4.1.3 Covered Services Additional Provisions

4.1.3.5.3 DHHS has authorized medical nutrition, diabetes self-management, and assistance in finding and keeping housing (not including rent), as In Lieu Of Services. This list may be expanded upon or otherwise modified by DHHS through amendments of this Agreement.

4.1.3.5.5 The MCO shall monitor the cost-effectiveness of each approved In Lieu of Service by tracking utilization and expenditures and submit an annual update providing an evaluation of the cost-effectiveness of the alternative service during the previous twelve (12) months, in accordance with Exhibit O.

4.13.6.6 The MCO shall provide to DHHS and/or its DHHS Subcontractors (e.g., the EQRO) Provider participation reports on an annual basis or as otherwise determined by DHHS in accordance with Exhibit O; these may include but are not limited to Provider participation by geographic location, categories of service, Provider type categories, Providers with open panels, and any other codes necessary to determine the adequacy and extent of

participation and service delivery and analyze Provider service capacity in terms of Member access to health care.

4.14 Alternative Payment Models

4.14.1 As required by the special terms and conditions of The NH Building Capacity for Transformation waiver, NH is implementing a strategy to expand use of APMs that promote the goals of the Medicaid program to provide the right care at the right time, and in the right place through the delivery of high-quality, cost-effective care for the whole person, and in a manner that is transparent to DHHS, Providers, and the stakeholder community.

4.14.2 In developing and refining its APM strategy, DHHS relies on the framework established by the Health Care Payment Learning and Action Network APM framework (or the "HCP-LAN APM framework") in order to:

4.14.2.1 Clearly and effectively communicate DHHS requirements through use of the defined categories established by HCP-LAN;

4.14.2.2 Encourage the MCO to align MCM APM offerings to other payers' APM initiatives to minimize Provider burden; and

4.14.2.3 Provide an established framework for monitoring MCO performance on APMs.

4.14.3 Prior to and/or over the course of the Term of this Agreement, DHHS shall develop the DHHS Medicaid APM Strategy, which may result in additional guidance, templates, worksheets and other materials that elucidate the requirements to which the MCO is subject under this Agreement.

4.14.4 Within the guidance parameters established and issued by DHHS and subject to DHHS approval, the MCO shall have flexibility to design Qualifying APMs (as defined in Section 4.14 of this Agreement) consistent with the DHHS Medicaid APM strategy and in conformance with CMS guidance.

4.14.5 The MCO shall support DHHS in developing the DHHS Medicaid APM Strategy through participation in stakeholder meetings and planning efforts, providing all required and otherwise requested information related to APMs, sharing data and analysis, and other activities as specified by DHHS.

4.14.6 For any APMs that direct the MCO's expenditures under 42 CFR 438.6(c)(1)(i) or (ii), the MCO and DHHS shall ensure that it:

4.14.6.1 Makes participation in the APM available, using the same terms of performance, to a class of Providers providing services under the contract related to the reform or improvement initiative;

4.14.6.2 Uses a common set of performance measures across all the Providers;

4.14.6.3 Does not set the amount or frequency of the expenditures; and

4.14.6.4 Does not permit DHHS to recoup any unspent funds allocated for these arrangements from the MCO. [42 CFR 438.6(c)]

4.14.7 Required Use of Alternative Payment Models Consistent with the New Hampshire Building Capacity for Transformation Waiver

4.14.7.1 Consistent with the requirements set forth in the special terms and conditions of NH's Building Capacity for Transformation waiver, the MCO shall ensure through its APM Implementation Plan (as described in Section 4.14) that fifty percent (50%) of all MCO medical expenditures are in Qualifying APMs, as defined by DHHS, within the first twelve (12) months of this Agreement, subject to the following exceptions:

4.14.7.1.1 If the MCO is newly participating in the MCM program as of the Program Start Date, the MCO shall have eighteen (18) months to meet this requirement; and

4.14.7.1.2 If the MCO determines that circumstances materially inhibit its ability to meet the APM implementation requirement, the MCO shall detail to DHHS in its proposed APM Implementation Plan an extension request: the reasons for its inability to meet the requirements of this section and any additional information required by DHHS.

4.14.7.1.2.1. If approved by DHHS, the MCO may use its alternative approach, but only for the period of time requested and approved by DHHS, which is not to exceed an additional six (6) months after the initial 18 month period.

4.14.7.1.2.2. For failure to meet this requirement, DHHS reserves the right to issue remedies as described in Section 5.5.2 (Liquidated Damages) and Exhibit N, Section 3.2 (Liquidated Damages Matrix).

4.14.7.2 MCO Incentives and Penalties for APM Implementation

4.14.7.2.1 Consistent with RSA 126-AA, the MCO shall include, through APMs and other means, Provider alignment incentives to leverage the combined DHHS, MCO, and providers to achieve the purpose of the incentives.

4.14.7.2.2 MCOs shall be subject to incentives, at DHHS' sole discretion, and/or penalties to achieve improved performance, including preferential auto-assignment of new members, use of the MCM Withhold and Incentive Program (including the shared incentive pool), and other incentives.

4.14.8. Qualifying Alternative Payment Models

4.14.8.2 At minimum, a Qualifying APM shall meet the requirements of the HCP-LAN APM framework Category 2C, based on the refreshed 2017 framework released on July 11, 2017 and all subsequent revisions.

4.14.8.3 As indicated in the HCP-LAN APM framework white paper, Category 2C is met if the payment arrangement between the MCO and Participating Provider(s) rewards Participating Providers that perform well on quality metrics and/or penalizes Participating Providers that do not perform well on those metrics.

4.14.8.4 HCP-LAN Categories 3A, 3B, 4A, 4B, and 4C shall all also be considered Qualifying APMs, and the MCO shall increasingly adopt such APMs over time in accordance with its APM Implementation Plan and the DHHS Medicaid APM Strategy.

4.14.8.5 DHHS shall determine, on the basis of the Standardized Assessment of APM Usage described in Section 4.14.10.2 (Standardized Assessment of Alternative Payment Model Usage) below and the additional information available to DHHS, the HCP-LAN Category to which the MCO's APM(s) is/are aligned.

4.14.8.6 Under no circumstances shall DHHS consider a payment methodology that takes cost of care into account without also considering quality a Qualifying APM.

4.14.8.7. Standards for Large Providers and Provider Systems

4.14.8.7.1 The MCO shall predominantly adopt a total cost of care model with shared savings for large Provider systems to the maximum extent feasible, and as further defined by the DHHS Medicaid APM Strategy.

