS, the MFCU, or law enforcement to temporarily withhold such notice; or

5.3.4.1.10.3. The request for delay may be renewed in writing no more than twice and in no event may the delay exceed ninety (90) calendar days.

5.3.4.1.11 The notice shall include or address all of the following (42 CFR 455.23(2)):

5.3.4.1.11.1. That payments are being suspended in accordance with this provision;

5.3.4.1.11.2. Set forth the general allegations as to the nature of the suspension action. The notice need not disclose any specific information concerning an ongoing investigation;

5.3.4.1.11.3. That the suspension is for a temporary period and cite the circumstances under which the suspension shall be lifted;

5.3.4.1.11.4. Specify, when applicable, to which type or types of claims or business units the payment suspension relates; and

5.3.4.1.11.5. Where applicable and appropriate, inform the Provider of any appeal rights available to the Provider, along with the Provider's right to submit written evidence for consideration by the MCO.

5.3.4.2 All suspension of payment actions under this Section of the Agreement shall be temporary and shall not continue after either of the following:

5.3.4.2.1 The MCO is notified by DHHS that there is insufficient evidence of fraud by the Provider; or

5.3.4.2.2 The MCO is notified by DHHS that the legal proceedings related to the Provider's alleged fraud are completed.

5.3.4.3 The MCO shall document in writing the termination of a payment suspension and issue a notice of the termination to the Provider and to DHHS.

5.3.4.4 The DHHS Program Integrity Unit may find that good cause exists not to suspend payments, in whole or in part, or not to continue a payment suspension previously imposed, to an individual or entity against which there is an investigation of a credible allegation of fraud if any of the following are applicable:

5.3.4.4.1 MFCU or other law enforcement officials have specifically requested that a payment suspension not be imposed because such a payment suspension may compromise or jeopardize an investigation;

5.3.4.4.2 Other available remedies are available to the MCO, after DHHS approves the remedies that more effectively or quickly protect Medicaid funds;

5.3.4.4.3 The MCO determines, based upon the submission of written evidence by the individual or entity that is the subject of the payment suspension, there is no longer a credible allegation of fraud and that the suspension should be removed.

5.3.4.4.3.1. The MCO shall review evidence submitted by the Provider and submit it with a recommendation to DHHS.

5.3.4.4.3.2. DHHS shall direct the MCO to continue, reduce or remove the payment suspension within thirty (30) calendar days of having received the evidence;

5.3.4.4.4 Member access to items or services would be jeopardized by a payment suspension because of either of the following:

5.3.4.4.4.1. An individual or entity is the sole community physician or the sole source of essential specialized services in a community; or

5.3.4.4.4.2. The individual or entity serves a large number of Members within a federal HRSA designated a medically underserved area;

5.3.4.4.5 MFCU or law enforcement declines to certify that a matter continues to be under investigation; or

5.3.4.5 The MCO shall maintain for a minimum of six (6) years from the date of issuance all materials documenting:

5.3.4.5.2 Each instance when a payment suspension was not imposed or was discontinued for good cause.

5.3.4.6 If the MCO fails to suspend payments to an entity or individual for whom there is a pending investigation of a credible allegation of fraud without good cause, and DHHS directed the MCO to suspend payments, DHHS may impose liquidated damages.

5.3.4.7 If any government entity, either from restitutions, recoveries, penalties or fines imposed following a criminal prosecution or guilty plea, or through a civil settlement or judgment, or any other form of civil action, receives a monetary recovery from any entity or individual, the entirety of such monetary recovery belongs exclusively to the State, and the MCO and any involved Subcontractor have no claim to any portion of such recovery.

5.3.4.8 Furthermore, the MCO is fully subrogated, and shall require its Subcontractors to agree to subrogate, to the State for all criminal, civil and administrative action recoveries undertaken by any government entity, including but not limited to all claims the MCO or its Subcontractor(s) has or may have against any entity or individual that directly or indirectly receives funds under this Agreement, including but not limited to any health care Provider, manufacturer, wholesale or retail supplier, sales representative, laboratory, or other Provider in the design, manufacture, Marketing, pricing, or quality of drugs, pharmaceuticals, medical supplies, medical devices, DME, or other health care related products or services.

5.3.4.8.1 For the purposes of this Section of the Agreement, "subrogation" means the right of any State government entity or local law enforcement to stand in the place of the MCO or client in the collection against a third party.

5.3.4.9 Any funds recovered and retained by a government entity shall be reported to the actuary to consider in the rate-setting process.

5.3.5.6.1 The additional access shall be provided within three (3) business days of the request.

5.3.5.7 The MCO and its Subcontractors shall request a refund from a third-party payor, Provider or Subcontractor when an investigation indicates that such a refund is due.

5.3.5.7.1 These refunds shall be reported to DHHS as Overpayments.

5.3.5.8 DHHS shall conduct investigations related to suspected Provider fraud, waste and abuse cases, and reserves the right to pursue and retain recoveries for all claims (regardless of paid date) to a Provider with a paid date older than four (4) months for which the MCO has not submitted a request to open and for which the MCO continued to pursue the case. The State shall notify the MCO of any investigation it intends to open prior to contacting the Provider.

5.5.1.1 The Parties acknowledge and agree that a material default or breach in this Agreement shall cause irreparable injury to DHHS.

5.5.1.2 The MCO acknowledges that failure to comply with provisions of this Agreement may, at DHHS's sole discretion, result in the assessment of liquidated damages, termination of the Agreement in whole or in part, and/or imposition of other sanctions as set forth in this Agreement and as otherwise available under State and federal law.

5.5.1.3 In the event of any claim for default or breach of this Agreement, no provision of this Agreement shall be construed, expressly or by implication, as a waiver by the State to any existing or future right or remedy available by law.

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549, 45 CFR Part 76. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

The price limitation for subsequent years within the Term will be provided following calculation of rates for each subsequent year.

3. Health Insurance Providers Fee

Contractor is responsible for a percentage of the Annual Fee for all health insurance providers as determined by the ratio of Contractor's net written premiums for the preceding year compared to the total net written premiums of all entities subject to the Annual Fee for the same year.