4.14.8.8 Treatment of Payments to Community Mental Health Programs

4.14.8.8.1 The CMH Program payment model prescribed by DHHS in Section 4.11.5.1 (Contracting for Community Mental Health Services) shall be deemed to meet the definition of a Qualifying APM under this Agreement.

4.14.8.8.2 At the sole discretion of DHHS, additional payment models specifically required by and defined as an APM by DHHS shall also be deemed to meet the definition of a Qualifying APM under this Agreement.

4.14.8.10 Alignment with Existing Alternative Payment Models and Promotion of Integration with Behavioral Health

4.14.8.10.1 The MCO shall align APM offerings to current and emerging APMs in NH, both within Medicaid and across other payers (e.g., Medicare and commercial shared savings arrangements) to reduce Provider burden and promote the integration of Behavioral Health.

4.14.8.10.2 The MCO shall incorporate APM design elements into its Qualifying APMs that permit Participating Providers to attest to participation in an "Other Payer Advanced APM" (including but not limited to a Medicaid Medical Home Model) under the requirements of the Quality Payment Program as set forth by the Medicare Access and CHIP Reauthorization Act of 2015 (MACRA).

4.14.9 MCO Alternative Payment Model Implementation Plan

4.14.9.1 The MCO shall submit to DHHS for review and approval an APM Implementation Plan in accordance with Exhibit O.

4.14.9.3 Additional details on the timing, format, and required contents of the MCO APM Implementation Plan shall be specified by DHHS in Exhibit O and/or through additional guidance.

4.14.9.4 Alternative Payment Model Transparency

4.14.9.4.1 The MCO shall describe in its APM Implementation Plan, for each APM offering and as is applicable, the actuarial and public health basis for the MCO's methodology, as well as the basis for developing and assessing Participating Provider performance in the APM, as described in Section 4.14.10 (Alternative Payment Model Transparency and Reporting Requirements). The APM Implementation Plan shall also outline how integration is promoted by the model among the MCO, Providers, and Members.

4.14.9.5.3 The MCO APM Implementation Plan shall ensure Providers and IDNs, as appropriate, are supported by data sharing and performance analytic feedback systems and tools that make actuarially sound and actionable provider level and system level clinical, cost, and performance data available to Providers in a timely manner for purposes of developing APMs and analyzing performance and payments pursuant to APMs.

4.14.9.5.4 MCO shall provide the financial support for the Provider infrastructure necessary to develop and implement APM arrangements that increase in sophistication over time.

4.14.9.6.2 The APM Implementation Plan shall include the MCO's plan for providing the necessary data and information to participating APM Providers to ensure Providers' ability to successfully implement and meet the performance expectations included in the APM, including how the MCO shall ensure that the information received by Participating Providers is meaningful and actionable.

4.14.9.6.3 The MCO shall provide data to Providers and IDNs, as appropriate, that describe the retrospective cost and utilization

5.7.1.5 At the conclusion of the presentations, the Director shall consider all evidence and shall render a written recommendation, subject to approval by the DHHS Commissioner, as soon as practicable, but in no event more than thirty (30) calendar days after the conclusion of the presentation.

5.7.1.6 The Director may appoint a designee to hear the matter and make a recommendation.

5.7.2 Hearing

5.7.2.1 In the event of a termination by DHHS, pursuant to 42 CFR Section 438.708, DHHS shall provide the MCO with notice and a pre-termination hearing in accordance with 42 CFR Section 438.710.

5.7.2.2 DHHS shall provide written notice of the decision from the hearing.

6 FINANCIAL MANAGEMENT

6.1 Financial Standards

6.1.1 In compliance with 42 CFR 438.116, the MCO shall maintain a minimum level of capital as determined in accordance with NHID regulations, to include RSA Chapter 404-F, and any other relevant laws and regulations.

6.1.2 The MCO shall maintain a risk-based capital ratio to meet or exceed the NHID regulations, and any other relevant laws and regulations.

6.1.3 With the exception of payment of a claim for a medical product or service that was provided to a Member, and that is in accordance with a written agreement with the Provider, the MCO may not pay money or transfer any assets for any reason to an affiliate without prior approval from DHHS, if any of the following criteria apply:

6.1.3.1 Risk-based capital ratio was less than two (2) for the most recent year filing, per RSA 404-F:14 (III); and

6.1.3.2 The MCO was not in compliance with the NHID solvency requirement.

6.1.4 The MCO shall notify DHHS within ten (10) calendar days when its agreement with an independent auditor or actuary has ended and seek approval of, and the name of the replacement auditor or actuary, if any from DHHS.

6.1.5 The MCO shall maintain current assets, plus long-term investments that can be converted to cash within seven (7) calendar days without incurring a penalty of more than twenty percent (20%) that equal or exceed current liabilities.

6.1.6 The MCO shall submit data on the basis of which DHHS has the ability to determine that the MCO has made adequate provisions against the risk of insolvency.

6.1.7 The MCO shall inform DHHS and NHID staff by phone and by email within five (5) business days of when any key personnel learn of any actual or threatened litigation, investigation, complaint, claim, or transaction that may reasonably be considered to have a material financial impact on and/or materially impact or impair the ability of the MCO to perform under this Agreement.

6.2 Capitation Payments

6.2.1 Capitation payments made by DHHS and retained by the MCO shall be for Medicaid-eligible Members. [42 CFR 438.3(c)(2)]

6.2.1.1 Capitation rates for the Term through June 30, 2020 are shown in Exhibit B (Capitation Rates).

6.2.1.2 For each of the subsequent years of the Agreement, actuarially sound per Member, per month capitated rates shall be paid as calculated

and certified by DHHS's actuary, subject to approval by CMS and Governor and Executive Council.

6.2.1.3 Any rate adjustments shall be subject to the availability of State appropriations.

6.2.2 In the event the MCO incurs costs in the performance of this Agreement that exceed the capitation payments, the State and its agencies are not responsible for those costs and shall not provide additional payments to cover such costs.

6.2.3 The MCO shall report to DHHS within sixty (60) calendar days upon identifying any capitation or other payments in excess of amounts provided in this Agreement. [42 CFR 438.608(c)(3)]

6.2.4 The MCO and DHHS agree that the capitation rates in Exhibit B (Capitation Rates) may be adjusted periodically to maintain actuarial soundness as determined by DHHS's actuary, subject to approval by CMS and Governor and Executive Council.