The State shall reimburse the Contractor for the amount of the Annual Fee specifically allocable to the premiums paid during this Contract Term for each calendar year or part thereof, including an adjustment for the full impact of the non-deductibility of the Annual Fee for Federal and state tax purposes, including income and excise taxes ("Contractor's Adjusted Fee"). The State will provide reimbursement within 30 days following its review and acceptance of the Contractor's Adjusted Fee.

To claim reimbursement for the Contractor's Adjusted Fee the Contractor must submit a certified copy of its full Annual Fee assessment within 60 days of receipt, together with the allocation of the Annual Fee attributable specifically to its premiums under this Contract. The Contractor must also submit the calculated adjustment for the impact of non-deductibility of the Annual Fee attributable specifically to its premiums under this Contract, and any other data deemed necessary by the State to validate the

REQUESTED ACTION

Authorize the Department of Health and Human Services to enter into Agreements with, AmeriHealth Caritas New Hampshire Inc., 200 Steven Drive, Philadelphia, PA 19113, Boston Medical Center Health Plan Inc., Schraffts City Center, 529 Main Street, Suite 500, Charlestown, MA 02129, and Granite State Health Plan Inc., 2 Executive Park Drive, Bedford NH, 03110, to provide health care services to eligible and enrolled Medicaid participants through New Hampshire's Medicaid managed care program known as New Hampshire Medicaid Care Management, in an amount, for State Fiscal Year 2020 shared by all vendors, not to exceed \$924,150,000, effective upon Governor and Executive Council approval, with providing services to members on July 1, 2019 through the completion date of June 30, 2024.

Funds for Granite Advantage Health Program are 93% Federal and 7% Other for calendar year 2019 and 90% Federal and 10% Other for calendar year 2020; funds for the Child Health Insurance Program are 79.4% Federal and 20.6% General funds; and funds for the standard Medicaid population funding under the Medicaid Care Management account are 51% Federal, 24.3% General and 24.7% Other funds.

Funds are anticipated to be available in the following account(s) for State Fiscal Years (SFY) 2020 through 2024 upon the availability and continued appropriation of funds in the future operating budgets. The Centers for Medicare and Medicaid Services (CMS) requires that managed care rate certifications must be done on a twelve-month rating period demonstrating actuarial soundness thereby necessitating annual rate reviews in order to determine amounts each state fiscal year and corresponding contract amendments. Rates will be updated annually and as necessary for changes in the program enacted by the legislature. A description of how this contract aligns with the state budget process is included in the explanation below. For these reasons, expenditures for the program are identified only for SFY 2020.

EXPLANATION

The purpose of this request is to enter into capitated, risk-based Agreements to provide acute care and other medical services to eligible and enrolled Medicaid participants New Hampshire's Medicaid managed care program known as New Hampshire Medicaid Care Management. ~~These three (3) Vendors will serve approximately 180,000 members including pregnant women, children, parents/caretakers, non-elderly, non-disabled adults under the age of 65, and individuals who are aged, blind or disabled, among others, as described in the Medicaid Care Management (MCM) contracts.~~ The Managed Care Organizations (MCOs) will cover the acute care, behavioral health, and pharmacy services for all Members and work with the Department of Health and Human Services (DHHS) to address the crucial social determinants of health in accordance with the attached MCM contracts.

The MCO Vendors will provide a person-centered, integrated, and comprehensive delivery system that offers a very substantial array of accessible Medicaid services, taking into account each Member's physical well-being, behavioral health (mental health and substance use disorders), and social circumstances. DHHS will challenge its MCO partners to work responsively with the provider community and MCM Members to improve access to care and promote healthy behaviors. New Hampshire's MCM program will incentivize value over volume, enhance program efficiency, and hold MCOs accountable for demonstrable improvements in health outcomes.

Two of the Vendors, Boston Medical Center Health Plan Inc., and Granite State Health Plan Inc., are respectively otherwise known as Well Sense Health Plan, and New Hampshire Healthy Families. The Department presently contracts with both of these Vendors to provide New Hampshire's Medicaid Care Management program.

I. Procurement Process

These contracts represent the culmination of the Department's first re-procurement of the MCM program since its commencement in December 2013. The Department's process for the development of the program reflected in the contracts and the contracts themselves represent a significant improvement over the prior procurement process and the program itself. The Department -- for the first time ever -- put out the Request for Proposals for public comment and held public information sessions in each of the Executive Council Districts last July in Concord, Keene, Manchester, Nashua, Littleton and Portsmouth before it was issued to potential respondents.

These three (3) Vendors were selected through a competitive bid process. A Request for Proposals RFP-2019-OMS-MANAG-02 was posted on the Department of Health and Human Services' web site from August 30, 2018 through October 31, 2018. A mandatory bidder's conference was held on September 7, 2018. In-person attendance at the Mandatory Bidder's Conference was a requirement to submit a proposal. The Department received four (4) proposals. The proposals were reviewed and scored by a team of individuals with program specific knowledge. The Bid Summary is attached.

II. Central Features of the New MCM Program

This procurement was also focused on improving the program for beneficiaries and providers and introducing many new features. The goals of the new MCM program are to

- Improve care of Members
- Improve health outcomes
- Reduce inpatient hospitalization and re-admissions
- Improve continuity of care across the full continuum of care
- Improve transition planning when care is completed
- Improve medication management
- Reduce unnecessary emergency services
- Decrease the total cost of care
- Increase member satisfaction
- Improve provider participation in the program

In order to help achieve these goals, the new contracts make many changes in the current program. These include the following:

- **Additional Care Coordination and Care Management** resources to provide significantly more beneficiary support to those in greater need, including providing it at a local level. MCOs must provide Care Management for at least 15% of high-risk/high-need members, and MCOs must conduct local care management or contract with a designated care management entity for at least 50% of high-risk/high-need members.
- **Behavioral Health (Mental Health and Substance Use Disorder) provisions** support integration of care with physical health, implementation of the Department's new 10-year Mental Health Plan, and advance SUD treatment. MCOs are required to take into account each person's physical health, behavioral health (mental health and substance use disorders), and social and economic needs. MCOs are required to work with Members, Providers, integrated delivery networks (IDNs), and community mental health

programs (CMHPs) to integrate physical health and behavioral health and address social determinants of health that affect health outcomes and the cost-effectiveness of care.

- **Emergency Room Waiting Measures** include the provision of additional clinical staff to support the provision of services in hospital emergency departments to reduce the need for Members to wait for inpatient services.
- **Support the Community Mental Health Centers and Substance Use Disorder Providers** by entering into capitated payment arrangements with Community Mental Health Programs and Providers, and reimburse substance use disorder providers at rates no less than the DHHS fee-for-service rates. MCOs must also contract with any willing peer recovery provider.
- **Alternative Payment Models (APMs)** provisions require MCOs to incentivize value over volume and significantly reduce current fee for service billing arrangements.
- **Community Engagement** specifies a role for the MCOs to support beneficiaries in fulfilling the Community Engagement requirement, including assisting their members with understanding qualifying activities, and exemptions.
- **New Provider Supports** require MCOs to implement prompt and accessible credentialing and re-credentialing processes that will be used to conduct provider outreach and support; standardize work processes to ensure efficient implementation of the program and minimal provider burden relative to claims billing processes, reporting, and prior authorizations; meet prompt payment requirements and pay claims based on the effective date of the Current Procedural Terminology code, and establish a provider grievance and appeals process.

- **Pharmacy Counselling and Management** are strengthened to help improve the safety and therapeutic benefits to beneficiaries and the economy of the program.
- **Beneficiary Choice and Competition** is increased by providing Medicaid beneficiaries with three high-quality MCOs from which to choose.

- **Incentives and opportunities for beneficiaries to participate in healthy behaviors** must be provided by MCOs to improve individual health.
- **Cost transparency** through reference based pricing and incentives to beneficiaries.
- **Accountability for results** is increasing because a share of payment to MCOs will be directly linked to their performance, ensuring accountability for results, particularly in high priority areas such as addressing substance use disorders, integrating physical and behavioral health, providing robust care management, and reducing unnecessary use of high-cost services.
- **Public Reporting** is an added contract element. Each selected MCO will be responsible for submitting an annual report to the Governor and the legislature reporting on how the MCO has addressed State priorities for the MCM Program, including those specified in RSA 126-AA and in other State statute, policies, and guidelines; what innovative programs it has established; how it is addressing social determinants of health of its members, and how it is improving the population health of the state and other key metrics of the program.
- **Heighten program compliance and integrity provisions** have been added that allow for liquidated damages to be applied to the MCOs around contractual performance; provisions that incent MCO performance around collections for third party liability and coordination of benefits; and general fraud waste and abuse.

- **Medical Loss Ratio** is specified in the contract at a minimum amount of 85% that must be spent on service delivery to beneficiaries, any amount less is to be rebated back to the Program.

III. Rate-making and Budget

The Department's actuary, Milliman, has certified a rate that is actuarially sound for this program. These rates are reflected in Table I below:

Table 1 New Hampshire Department of Health and Human Services SFY 2020 Capitation Rate Change Based on Projected SFY 2020 MCO Enrollment by Rate Cell			
Population	January 2019 to June 2019 Capitation Rate	SFY 2020 Capitation Rate	Percentage Change
Standard Medicaid			
Base Population	\$303.54	\$315.15	3.8%
CHIP*	188.36	196.71	4.4%
Behavioral Health Population	1,294.03	1,386.51	7.1%
Total Standard Medicaid	\$371.26	\$389.03	4.8%
Granite Advantage Health Care Program			
Medically Frail	\$993.36	\$1,025.07	3.2%
Non-Medically Frail	423.21	482.80	14.1%
Total GAHCP	\$532.03	\$586.30	10.2%
Total	\$416.29	\$444.28	6.7%

*The CHIP capitation rate is an average of the specific rate cells in which CHIP members are enrolled. We do not develop a CHIP specific capitation rate.

Federal law requires that managed care rates be reviewed no less frequently than a 12-month period. The Department aligns this process with the state fiscal year. Over the last several years, the rates have been reviewed and an amendment made to the MCM contracts in May or June for the fiscal year beginning on July 1st. In order to maintain actuarial soundness, the rates are also required to be reviewed in the event of significant program changes. For example, while the Department established rates for FY 2019 last spring, the Department was required to refresh and update the rates when the Medicaid expansion program was brought back into managed care on January 1, 2019 – in the middle of the state fiscal year.

This year, there are items in both the Governor's budget and in other legislation now pending that, if and when enacted, would require Milliman to revise the rates. Specifically, there are proposals to (i) raise the rates paid to community based designated receiving facilities, (ii) add transitional housing for persons who can be discharged from New Hampshire Hospital; (iii) add mobile crisis teams or other behavioral health crisis services. All of these

additional services will have to be incorporated into the capitated rates for the managed care program consistent with their effective dates.

As a result, the Department anticipates that following the end of the legislative session, Milliman will review all program changes and any other relevant information, and adjust the rates as necessary. The Department would expect to bring an amendment to the contract in the September or October time frame for this purpose.

The certified rate established for the program that is reflected in this contract is within the Department's budget for state fiscal year 2020. Even though that the rates have been increased, a decline in the number of persons enrolled in Medicaid and a decline in the acuity of the population that has reduced expenditures in certain of the highest rate cells accounts for a reduction of total expenditure in the program within the current budget. As we have in the past, the Department and Milliman will work with the legislature in the budget process to ensure that the program is funded consistent with the budget.

Area served: Statewide.

Source of Funds: Funds for Granite Advantage Health Program are 93% Federal as appropriated by Congress and 7% Other for calendar year 2019 and 90% Federal and 10% Other for calendar year 2020; funds for the Child Health Insurance Program are 79.4% Federal as appropriated by Congress and 20.6% General funds; and funds for the standard Medicaid population funding under the Medicaid Care Management account are 51% Federal as appropriated by Congress, 24.3% General and 24.7% Other funds.