6.2.5 The MCO shall submit data on the basis of which the State certifies the actuarial soundness of capitation rates to an MCO, including base data that is generated by the MCO. [42 CFR 438.604(a)(2); 42 CFR 438.606; 42 CFR 438.3; 42 CFR 438.5(c)]

6.2.6 When requested by DHHS, the MCO shall submit Encounter Data, financial data, and other data to DHHS to ensure actuarial soundness in development of the capitated rates, or any other actuarial analysis required by DHHS or State or federal law.

6.2.7 The MCO's CFO shall submit and concurrently certify to the best of his or her information, knowledge, and belief that all data and information described in 42 CFR 438.604(a), which DHHS uses to determine the capitated rates, is accurate. [42 CFR 438.606]

6.2.8 The MCO has responsibility for implementing systems and protocols to maximize the collection of TPL recoveries and subrogation activities. The capitation rates are calculated net of expected MCO recoveries.

6.2.9 DHHS shall make a monthly payment to the MCO for each Member enrolled in the MCO's plan as DHHS currently structures its capitation payments.

6.2.9.1 Specifically, the monthly capitation payments for standard Medicaid shall be made retrospectively with a three (3) month plus five (5) business day lag (for example coverage for July 1, 2019 shall be paid by the 5th business day in October, 2019).

6.2.9.2 Capitation payments for all Granite Advantage Members shall be made before the end of each month of coverage.

6.2.10 Capitation rate cell is determined based on the Member characteristics as of the earliest date of Member plan enrollment span(s) within the month.

6.2.11 Capitation rate does not change during the month, regardless of Member changes (e.g., age), unless the Member's plan enrollment is terminated and the Member is re-enrolled resulting in multiple spans within the month.

6.2.12 The capitation rates shall be risk adjusted for purposes of this Agreement in an actuarially sound manner on a quarterly basis and certified by DHHS' actuary.

6.2.12.1 [Amendment #2:] The September 2019 to June 2020 capitation rates shall use an actuarially sound prospective risk adjustment model to adjust the rates for each participating MCO. The risk adjustment process shall use the most recent version of the CDPS+Rx model to assign scored individuals to a demographic category and disease categories based on their medical claims and drug utilization during the study period. The methodology shall also incorporate a custom risk weight related to the cost of opioid addiction services. Scored individuals are those with at least six months of eligibility and claims experience in the base data. The methodology shall exclude diagnosis codes related to radiology and laboratory services to avoid including false positive diagnostic indicators for tests run on an individual. Additionally, each scored member with less than 12 months of experience in the base data period shall also be assigned a durational adjustment to compensate for missing diagnoses due to shorter enrollment durations, similar to a missing data adjustment.

6.2.12.1.1 [Amendment #2:] Each unscored member shall be assigned a demographic-only risk weight instead of receiving the average risk score for each MCO's scored members in the same rate cell. The risk adjustment methodology shall also incorporate a specific adjustment to address cost and acuity differences between the scored and unscored populations, which shall be documented by a thorough review of historical data for those populations based on generally accepted actuarial techniques.

6.2.12.1.2 [Amendment #2:] Members shall be assigned to MCOs and rate cells using the actual enrollment by MCO in each quarter to calculate risk scores in order to capture actual membership growth for each MCO.

6.2.13 DHHS reserves the right to terminate or implement the use of a risk adjustment process for all or specific eligibility categories or services if it is determined to be necessary to do so to maintain actuarially sound rates or as a result of credibility considerations of a population's size as determined by DHHS's actuary.

6.2.14 Capitation adjustments are processed systematically each month by DHHS's MMIS.

6.2.15 DHHS shall make systematic adjustments based on factors that affect rate cell assignment or plan enrollment.

6.2.16 If a Member is deceased, DHHS shall recoup any and all capitation payments after the Member's date of death including any prorated share of a capitation payment intended to cover dates of services after the Member's date of death.

6.2.17 DHHS shall also make manual adjustments as needed, including manual adjustments for kick payments.

6.2.18 DHHS has sole discretion over the settlement process.

6.2.19 The MCO shall follow policies and procedures for the settlement process as developed by DHHS.

6.2.20 Based on the provisions herein, DHHS shall not make any further retroactive adjustments other than those described herein or elsewhere in this agreement.

6.2.21 DHHS and the MCO agree that there is a nine (9) month limitation from the date of the capitation payment and is applicable only to retroactive capitation rate payments described herein, and shall in no way be construed to limit the effective date of enrollment in the MCO.

6.2.22 DHHS shall have the discretion to recoup payments retroactively up to twenty-four (24) months for Members whom DHHS later determines were not eligible for Medicaid during the enrollment month for which capitation payment was made.

6.2.23 For each live birth, DHHS shall make a one-time maternity kick payment to the MCO with whom the mother is enrolled on the DOB.

6.2.23.1 This payment is a global fee to cover all delivery care.

6.2.23.2 In the event of a multiple birth DHHS shall only make only one (1) maternity kick payment.

6.2.23.3 A live birth is defined in accordance with NH Vital Records reporting requirements for live births as specified in RSA 5-C.

6.2.24 For each live birth, DHHS shall make a one-time newborn kick payment to the MCO with whom the mother is enrolled on the DOB.

6.2.24.1 This payment is a global fee to cover all newborn expenses incurred in the first two (2) full or partial calendar months of life, including all hospital, professional, pharmacy, and other services.

6.2.24.2 For example, the newborn kick payment shall cover all services provided in July 2019 and August 2019 for a baby born any time in July 2019.

6.2.24.3 Enrolled babies shall be covered under the MCO capitated rates thereafter.

6.2.25 Different rates of newborn kick payments may be employed by DHHS, in its sole discretion, to increase actuarial soundness.

6.2.25.1 [Amendment #1:] For the period beginning September 1, 2019, two (2) newborn kick payments shall be employed, one (1) for newborns with NAS and one (1) for all other newborns.

~~[Base Contract:] For the period beginning July 1, 2019, two (2) newborn kick payments shall be employed, one (1) for newborns with NAS and one (1) for all other newborns.~~

6.2.25.2 Each type of payment is distinct and only one payment is made per newborn.

6.2.26 The MCO shall submit information on maternity and newborn events to DHHS, and shall follow written policies and procedures, as developed by DHHS, for receiving, processing and reconciling maternity and newborn payments.