In the event that Federal funds become no longer available or are decreased below the 93% level for calendar year 2019 or 90% level for calendar year 2020, for the Granite Advantage Health Program, consistent with RSA 126-AA:3, no state general funds shall be deposited into the fund and medical services for this population would end consistent with RSA 126-AA:3, VI and the terms and conditions of the federal waiver issued by the Centers for Medicare and Medicaid Services

Exhibit A – Scope of Services

4.1.3.5.1 The MCO may provide Members with services or settings that are "In Lieu Of" Services or settings included in the Medicaid State Plan that are more medically appropriate, cost-effective substitutes for the Medicaid State Plan services. The MCO may cover In Lieu Of Services if:

4.1.3.5.2 DHHS may determine that the alternative service or setting is a medically appropriate and cost-effective substitute by either: prospectively providing to the MCO a list of services that the MCO may consider In Lieu Of Services; or by the MCO receiving approval from DHHS to implement an In Lieu Of Service.

4.1.3.5.3 DHHS has authorized medical nutrition, diabetes self-management, and assistance in finding and keeping housing (not including rent), as In Lieu Of Services. This list may be expanded upon or otherwise modified by DHHS through amendments of this Agreement.

4.1.3.5.4 For the MCO to obtain approval for In Lieu Of Services not authorized by DHHS, the MCO shall submit an In Lieu Of Service request to DHHS for each proposed In Lieu of Service not yet authorized.

4.1.3.5.5 The MCO shall monitor the cost-effectiveness of each approved In Lieu of Service by tracking utilization and expenditures and submit an annual update providing an evaluation of the cost-effectiveness of the alternative service during the previous twelve (12) months, in accordance with Exhibit O.

4.1.3.6 Institution for Mental Diseases (IMD)

4.1.3.6.1 Pursuant to 42 CFR 438.6, the MCO shall pay for up to fifteen (15) inpatient days per calendar month for any Member who is receiving treatment in an IMD that is not a state owned or operated facility for the primary treatment of a psychiatric disorder.

The provision of inpatient psychiatric treatment in an IMD shall meet the requirements for In Lieu of Services at 42 CFR 438.3(e)(2)(i)-(iii).

4.1.3.7 Telemedicine

4.1.3.7.1 The MCO shall comply with provisions of RSA 167:4(d) by providing access to telemedicine services to Members in certain circumstances.

4.1.3.7.2 The MCO shall develop a telemedicine clinical coverage policy and submit the policy to DHHS for review. Covered telemedicine modalities shall comply with all local, State and federal laws including the HIPAA and record retention requirements.

4.1.3.7.3 The clinical policy shall demonstrate how each covered telemedicine modality ensures security of PHI, including data security and encryption policies.

4.1.3.8 Non-Participating Indian Health Care Providers

4.1.3.8.1 American Indian/Alaska Native Members are permitted to obtain Covered Services from Non-Participating Indian Health Care Providers (IHCP) from whom the Member is otherwise eligible to receive such services. [42 CFR 438.14(b)(4)]

4.1.3.8.2 The MCO shall permit any American Indian/Alaska Native Member who is eligible to receive services from an IHCP PCP that is a Participating Provider, to choose that IHCP as their PCP, as long as that Provider has capacity to provide the services. 4.1.3.9 Moral and Religious Grounds

4.1.7 Value-Added Services

4.1.8 Early and Periodic Screening, Diagnostic, and Treatment

4.1.8.1 The MCO shall provide the full range of preventive, screening, diagnostic and treatment services including all medically necessary 1905(a) services that correct or ameliorate physical and mental illnesses and conditions for EPSDT eligible beneficiaries ages birth to twenty-one in accordance with 1905(r) of the Social Security Act. [42 CFR 438.210(a)(5)]

4.1.8.2 The MCO shall determine whether a service is Medically Necessary on a case by case basis, taking into account the medical necessity criteria specific to EPSDT defined in 42 U.S.C. Section 1396d(r), 42 CFR 438.210, and 42 CFR Subpart B—Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) of Individuals Under Age 21, and the particular needs of the child and consistent with the definition for Medical Necessity included in this Agreement.

4.1.8.3 Upon conclusion of an individualized review of medical necessity, the MCO shall cover all Medically Necessary services that are included within the categories of mandatory and optional services listed in 42 U.S.C. Section 1396d(a), regardless of whether such services are covered under the Medicaid State Plan and regardless of whether the request is labeled as such, with the exception of all services excluded from the MCO.

4.1.8.4 The MCO may provide Medically Necessary services in the most economic mode possible, as long as:

4.1.8.4.1 The treatment made available is similarly efficacious to the service requested by the Member's physician, therapist, or other licensed practitioner;

4.1.8.4.2 The determination process does not delay the delivery of the needed service; and

4.1.8.4.3 The determination does not limit the Member's right to a free choice of Participating Providers within the MCO's network.

4.1.8.5 Specific limits (number of hours, number of visits, or other limitations on scope, amount or frequency, multiple services same day, or location of service) in the MCO clinical coverage policies, service definitions, or billing codes do not apply to Medicaid Members less than twenty-one (21) years of age, when those services are determined to be Medically Necessary per federal EPSDT criteria.

The MCO may require Prior Authorization for other diagnostic and treatment products and services provided under EPSDT.

4.1.8.8 The MCO shall conduct Prior Authorization reviews using current clinical documentation, and shall consider the individual clinical condition and health needs of the child Member. The MCO shall not make an adverse benefit determination on a service authorization request for a Member less than twenty-one (21) years of age until the request is reviewed per EPSDT criteria.

4.1.8.9 While an EPSDT request is under review, the MCO may suggest alternative services that may be better suited to meet the Member's needs, engage in clinical or educational discussions with Members or Providers, or engage in informal attempts to resolve Member concerns as long as the MCO makes clear that the Member has the right to request authorization of the services he or she wants to request.