6.2.27 Payment for behavioral health rate cells shall be determined based on a Member's CMH Program or CMH Provider behavioral certification level as supplied in an interface to DHHS's MMIS by the MCO.

6.2.27.1 The CMH Program or CMH Provider behavioral certification level is based on a Member having had an encounter in the last six (6) months.

6.2.27.2 Changes in the certification level for a Member shall be reflected as of the first of each month and does not change during the month.

6.2.28 [Amendment #1:] Beginning September 1, 2019, after the completion of each Agreement year, an actuarially sound withhold percentage of each MCO's risk adjusted capitation payment net of directed payments to the MCO shall be calculated as having been withheld by DHHS. On the basis of the MCO's performance, as determined under DHHS's MCM Withhold and Incentive Guidance, unearned withhold in full or in part is subject to recoupment by DHHS to be used to finance an MCO incentive pool.

~~[Base Contract:] Beginning July 1, 2019, after the completion of each Agreement year, an actuarially sound withhold percentage of each MCO's risk adjusted capitation payment net of directed payments to the MCO shall be calculated as having been withheld by DHHS. On the basis of the MCO's performance, as determined under DHHS's MCM Withhold and Incentive Guidance, unearned withhold in full or in part is subject to recoupment by DHHS to be used to finance an MCO incentive pool.~~

6.2.29 Details of the MCM Withhold and Incentive Program are described in MCM Withhold and Incentive Program Guidance provided by DHHS as indicated in Section 5.4 (MCM Withhold and Incentive Payment Program).

6.2.32 In the event an enrolled Medicaid Member was previously admitted as a hospital inpatient and is receiving continued inpatient hospital services on the first day of coverage with the MCO, the MCO shall receive the applicable capitation payment for that Member.

6.2.33 The entity responsible for coverage of the Member at the time of admission as an inpatient (either DHHS or another MCO) shall be fully responsible for all inpatient care services and all related services authorized while the Member was an inpatient until the day of discharge from the hospital.

6.2.34 DHHS shall only make a monthly capitation payment to the MCO for a Member aged 21-64 receiving inpatient treatment in an IMD, as defined in 42 CFR 435.1010, so long as the facility is a hospital providing psychiatric or substance use disorder inpatient care or a sub-acute facility providing psychiatric or substance use disorder-crisis residential services, and length of stay in the IMD is for a short term stay of no more than 15 days during the period of the monthly capitation payment, or as has been otherwise permitted by CMS through a waiver obtained from CMS. [42 CFR 438.6(e)].

6.2.35 Unless MCOs are exempted, through legislation or otherwise, from having to make payments to the NH Insurance Administrative Fund (Fund) pursuant to RSA 400-A:39, DHHS shall reimburse MCO for MCO's annual payment to the Fund on a supplemental basis within 30 days following receipt of invoice from the MCO and verification of payment by the NHID:

6.2.36 [Amendment #2:] For any Member with claims exceeding five hundred thousand dollars (\$500,000) for the fiscal year, after applying any third party insurance offset, DHHS shall reimburse fifty percent (50%) of the amount over five hundred thousand dollars (\$500,000) after all claims have been recalculated based on the DHHS fee schedule for the services and pro-rated for the contract year, as appropriate.

6.2.36.1 For a Member whose services may be projected to exceed five hundred thousand dollars (\$500,000) in MCO claims, the MCO shall advise DHHS in writing.

6.2.36.1.1 [Amendment #2:] Hospital inpatient and hospital outpatient services provided by Boston Children's Hospital are exempt from stop-loss protections referenced in this section.

6.2.36.2 Prior approval from the Medicaid Director is required for subsequent services provided to the Member.

As such, costs for Zolgensma and other carved-out medications shall not be considered under the various risk mitigation provisions of the Agreement.

6.3.1 Minimum Medical Loss Ratio Performance and Rebate Requirements

6.3.1.1 The MCO shall meet a minimum MLR of eighty-five percent (85%) or higher.

6.3.1.2 In the event the MCO's MLR for any single reporting year is below the minimum of the eighty-five percent (85%) requirement, the MCO shall provide to DHHS a rebate, no later than sixty (60) calendar days following DHHS notification, that amounts to the difference between the total amount of Capitation Payments received by the MCO from DHHS multiplied by the required MLR of eighty-five percent (85%) and the MCO's actual MLR. [42 CFR 438.8(j); 42 CFR 438.8(c)]

6.3.1.3 If the MCO fails to pay any rebate owed to DHHS in accordance with the time periods set forth by DHHS, in addition to providing the required rebate to DHHS, the MCO shall pay DHHS interest at the current Federal Reserve Board lending rate or ten percent (10%) annually, whichever is higher, on the total amount of the rebate.

6.3.2 Calculation of the Medical Loss Ratio

6.3.2.1 The MCO shall calculate and report to DHHS the MLR for each MLR reporting year, in accordance with 42 CFR 438.8 and the standards described within this Agreement. [42 CFR 438.8(a)]

6.3.2.2 The MLR calculation is the ratio of the numerator (as defined in accordance with 42 CFR 438.8(e)) to the denominator (as defined in accordance with 42 CFR 438.8(f)). [42 CFR 438.8 (d)-(f)].

6.3.2.3 Each MCO expense shall be included under only one (1) type of expense, unless a portion of the expense fits under the definition of, or criteria for, one (1) type of expense and the remainder fits into a different type of expense, in which case the expense shall be pro-rated between the two types of expenses.

6.3.2.3.1 Expenditures that benefit multiple contracts or populations, or contracts other than those being reported, shall be reported on a pro rata basis. [42 CFR 438.8(g)(1)(i)-(ii)]

6.3.2.5.2 The MCO may not add a credibility adjustment to a calculated MLR if the MLR reporting year experience is fully credible.

REQUESTED ACTION

Authorize the Department of Health and Human Services Office, to amend three (3) Agreements with AmeriHealth Caritas New Hampshire Inc., 200 Steven Drive, Philadelphia, PA 19113, Boston Medical Center Health Plan Inc., Schraffts City Center, 529 Main Street, Suite 500, Charlestown, MA 02129, and Granite State Health Plan Inc., 2 Executive Park Drive, Bedford NH, 03110, by changing the program start date from July 1, 2019 to September 1, 2019 to accommodate sufficient time for readiness activities needed to effectuate a well-executed implementation of health care services-to-eligible and enrolled Medicaid participants through New Hampshire's Medicaid managed care program known as New Hampshire Medicaid Care Management, and by decreasing the price limitation by \$126,335,836 from \$924,150,000 to an amount not to exceed \$797,814,164 in State Fiscal Year 2020, for period September 1, 2019 through June 30, 2020, effective upon Governor and Executive Council approval, with a change to the completion date of August 31 2024, from June 30, 2024. The original Agreements were approved by Governor and Executive Council approval on March 27, 2019, Tabled Late Item A (Tabled by Governor and Executive Council on February 20, 2019).

Funds for Granite Advantage Health Program are 93% Federal and 7% Other for calendar year 2019 and 90% Federal and 10% Other for calendar year 2020 (as defined in RSA 126-AA:3, 1); funds for the Child Health Insurance Program are 78.8% Federal and 21.2% General funds; and funds for the standard Medicaid population funding under the Medicaid Care Management account are 51% Federal, 24.3% General and 24.7% Other funds.

Funds are anticipated to be available in the following account(s) for State Fiscal Years (SFY) 2020 through 2025 upon the availability and continued appropriation of funds in the future operating budgets. The Centers for Medicare and Medicaid Services (CMS) requires that managed care rate certifications must be done on no more than a twelve-month rating period demonstrating actuarial soundness thereby necessitating annual rate reviews in order to determine amounts each state fiscal year and corresponding contract amendments. Rates will be updated annually and as necessary for changes in the program enacted by the legislature. A description of how this contract aligns with the state budget process is included in the explanation below. For these reasons, expenditures for the program are identified only for SFY 2020.

EXPLANATION

The purpose of this request is to amend the three (3) Medicaid Care Management (MCM) capitated, and risk-based Agreements by changing the program start date from July 1, 2019 to September 1, 2019. The amendment is necessary to provide a sufficient readiness ramp up period for the Department and the Contractors known as the Managed Care Organizations (MCOs) so the health care services to 180,000 eligible and enrolled Medicaid participants through New Hampshire's Medicaid managed care program known as New Hampshire Medicaid Care Management, are implemented smoothly, and by decreasing the price limitation by (\$126,335,836) from \$924,150,000 to an amount not to exceed \$797,814,164 in State Fiscal Year 2020, September 2019-June 2020.

The proposed change in program start date, to a later date, was necessary to provide Governor and Executive Council sufficient time to review the new contracts, hold two informational hearings, and to allow the Department and the MCOs the needed time for readiness to occur for the new Agreements. These three (3) MCOs will serve approximately 180,000 members including pregnant women, children, parents/caretakers, non-elderly, non-disabled adults under the age of 65, and individuals who are aged, blind or disabled, among others, as described in the Medicaid Care Management (MCM) contracts. The MCOs will cover the acute care, behavioral health, and pharmacy services for all Members and work with the Department to address the crucial social determinants of health in accordance with the attached MCM contracts.

The MCOs will provide a person-centered, integrated, and comprehensive delivery system that offers a very substantial array of accessible Medicaid services, taking into account each Member's physical well-being, behavioral health (mental health and substance use disorders), and social circumstances. The Department will challenge its MCO partners to work responsively with the provider community and MCM Members to improve access to care and promote healthy behaviors. New Hampshire's MCM program will incentivize value over volume, enhance program efficiency, and hold MCOs accountable for demonstrable improvements in health outcomes.

Table One represents a ten-month year capitation rate for the Standard Medicaid and the NH Granite Advantage Health Care Program for the period September 2019 through June 2020 with a comparison to the SFY 2020 rates in the February 15, 2019 signed contracts approved by the Governor and Executive Council of March 27, 2019 (Tabled, 2/20/2019 Late item #A). This allows alignment with State of New Hampshire fiscal year through SFY 2024. The change to the completion date of August 31 2024 is requested to allow for the full 60-month contract that was specified in the request for proposals.

Area served: Statewide. Source of Funds: Funds for Granite Advantage Health Program are 93% Federal as appropriated by Congress and 7% Other for calendar year 2019 and 90% Federal and 10% Other for calendar year 2020 (as defined in RSA 126-AA:3, I); funds for the Child Health Insurance Program are 78.8% Federal as appropriated by Congress and 21.2% General funds; and funds for the standard Medicaid population funding under the Medicaid Care Management account are 51% Federal as appropriated by Congress, 24.3% General and 24.7% Other funds.

In the event that Federal funds become no longer available or are decreased below the 93% level for calendar year 2019 or 90% level for calendar year 2020, for the Granite Advantage Health Program, consistent with RSA 126-AA:3, no state general funds shall be deposited into the fund and medical services for this population would end consistent with RSA 126-AA:3, VI and the terms and conditions of the federal waiver issued by the Centers for Medicare and Medicaid Services.

This Agreement is one of multiple contracts that will serve the New Hampshire Medicaid Care Management Program. The estimated member months, for State Fiscal Year 2020, September 1, 2019 – June 30, 2020, to be served among all contracts is 1,762,330. Accordingly, the price limitation for SFY 2020, September 1, 2019 – June 30, 2020, among all contracts is \$797,814,164 based on the projected members per month. The price limitation for subsequent years within the Term will be provided following calculation of rates for each subsequent year.

3. Health Insurance Providers Fee

Section 9010 of the Patient Protection and Affordable Care Act Pub. L. No. 111-148 (124 Stat. 119 (2010)), as amended by Section 10905 of PPACA, and as further amended by Section 1406 of the Health Care and Education Reconciliation Act of 2010, Pub. L. No. 111-152 (124 Stat. 1029 (2010)) imposes an annual fee on health insurance providers beginning in 2014 ("Annual Fee"). Contractor is responsible for a percentage of the Annual Fee for all health insurance providers as determined by the ratio of Contractor's net written premiums for the preceding year compared to the total net written premiums of all entities subject to the Annual Fee for the same year.

The State shall reimburse the Contractor for the amount of the Annual Fee specifically allocable to the premiums paid during this Contract Term for each calendar year or part thereof, including an adjustment for the full impact of the non-deductibility of the Annual Fee for Federal and state tax purposes, including income and excise taxes ("Contractor's Adjusted Fee"). The State will provide reimbursement within 30 days following its review and acceptance of the Contractor's Adjusted Fee.