4.1.8.10 The MCO shall develop effective methods to ensure that Members less than twenty-one (21) years of age receive all elements of preventive health screenings recommended by the AAP in the Academy's most currently published Bright Futures preventive pediatric health care periodicity schedule using a validated screening tool. 4.14.6.1 Makes participation in the APM available, using the same terms of performance, to a class of Providers providing services under the contract related to the reform or improvement initiative;

4.14.7.1.2.1. If approved by DHHS, the MCO may use its alternative approach, but only for the period of time requested and approved by DHHS, which is not to exceed an additional six (6) months after the initial 18 month period.

5.3.4.3 The MCO shall document in writing the termination of a payment suspension and issue a notice of the termination to the Provider and to DHHS.

5.3.4.4 The DHHS Program Integrity Unit may find that good cause exists not to suspend payments, in whole or in part, or not to continue a payment suspension previously imposed, to an individual or entity against which there is an investigation of a credible allegation of fraud if any of the following are applicable:

5.3.4.4.1 MFCU or other law enforcement officials have specifically requested that a payment suspension not be imposed because such a payment suspension may compromise or jeopardize an investigation;

5.3.4.4.3 The MCO determines, based upon the submission of written evidence by the individual or entity that is the subject of the payment suspension, there is no longer a credible allegation of fraud and that the suspension should be removed.

5.3.4.4.3.1 The MCO shall review evidence submitted by the Provider and submit it with a recommendation to DHHS.

5.3.4.4.3.2 DHHS shall direct the MCO to continue, reduce or remove the payment suspension within thirty (30) calendar days of having received the evidence;

5.3.4.6 If the MCO fails to suspend payments to an entity or individual for whom there is a pending investigation of a credible allegation of fraud without good cause, and DHHS directed the MCO to suspend payments, DHHS may impose liquidated damages.

5.3.4.7 If any government entity, either from restitutions, recoveries, penalties or fines imposed following a criminal prosecution or guilty plea, or through a civil settlement or judgment, or any other form of civil action, receives a monetary recovery from any entity or individual, the entirety of such monetary recovery belongs exclusively to the State, and the MCO and any involved Subcontractor have no claim to any portion of such recovery.

5.3.4.8 Furthermore, the MCO is fully subrogated, and shall require its Subcontractors to agree to subrogate, to the State for all criminal, civil and administrative action recoveries undertaken by any government entity, including but not limited to all claims the MCO or its Subcontractor(s) has or may have against any entity or individual that directly or indirectly receives funds under this Agreement, including but not limited to any health care Provider, manufacturer, wholesale or retail supplier, sales representative, laboratory, or other Provider in the design, manufacture, Marketing, pricing, or quality of drugs, pharmaceuticals, medical supplies, medical devices, DME, or other health care related products or services.

5.3.4.8.1 For the purposes of this Section of the Agreement, "subrogation" means the right of any State government entity or local law enforcement to stand in the place of the MCO or client in the collection against a third party.

5.3.4.9 Any funds recovered and retained by a government entity shall be reported to the actuary to consider in the rate-setting process.

5.5.1.3 In the event of any claim for default or breach of this Agreement, no provision of this Agreement shall be construed, expressly or by implication, as a waiver by the State to any existing or future right or remedy available by law.

5.5.1.4 Failure of the State to insist upon the strict performance of any term or condition of this Agreement or to exercise or delay the exercise of any right or remedy provided in the Agreement or by law, or the acceptance of (or payment for) materials, equipment or services, shall not release the MCO from any responsibilities or obligations imposed by this Agreement or by law, and shall not be deemed a waiver of any right of the State to insist upon the strict performance of this Agreement.

5.5.2.2 DHHS and the MCO agree that it shall be extremely impracticable and difficult to determine actual damages that DHHS will sustain in the event the MCO fails to maintain the required performance standards within this Section during this Agreement.

5.5.2.3 The parties agree that the liquidated damages as specified in this Agreement and set forth in Exhibit N, and as updated by DHHS, are reasonable.

The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

- f. Within five (5) business days of receipt of a written request from Covered Entity, Business Associate shall make available during normal business hours at its offices all records, books, agreements, policies and procedures relating to the use and disclosure of PHI to the Covered Entity, for purposes of enabling Covered Entity to determine Business Associate's compliance with the terms of the Agreement.

- j. Within ten (10) business days of receiving a written request from Covered Entity for a request for an accounting of disclosures of PHI, Business Associate shall make available to Covered Entity such information as Covered Entity may require to fulfill its obligations to provide an accounting of disclosures with respect to PHI in accordance with 45 CFR Section 164.528.

In the event any individual requests access to, amendment of, or accounting of PHI directly from the Business Associate, the Business Associate shall within two (2) business days forward such request to Covered Entity. - l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. (4) **Obligations of Covered Entity**

- a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate's use or disclosure of PHI.

- c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.

(5) **Termination for Cause**

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

- a. **Definitions and Regulatory References.** All terms used, but not otherwise defined herein, shall have the same meaning as those terms in the Privacy and Security Rule, amended from time to time. A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.

- d. **Interpretation.** The parties agree that any ambiguity in the Agreement shall be resolved to permit Covered Entity to comply with HIPAA, the Privacy and Security Rule.

REQUESTED ACTION

Authorize the Department of Health and Human Services to enter into Agreements with, AmeriHealth Caritas New Hampshire Inc., 200 Steven Drive, Philadelphia, PA 19113, Boston Medical Center Health Plan Inc., Schraffts City Center, 529 Main Street, Suite 500, Charlestown, MA 02129, and Granite State Health Plan Inc., 2 Executive Park Drive, Bedford NH, 03110, to provide health care services to eligible and enrolled Medicaid participants through New Hampshire's Medicaid managed care program known as New Hampshire Medicaid Care Management, in an amount, for State Fiscal Year 2020 shared by all vendors, not to exceed \$924,150,000, effective upon Governor and Executive Council approval, with providing services to members on July 1, 2019 through the completion date of June 30, 2024.

Funds for Granite Advantage Health Program are 93% Federal and 7% Other for calendar year 2019 and 90% Federal and 10% Other for calendar year 2020; funds for the Child Health Insurance Program are 79.4% Federal and 20.6% General funds; and funds for the standard Medicaid population funding under the Medicaid Care Management account are 51% Federal, 24.3% General and 24.7% Other funds.