To claim reimbursement for the Contractor's Adjusted Fee the Contractor must submit a certified copy of its full Annual Fee assessment within 60 days of receipt, together with the allocation of the Annual Fee attributable specifically to its premiums under this Contract. The Contractor must also submit the calculated adjustment for the impact of non-deductibility of the Annual Fee attributable specifically to its premiums under this Contract, and any other data deemed necessary by the State to validate the

Funds are anticipated to be available in the following account(s) for State Fiscal Years (SFY) 2020 through 2024 upon the availability and continued appropriation of funds in the future operating budgets. The Centers for Medicare and Medicaid Services (CMS) requires that managed care rate certifications must be done on a twelve-month rating period demonstrating actuarial soundness thereby necessitating annual rate reviews in order to determine amounts each state fiscal year and corresponding contract amendments. Rates will be updated annually and as necessary for changes in the program enacted by the legislature. A description of how this contract aligns with the state budget process is included in the explanation below. For these reasons, expenditures for the program are identified only for SFY 2020.

EXPLANATION

The purpose of this request is to enter into capitated, risk-based Agreements to provide acute care and other medical services to eligible and enrolled Medicaid participants New Hampshire's Medicaid managed care program known as New Hampshire Medicaid Care Management. ~~These three (3) Vendors will serve approximately 180,000 members including pregnant women, children, parents/caretakers, non-elderly, non-disabled adults under the age of 65, and individuals who are aged, blind or disabled, among others, as described in the Medicaid Care Management (MCM) contracts.~~ The Managed Care Organizations (MCOs) will cover the acute care, behavioral health, and pharmacy services for all Members and work with the Department of Health and Human Services (DHHS) to address the crucial social determinants of health in accordance with the attached MCM contracts.

The MCO Vendors will provide a person-centered, integrated, and comprehensive delivery system that offers a very substantial array of accessible Medicaid services, taking into account each Member's physical well-being, behavioral health (mental health and substance use disorders), and social circumstances. DHHS will challenge its MCO partners to work responsively with the provider community and MCM Members to improve access to care and promote healthy behaviors. New Hampshire's MCM program will incentivize value over volume, enhance program efficiency, and hold MCOs accountable for demonstrable improvements in health outcomes.

Two of the Vendors, Boston Medical Center Health Plan Inc., and Granite State Health Plan Inc., are respectively otherwise known as Well Sense Health Plan, and New Hampshire Healthy Families. The Department presently contracts with both of these Vendors to provide New Hampshire's Medicaid Care Management program.

I. Procurement Process

These contracts represent the culmination of the Department's first re-procurement of the MCM program since its commencement in December 2013. The Department's process for the development of the program reflected in the contracts and the contracts themselves represent a significant improvement over the prior procurement process and the program itself. The Department -- for the first time ever -- put out the Request for Proposals for public comment and held public information sessions in each of the Executive Council Districts last July in Concord, Keene, Manchester, Nashua, Littleton and Portsmouth before it was issued to potential respondents.

These three (3) Vendors were selected through a competitive bid process. A Request for Proposals RFP-2019-OMS-MANAG-02 was posted on the Department of Health and Human Services' web site from August 30, 2018 through October 31, 2018. A mandatory bidder's conference was held on September 7, 2018. In-person attendance at the Mandatory Bidder's Conference was a requirement to submit a proposal. The Department received four (4) proposals. The proposals were reviewed and scored by a team of individuals with program specific knowledge. The Bid Summary is attached.

II. Central Features of the New MCM Program

This procurement was also focused on improving the program for beneficiaries and providers and introducing many new features. The goals of the new MCM program are to

- Improve care of Members
- Improve health outcomes
- Reduce inpatient hospitalization and re-admissions
- Improve continuity of care across the full continuum of care
- Improve transition planning when care is completed
- Improve medication management
- Reduce unnecessary emergency services
- Decrease the total cost of care
- Increase member satisfaction
- Improve provider participation in the program

In order to help achieve these goals, the new contracts make many changes in the current program. These include the following:

- **Additional Care Coordination and Care Management** resources to provide significantly more beneficiary support to those in greater need, including providing it at a local level. MCOs must provide Care Management for at least 15% of high-risk/high-need members, and MCOs must conduct local care management or contract with a designated care management entity for at least 50% of high-risk/high-need members.
- **Behavioral Health (Mental Health and Substance Use Disorder) provisions** support integration of care with physical health, implementation of the Department's new 10-year Mental Health Plan, and advance SUD treatment. MCOs are required to take into account each person's physical health, behavioral health (mental health and substance use disorders), and social and economic needs. MCOs are required to work with Members, Providers, integrated delivery networks (IDNs), and community mental health

programs (CMHPs) to integrate physical health and behavioral health and address social determinants of health that affect health outcomes and the cost-effectiveness of care.

- **Emergency Room Waiting Measures** include the provision of additional clinical staff to support the provision of services in hospital emergency departments to reduce the need for Members to wait for inpatient services.
- **Support the Community Mental Health Centers and Substance Use Disorder Providers** by entering into capitated payment arrangements with Community Mental Health Programs and Providers, and reimburse substance use disorder providers at rates no less than the DHHS fee-for-service rates. MCOs must also contract with any willing peer recovery provider.
- **Alternative Payment Models (APMs)** provisions require MCOs to incentivize value over volume and significantly reduce current fee for service billing arrangements.
- **Community Engagement** specifies a role for the MCOs to support beneficiaries in fulfilling the Community Engagement requirement, including assisting their members with understanding qualifying activities and exemptions.
- **New Provider Supports** require MCOs to implement prompt and accessible credentialing and re-credentialing processes that will be used to conduct provider outreach and support; standardize work processes to ensure efficient implementation of the program and minimal provider burden relative to claims billing processes, reporting, and prior authorizations; meet prompt payment requirements and pay claims based on the effective date of the Current Procedural Terminology code, and establish a provider grievance and appeals process.

- **Pharmacy Counselling and Management** are strengthened to help improve the safety and therapeutic benefits to beneficiaries and the economy of the program.
- **Beneficiary Choice and Competition** is increased by providing Medicaid beneficiaries with three high-quality MCOs from which to choose.

- **Incentives and opportunities for beneficiaries to participate in healthy behaviors** must be provided by MCOs to improve individual health.
- **Cost transparency** through reference based pricing and incentives to beneficiaries.
- **Accountability for results** is increasing because a share of payment to MCOs will be directly linked to their performance, ensuring accountability for results, particularly in high priority areas such as addressing substance use disorders, integrating physical and behavioral health, providing robust care management, and reducing unnecessary use of high-cost services.
- **Public Reporting** is an added contract element. Each selected MCO will be responsible for submitting an annual report to the Governor and the legislature reporting on how the MCO has addressed State priorities for the MCM Program, including those specified in RSA 126-AA and in other State statute, policies, and guidelines; what innovative programs it has established; how it is addressing social determinants of health of its members, and how it is improving the population health of the state and other key metrics of the program.
- **Heighten program compliance and integrity provisions** have been added that allow for liquidated damages to be applied to the MCOs around contractual performance; provisions that incent MCO performance around collections for third party liability and coordination of benefits; and general fraud waste and abuse.

- **Medical Loss Ratio** is specified in the contract at a minimum amount of 85% that must be spent on service delivery to beneficiaries, any amount less is to be rebated back to the Program.

III. Rate-making and Budget

The Department's actuary, Milliman, has certified a rate that is actuarially sound for this program. These rates are reflected in Table I below:

Table 1 New Hampshire Department of Health and Human Services SFY 2020 Capitation Rate Change Based on Projected SFY 2020 MCO Enrollment by Rate Cell			
Population	January 2019 to June 2019 Capitation Rate	SFY 2020 Capitation Rate	Percentage Change
Standard Medicaid			
Base Population	\$303.54	\$315.15	3.8%
CHIP*	188.36	196.71	4.4%
Behavioral Health Population	1,294.03	1,386.51	7.1%
Total Standard Medicaid	\$371.26	\$389.03	4.8%
Granite Advantage Health Care Program			
Medically Frail	\$993.36	\$1,025.07	3.2%
Non-Medically Frail	423.21	482.80	14.1%
Total GAHCP	\$532.03	\$586.30	10.2%
Total	\$416.29	\$444.28	6.7%

*The CHIP capitation rate is an average of the specific rate cells in which CHIP members are enrolled. We do not develop a CHIP specific capitation rate.

Federal law requires that managed care rates be reviewed no less frequently than a 12-month period. The Department aligns this process with the state fiscal year. Over the last several years, the rates have been reviewed and an amendment made to the MCM contracts in May or June for the fiscal year beginning on July 1st. In order to maintain actuarial soundness, the rates are also required to be reviewed in the event of significant program changes. For example, while the Department established rates for FY 2019 last spring, the Department was required to refresh and update the rates when the Medicaid expansion program was brought back into managed care on January 1, 2019 – in the middle of the state fiscal year.

This year, there are items in both the Governor's budget and in other legislation now pending that, if and when enacted, would require Milliman to revise the rates. Specifically, there are proposals to (i) raise the rates paid to community based designated receiving facilities; (ii) add transitional housing for persons who can be discharged from New Hampshire Hospital; (iii) add mobile crisis teams or other behavioral health crisis services. All of these

additional services will have to be incorporated into the capitated rates for the managed care program consistent with their effective dates.

As a result, the Department anticipates that following the end of the legislative session, Milliman will review all program changes and any other relevant information, and adjust the rates as necessary. The Department would expect to bring an amendment to the contract in the September or October time frame for this purpose.

The certified rate established for the program that is reflected in this contract is within the Department's budget for state fiscal year 2020. Even though that the rates have been increased, a decline in the number of persons enrolled in Medicaid and a decline in the acuity of the population that has reduced expenditures in certain of the highest rate cells accounts for a reduction of total expenditure in the program within the current budget. As we have in the past, the Department and Milliman will work with the legislature in the budget process to ensure that the program is funded consistent with the budget.

Area served: Statewide.

Source of Funds: Funds for Granite Advantage Health Program are 93% Federal as appropriated by Congress and 7% Other for calendar year 2019 and 90% Federal and 10% Other for calendar year 2020; funds for the Child Health Insurance Program are 79.4% Federal as appropriated by Congress and 20.6% General funds; and funds for the standard Medicaid population funding under the Medicaid Care Management account are 51% Federal as appropriated by Congress, 24.3% General and 24.7% Other funds.

In the event that Federal funds become no longer available or are decreased below the 93% level for calendar year 2019 or 90% level for calendar year 2020, for the Granite Advantage Health Program, consistent with RSA 126-AA:3, no state general funds shall be deposited into the fund and medical services for this population would end consistent with RSA 126-AA:3, VI and the terms and conditions of the federal waiver issued by the Centers for Medicare and Medicaid Services

16. **WAIVER OF BREACH.** No failure by the State to enforce any provisions hereof after any Event of Default shall be deemed a waiver of its rights with regard to that Event of Default, or any subsequent Event of Default. No express failure to enforce any Event of Default shall be deemed a waiver of the right of the State to enforce each and all of the provisions hereof upon any further or other Event of Default on the part of the Contractor.

17. **NOTICE.** Any notice by a party hereto to the other party shall be deemed to have been duly delivered or given at the time of mailing by certified mail, postage prepaid, in a United States Post Office addressed to the parties at the addresses given in blocks 1.2 and 1.4, herein.

Exhibit A – Scope of Services

4.1.3.5.1 The MCO may provide Members with services or settings that are "In Lieu Of" Services or settings included in the Medicaid State Plan that are more medically appropriate, cost-effective substitutes for the Medicaid State Plan services. The MCO may cover In Lieu Of Services if:

4.1.3.5.1.1. DHHS determines that the alternative service or setting is a medically appropriate and cost-effective substitute;

4.1.3.5.1.2. The Member is not required to use the alternative service or setting;

4.1.3.5.1.3. The In Lieu Of Service has been authorized by DHHS; and

4.1.3.5.2 DHHS may determine that the alternative service or setting is a medically appropriate and cost-effective substitute by either: prospectively providing to the MCO a list of services that the MCO may consider In Lieu Of Services; or by the MCO receiving approval from DHHS to implement an In Lieu Of Service.

4.1.3.5.3 DHHS has authorized medical nutrition, diabetes self-management, and assistance in finding and keeping housing (not including rent), as In Lieu Of Services. This list may be expanded upon or otherwise modified by DHHS through amendments of this Agreement.

4.1.3.5.4 For the MCO to obtain approval for In Lieu Of Services not authorized by DHHS, the MCO shall submit an In Lieu Of Service request to DHHS for each proposed In Lieu of Service not yet authorized.

4.1.3.5.5 The MCO shall monitor the cost-effectiveness of each approved In Lieu of Service by tracking utilization and expenditures and submit an annual update providing an evaluation of the cost-effectiveness of the alternative service during the previous twelve (12) months, in accordance with Exhibit O.