Funds are anticipated to be available in the following account(s) for State Fiscal Years (SFY) 2020 through 2024 upon the availability and continued appropriation of funds in the future operating budgets. The Centers for Medicare and Medicaid Services (CMS) requires that managed care rate certifications must be done on a twelve-month rating period demonstrating actuarial soundness thereby necessitating annual rate reviews in order to determine amounts each state fiscal year and corresponding contract amendments. Rates will be updated annually and as necessary for changes in the program enacted by the legislature. A description of how this contract aligns with the state budget process is included in the explanation below. For these reasons, expenditures for the program are identified only for SFY 2020.

EXPLANATION

The purpose of this request is to enter into capitated, risk-based Agreements to provide acute care and other medical services to eligible and enrolled Medicaid participants New Hampshire's Medicaid managed care program known as New Hampshire Medicaid Care Management. ~~These three (3) Vendors will serve approximately 180,000 members including pregnant women, children, parents/caretakers, non-elderly, non-disabled adults under the age of 65, and individuals who are aged, blind or disabled, among others, as described in the Medicaid Care Management (MCM) contracts.~~ The Managed Care Organizations (MCOs) will cover the acute care, behavioral health, and pharmacy services for all Members and work with the Department of Health and Human Services (DHHS) to address the crucial social determinants of health in accordance with the attached MCM contracts.

The MCO Vendors will provide a person-centered, integrated, and comprehensive delivery system that offers a very substantial array of accessible Medicaid services, taking into account each Member's physical well-being, behavioral health (mental health and substance use disorders), and social circumstances. DHHS will challenge its MCO partners to work responsively with the provider community and MCM Members to improve access to care and promote healthy behaviors. New Hampshire's MCM program will incentivize value over volume, enhance program efficiency, and hold MCOs accountable for demonstrable improvements in health outcomes.

Two of the Vendors, Boston Medical Center Health Plan Inc., and Granite State Health Plan Inc., are respectively otherwise known as Well Sense Health Plan, and New Hampshire Healthy Families. The Department presently contracts with both of these Vendors to provide New Hampshire's Medicaid Care Management program.

I. Procurement Process

These contracts represent the culmination of the Department's first re-procurement of the MCM program since its commencement in December 2013. The Department's process for the development of the program reflected in the contracts and the contracts themselves represent a significant improvement over the prior procurement process and the program itself. The Department -- for the first time ever -- put out the Request for Proposals for public comment and held public information sessions in each of the Executive Council Districts last July in Concord, Keene, Manchester, Nashua, Littleton and Portsmouth before it was issued to potential respondents.

These three (3) Vendors were selected through a competitive bid process. A Request for Proposals RFP-2019-OMS-MANAG-02 was posted on the Department of Health and Human Services' web site from August 30, 2018 through October 31, 2018. A mandatory bidder's conference was held on September 7, 2018. In-person attendance at the Mandatory Bidder's Conference was a requirement to submit a proposal. The Department received four (4) proposals. The proposals were reviewed and scored by a team of individuals with program specific knowledge. The Bid Summary is attached.

II. Central Features of the New MCM Program

This procurement was also focused on improving the program for beneficiaries and providers and introducing many new features. The goals of the new MCM program are to

- Improve care of Members
- Improve health outcomes
- Reduce inpatient hospitalization and re-admissions
- Improve continuity of care across the full continuum of care
- Improve transition planning when care is completed
- Improve medication management
- Reduce unnecessary emergency services
- Decrease the total cost of care
- Increase member satisfaction
- Improve provider participation in the program

In order to help achieve these goals, the new contracts make many changes in the current program. These include the following:

- **Additional Care Coordination and Care Management** resources to provide significantly more beneficiary support to those in greater need, including providing it at a local level. MCOs must provide Care Management for at least 15% of high-risk/high-need members, and MCOs must conduct local care management or contract with a designated care management entity for at least 50% of high-risk/high-need members.
- **Behavioral Health (Mental Health and Substance Use Disorder) provisions** support integration of care with physical health, implementation of the Department's new 10-year Mental Health Plan, and advance SUD treatment. MCOs are required to take into account each person's physical health, behavioral health (mental health and substance use disorders), and social and economic needs. MCOs are required to work with Members, Providers, integrated delivery networks (IDNs), and community mental health

programs (CMHPs) to integrate physical health and behavioral health and address social determinants of health that affect health outcomes and the cost-effectiveness of care.

- **Emergency Room Waiting Measures** include the provision of additional clinical staff to support the provision of services in hospital emergency departments to reduce the need for Members to wait for inpatient services.
- **Support the Community Mental Health Centers and Substance Use Disorder Providers** by entering into capitated payment arrangements with Community Mental Health Programs and Providers, and reimburse substance use disorder providers at rates no less than the DHHS fee-for-service rates. MCOs must also contract with any willing peer recovery provider.
- **Alternative Payment Models (APMs)** provisions require MCOs to incentivize value over volume and significantly reduce current fee for service billing arrangements.
- **Community Engagement** specifies a role for the MCOs to support beneficiaries in fulfilling the Community Engagement requirement, including assisting their members with understanding qualifying activities and exemptions.
- **New Provider Supports** require MCOs to implement prompt and accessible credentialing and re-credentialing processes that will be used to conduct provider outreach and support; standardize work processes to ensure efficient implementation of the program and minimal provider burden relative to claims billing processes, reporting, and prior authorizations; meet prompt payment requirements and pay claims based on the effective date of the Current Procedural Terminology code, and establish a provider grievance and appeals process.

- **Pharmacy Counselling and Management** are strengthened to help improve the safety and therapeutic benefits to beneficiaries and the economy of the program.
- **Beneficiary Choice and Competition** is increased by providing Medicaid beneficiaries with three high-quality MCOs from which to choose.

- **Incentives and opportunities for beneficiaries to participate in healthy behaviors** must be provided by MCOs to improve individual health.
- **Cost transparency** through reference based pricing and incentives to beneficiaries.
- **Accountability for results** is increasing because a share of payment to MCOs will be directly linked to their performance, ensuring accountability for results, particularly in high priority areas such as addressing substance use disorders, integrating physical and behavioral health, providing robust care management, and reducing unnecessary use of high-cost services.
- **Public Reporting** is an added contract element. Each selected MCO will be responsible for submitting an annual report to the Governor and the legislature reporting on how the MCO has addressed State priorities for the MCM Program, including those specified in RSA 126-AA and in other State statute, policies, and guidelines; what innovative programs it has established; how it is addressing social determinants of health of its members, and how it is improving the population health of the state and other key metrics of the program.
- **Heighten program compliance and integrity provisions** have been added that allow for liquidated damages to be applied to the MCOs around contractual performance; provisions that incent MCO performance around collections for third party liability and coordination of benefits; and general fraud waste and abuse.

- **Medical Loss Ratio** is specified in the contract at a minimum amount of 85% that must be spent on service delivery to beneficiaries, any amount less is to be rebated back to the Program.

III. Rate-making and Budget

The Department's actuary, Milliman, has certified a rate that is actuarially sound for this program. These rates are reflected in Table 1 below:

Table 1 New Hampshire Department of Health and Human Services SFY 2020 Capitation Rate Change Based on Projected SFY 2020 MCO Enrollment by Rate Cell			
Population	January 2019 to June 2019 Capitation Rate	SFY 2020 Capitation Rate	Percentage Change
Standard Medicaid			
Base Population	\$303.54	\$315.15	3.8%
CHIP*	188.36	196.71	4.4%
Behavioral Health Population	1,294.03	1,386.51	7.1%
Total Standard Medicaid	\$371.26	\$389.03	4.8%
Granite Advantage Health Care Program			
Medically Frail	\$993.36	\$1,025.07	3.2%
Non-Medically Frail	423.21	482.80	14.1%
Total GAHCP	\$532.03	\$586.30	10.2%
Total	\$416.29	\$444.28	6.7%

*The CHIP capitation rate is an average of the specific rate cells in which CHIP members are enrolled. We do not develop a CHIP specific capitation rate.

Federal law requires that managed care rates be reviewed no less frequently than a 12-month period. The Department aligns this process with the state fiscal year. Over the last several years, the rates have been reviewed and an amendment made to the MCM contracts in May or June for the fiscal year beginning on July 1st. In order to maintain actuarial soundness, the rates are also required to be reviewed in the event of significant program changes. For example, while the Department established rates for FY 2019 last spring, the Department was required to refresh and update the rates when the Medicaid expansion program was brought back into managed care on January 1, 2019 – in the middle of the state fiscal year.

This year, there are items in both the Governor's budget and in other legislation now pending that, if and when enacted, would require Milliman to revise the rates. Specifically, there are proposals to (i) raise the rates paid to community based designated receiving facilities, (ii) add transitional housing for persons who can be discharged from New Hampshire Hospital; (iii) add mobile crisis teams or other behavioral health crisis services. All of these

additional services will have to be incorporated into the capitated rates for the managed care program consistent with their effective dates.

As a result, the Department anticipates that following the end of the legislative session, Milliman will review all program changes and any other relevant information, and adjust the rates as necessary. The Department would expect to bring an amendment to the contract in the September or October time frame for this purpose.

The certified rate established for the program that is reflected in this contract is within the Department's budget for state fiscal year 2020. Even though that the rates have been increased, a decline in the number of persons enrolled in Medicaid and a decline in the acuity of the population that has reduced expenditures in certain of the highest rate cells accounts for a reduction of total expenditure in the program within the current budget. As we have in the past, the Department and Milliman will work with the legislature in the budget process to ensure that the program is funded consistent with the budget.

Area served: Statewide.

Source of Funds: Funds for Granite Advantage Health Program are 93% Federal as appropriated by Congress and 7% Other for calendar year 2019 and 90% Federal and 10% Other for calendar year 2020; funds for the Child Health Insurance Program are 79.4% Federal as appropriated by Congress and 20.6% General funds; and funds for the standard Medicaid population funding under the Medicaid Care Management account are 51% Federal as appropriated by Congress, 24.3% General and 24.7% Other funds.

In the event that Federal funds become no longer available or are decreased below the 93% level for calendar year 2019 or 90% level for calendar year 2020, for the Granite Advantage Health Program, consistent with RSA 126-AA:3, no state general funds shall be deposited into the fund and medical services for this population would end consistent with RSA 126-AA:3, VI and the terms and conditions of the federal waiver issued by the Centers for Medicare and Medicaid Services

1.2 Term

1.2.1 The Agreement and all contractual obligations, including Readiness Review, shall become effective on the date the Governor and Executive Council approves the executed MCM Agreement or, if the MCO does not have health maintenance organization (HMO) licensure in the State of New Hampshire on the date of Governor and Executive Council approval, the date the MCO obtains HMO licensure in the State of New Hampshire, whichever is later.

1.2.1.1 If the MCO fails to obtain HMO licensure within thirty (30) calendar days of Governor and Executive Council approval, this Agreement shall become null and void without further recourse to the MCO.

1.2.2 The Program Start Date shall begin on July 1, 2019, and the Agreement term shall continue through June 30, 2024.

1.2.4 The MCO is solely responsible for the cost of all work during the Readiness Review and undertakes the work at its sole risk.

1.2.5 If DHHS determines that any MCO will not be ready to begin providing services on the MCM Program Start Date, July 1, 2019, at its sole discretion, DHHS may withhold enrollment and require corrective action or terminate the Agreement without further recourse to the MCO.

Additionally, the MCO is encouraged to develop and implement a written language access plan to ensure it is prepared to take reasonable steps to provide meaningful access to each Member with LEP who may require assistance.

[42 CFR 438.410(a)]

4.14.2 In developing and refining its APM strategy, DHHS relies on the framework established by the Health Care Payment Learning and Action Network APM framework (or the "HCP-LAN APM framework") in order to:

4.14.6.1 Makes participation in the APM available, using the same terms of performance, to a class of Providers providing services under the contract related to the reform or improvement initiative;

4.14.6.2 Uses a common set of performance measures across all the Providers;

4.14.6.3 Does not set the amount or frequency of the expenditures; and

4.14.7.1.2.1. If approved by DHHS, the MCO may use its alternative approach, but only for the period of time requested and approved by DHHS, which is not to exceed an additional six (6) months after the initial 18 month period.