4.1.3.6 Institution for Mental Diseases (IMD)

4.1.3.6.1 Pursuant to 42 CFR 438.6, the MCO shall pay for up to fifteen (15) inpatient days per calendar month for any Member who is receiving treatment in an IMD that is not a state owned or operated facility for the primary treatment of a psychiatric disorder.

The provision of inpatient psychiatric treatment in an IMD shall meet the requirements for In Lieu of Services at 42 CFR 438.3(e)(2)(i)-(iii).

4.1.3.7 Telemedicine

4.1.3.7.1 The MCO shall comply with provisions of RSA 167:4(d) by providing access to telemedicine services to Members in certain circumstances.

4.1.8.4.2 The determination process does not delay the delivery of the needed service; and

4.1.8.4.3 The determination does not limit the Member's right to a free choice of Participating Providers within the MCO's network.

4.1.8.5 Specific limits (number of hours, number of visits, or other limitations on scope, amount or frequency, multiple services same day, or location of service) in the MCO clinical coverage policies, service definitions, or billing codes do not apply to Medicaid Members less than twenty-one (21) years of age, when those services are determined to be Medically Necessary per federal EPSDT criteria.

4.1.8.8 The MCO shall conduct Prior Authorization reviews using current clinical documentation, and shall consider the individual clinical condition and health needs of the child Member. The MCO shall not make an adverse benefit determination on a service authorization request for a Member less than twenty-one (21) years of age until the request is reviewed per EPSDT criteria.

4.1.8.9 While an EPSDT request is under review, the MCO may suggest alternative services that may be better suited to meet the Member's needs, engage in clinical or educational discussions with Members or Providers, or engage in informal attempts to resolve Member concerns as long as the MCO makes clear that the Member has the right to request authorization of the services he or she wants to request.

4.1.8.10 The MCO shall develop effective methods to ensure that Members less than twenty-one (21) years of age receive all elements of preventive health screenings recommended by the AAP in the Academy's most currently published Bright Futures preventive pediatric health care periodicity schedule using a validated screening tool. 4.14.2 In developing and refining its APM strategy, DHHS relies on the framework established by the Health Care Payment Learning and Action Network APM framework (or the "HCP-LAN APM framework") in order to:

4.14.4 Within the guidance parameters established and issued by DHHS and subject to DHHS approval, the MCO shall have flexibility to design Qualifying APMs (as defined in Section 4.14 of this Agreement) consistent with the DHHS Medicaid APM strategy and in conformance with CMS guidance.

4.14.5 The MCO shall support DHHS in developing the DHHS Medicaid APM Strategy through participation in stakeholder meetings and planning efforts, providing all required and otherwise requested information related to APMs, sharing data and analysis, and other activities as specified by DHHS.

4.14.6.1 Makes participation in the APM available, using the same terms of performance, to a class of Providers providing services under the contract related to the reform or improvement initiative;

4.14.6.2 Uses a common set of performance measures across all the Providers;

4.14.6.3 Does not set the amount or frequency of the expenditures; and

4.14.7.1.2.1. If approved by DHHS, the MCO may use its alternative approach, but only for the period of time requested and approved by DHHS, which is not to exceed an additional six (6) months after the initial 18 month period.

4.14.7.1.2.2. For failure to meet this requirement, DHHS reserves the right to issue remedies as described in Section 5.5.2 (Liquidated Damages) and Exhibit N, Section 3.2 (Liquidated Damages Matrix).

4.14.8.9 Accommodations for Small Providers

4.14.8.9.1 The MCO shall develop Qualifying APM models appropriate for small Providers, as further defined by the DHHS Medicaid APM Strategy.

4.14.8.9.2 For example, the MCO may propose to DHHS models that incorporate pay-for-performance bonus incentives and/or per Member per month payments related to Providers' success in meeting actuarially-relevant cost and quality targets.

4.14.8.10 Alignment with Existing Alternative Payment Models and Promotion of Integration with Behavioral Health

5.3.4.3 The MCO shall document in writing the termination of a payment suspension and issue a notice of the termination to the Provider and to DHHS.

5.3.4.4 The DHHS Program Integrity Unit may find that good cause exists not to suspend payments, in whole or in part, or not to continue a payment suspension previously imposed, to an individual or entity against which there is an investigation of a credible allegation of fraud if any of the following are applicable:

5.3.4.4.1 MFCU or other law enforcement officials have specifically requested that a payment suspension not be imposed because such a payment suspension may compromise or jeopardize an investigation;

5.3.4.4.2 Other available remedies are available to the MCO, after DHHS approves the remedies that more effectively or quickly protect Medicaid funds;

5.3.4.4.3 The MCO determines, based upon the submission of written evidence by the individual or entity that is the subject of the payment suspension, there is no longer a credible allegation of fraud and that the suspension should be removed.

5.3.4.4.3.1 The MCO shall review evidence submitted by the Provider and submit it with a recommendation to DHHS.

5.3.4.4.3.2 DHHS shall direct the MCO to continue, reduce or remove the payment suspension within thirty (30) calendar days of having received the evidence;

5.3.4.6 If the MCO fails to suspend payments to an entity or individual for whom there is a pending investigation of a credible allegation of fraud without good cause, and DHHS directed the MCO to suspend payments, DHHS may impose liquidated damages.

5.3.4.7 If any government entity, either from restitutions, recoveries, penalties or fines imposed following a criminal prosecution or guilty plea, or through a civil settlement or judgment, or any other form of civil action, receives a monetary recovery from any entity or individual, the entirety of such monetary recovery belongs exclusively to the State, and the MCO and any involved Subcontractor have no claim to any portion of such recovery.

5.3.4.8 Furthermore, the MCO is fully subrogated, and shall require its Subcontractors to agree to subrogate, to the State for all criminal, civil and administrative action recoveries undertaken by any government entity, including but not limited to all claims the MCO or its Subcontractor(s) has or may have against any entity or individual that directly or indirectly receives funds under this Agreement, including but not limited to any health care Provider, manufacturer, wholesale or retail supplier, sales representative, laboratory, or other Provider in the design, manufacture, Marketing, pricing, or quality of drugs, pharmaceuticals, medical supplies, medical devices, DME, or other health care related products or services.

5.3.4.8.1 For the purposes of this Section of the Agreement, "subrogation" means the right of any State government entity or local law enforcement to stand in the place of the MCO or client in the collection against a third party.

5.3.4.9 Any funds recovered and retained by a government entity shall be reported to the actuary to consider in the rate-setting process.