4.14.7.1.2.2. For failure to meet this requirement, DHHS reserves the right to issue remedies as described in Section 5.5.2 (Liquidated Damages) and Exhibit N, Section 3.2 (Liquidated Damages Matrix).

5.3.4.1.8 DHHS shall notify the MCO if the referral is declined for investigation.

5.3.4.1.9 If DHHS, MFCU, or other law enforcement agencies decline to investigate the fraud referral, the MCO may proceed with

its own investigation and comply with the reporting requirements contained in this Section of the Agreement.

5.3.4.1.10 Upon receipt of notification from DHHS, the MCO shall send notice of the decision to suspend program payments to the Provider within the following timeframe:

5.3.4.1.10.1. Within five (5) calendar days of taking such action unless requested in writing by DHHS, the MFCU, or law enforcement to temporarily withhold such notice; or

5.3.4.1.10.3. The request for delay may be renewed in writing no more than twice and in no event may the delay exceed ninety (90) calendar days.

5.3.4.1.11 The notice shall include or address all of the following (42 CFR 455.23(2)):

5.3.4.1.11.1. That payments are being suspended in accordance with this provision;

5.3.4.1.11.2. Set forth the general allegations as to the nature of the suspension action. The notice need not disclose any specific information concerning an ongoing investigation;

5.3.4.1.11.3. That the suspension is for a temporary period and cite the circumstances under which the suspension shall be lifted;

5.3.4.1.11.4. Specify, when applicable, to which type or types of claims or business units the payment suspension relates; and

5.3.4.1.11.5. Where applicable and appropriate, inform the Provider of any appeal rights available to the Provider, along with the Provider's right to submit written evidence for consideration by the MCO.

5.3.4.2 All suspension of payment actions under this Section of the Agreement shall be temporary and shall not continue after either of the following:

5.3.4.2.1 The MCO is notified by DHHS that there is insufficient evidence of fraud by the Provider; or

5.3.4.2.2 The MCO is notified by DHHS that the legal proceedings related to the Provider's alleged fraud are completed.

5.3.4.3 The MCO shall document in writing the termination of a payment suspension and issue a notice of the termination to the Provider and to DHHS.

5.3.4.4 The DHHS Program Integrity Unit may find that good cause exists not to suspend payments, in whole or in part, or not to continue a payment suspension previously imposed, to an individual or entity against which there is an investigation of a credible allegation of fraud if any of the following are applicable:

5.3.4.4.1 MFCU or other law enforcement officials have specifically requested that a payment suspension not be imposed because such a payment suspension may compromise or jeopardize an investigation;

5.3.4.4.2 Other available remedies are available to the MCO, after DHHS approves the remedies that more effectively or quickly protect Medicaid funds;

5.3.4.4.3 The MCO determines, based upon the submission of written evidence by the individual or entity that is the subject of the payment suspension, there is no longer a credible allegation of fraud and that the suspension should be removed.

5.3.4.4.3.1. The MCO shall review evidence submitted by the Provider and submit it with a recommendation to DHHS.

5.3.4.4.3.2. DHHS shall direct the MCO to continue, reduce or remove the payment suspension within thirty (30) calendar days of having received the evidence;

5.3.4.4.4 Member access to items or services would be jeopardized by a payment suspension because of either of the following:

5.3.4.4.4.1. An individual or entity is the sole community physician or the sole source of essential specialized services in a community; or

5.3.4.4.4.2. The individual or entity serves a large number of Members within a federal HRSA designated a medically underserved area;

5.3.4.4.5 MFCU or law enforcement declines to certify that a matter continues to be under investigation; or

5.3.4.4.6 DHHS determines that payment suspension is not in the best interests of the Medicaid program.

5.3.4.6 If the MCO fails to suspend payments to an entity or individual for whom there is a pending investigation of a credible allegation of fraud without good cause, and DHHS directed the MCO to suspend payments, DHHS may impose liquidated damages.

5.3.4.7 If any government entity, either from restitutions, recoveries, penalties or fines imposed following a criminal prosecution or guilty plea, or through a civil settlement or judgment, or any other form of civil action, receives a monetary recovery from any entity or individual, the entirety of such monetary recovery belongs exclusively to the State, and the MCO and any involved Subcontractor have no claim to any portion of such recovery.

5.3.4.8 Furthermore, the MCO is fully subrogated, and shall require its Subcontractors to agree to subrogate, to the State for all criminal, civil and administrative action recoveries undertaken by any government entity, including but not limited to all claims the MCO or its Subcontractor(s) has or may have against any entity or individual that directly or indirectly receives funds under this Agreement, including but not limited to any health care Provider, manufacturer, wholesale or retail supplier, sales representative, laboratory, or other Provider in the design, manufacture, Marketing, pricing, or quality of drugs, pharmaceuticals, medical supplies, medical devices, DME, or other health care related products or services.

5.3.4.8.1 For the purposes of this Section of the Agreement, "subrogation" means the right of any State government entity or local law enforcement to stand in the place of the MCO or client in the collection against a third party.

5.3.4.9 Any funds recovered and retained by a government entity shall be reported to the actuary to consider in the rate-setting process.

5.3.5.6.1 The additional access shall be provided within three (3) business days of the request.

5.3.5.7 The MCO and its Subcontractors shall request a refund from a third-party payor, Provider or Subcontractor when an investigation indicates that such a refund is due.

5.3.5.7.1 These refunds shall be reported to DHHS as Overpayments.

5.3.5.8 DHHS shall conduct investigations related to suspected Provider fraud, waste and abuse cases, and reserves the right to pursue and retain recoveries for all claims (regardless of paid date) to a Provider with a paid date older than four (4) months for which the MCO has not submitted a request to open and for which the MCO continued to pursue the case. The State shall notify the MCO of any investigation it intends to open prior to contacting the Provider.

However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
