EXPLANATION

This request is **Retroactive** because the Department was notified by the Federal awarding agency on September 23, 2022 of the availability of funding beyond the current contract completion date of September 29, 2022. Due to the delayed notification from the Federal awarding agency, the Department was unable to finalize the amendments and funding details and present this request to the Governor and Council prior to the contracts expiring.

This request is **Sole Source** because the Department is seeking to extend the contract beyond the completion dates and there are no renewal options available. Due to the limited timeframe between the funding notification from the Federal awarding agency and the contract expiration date, the Department was not able to re-procure for these services. Any delays or gaps in service provision may result in reduced or loss of access to services and supports for individuals in need of these critical services.

The purpose of this request is for the Contractor to continue to facilitate the participation of Federally Qualified Health Centers (FQHCs) to provide medications for substance use disorder (MSUD), and an array of necessary supports to pregnant, postpartum, and parenting people with opioid use disorder (OUD), along with their newborn and infant children.

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
Page 3 of 3

The Contractor shall continue the currently contracted role as a facilitating organization (FO) to support at least three (3) subcontracted FQHCs to increase their capacity to provide and to deliver comprehensive integrated MSUD services and supports. The FO will provide project management, organizational support, and ensure compliance for themselves and all subcontracted sites with contract, State, and Federal regulations and standards.

The subcontracted FQHCs will provide integrated MSUD, meaning that not only will pregnant, postpartum, and parenting people with OUD receive necessary MSUD, they will also receive additional targeted, integrated services such as: obstetrical/gynecological care; Neonatal Abstinence Syndrome care; childbirth and parenting education; employment support and assistance with applying for and obtaining benefits appropriate for pregnant, postpartum, and parenting people such as enrolling in Medicaid; food and housing services; transportation; and childcare. MSUD is the use of medications, in combination with counseling and behavioral therapies, when necessary.

In addition to continuing to support providers in delivering comprehensive integrated MSUD services and supports for the target population, the Contractor will collaborate with local and regional public health and provider networks, including the Doorways and recovery community organizations, to align and coordinate substance misuse treatment and recovery support services.

Approximately 75 individuals will be served September 30, 2022 to September 29, 2023.

The additional funding with this amendment shall go towards supporting additional staff for reporting, additional supplies, community coordination, and reestablishment of a previous subcontracted FQHC.

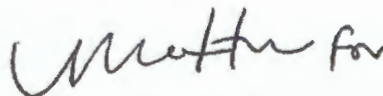

Should the Governor and Council not authorize this request, pregnant, post-partum, and parenting people in New Hampshire with OUD and their infants and children may not receive the treatment necessary to achieve and maintain recovery and may also not receive important parenting-specific services and supports which could improve the mothers' health and wellbeing as well as that of their infants and children.

Area served: Statewide

Source of Federal Funds: Assistance Listing Number #93.788, FAIN #1H79TI085759.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Shibinette
Commissioner

INDEPENDENT AUDITOR'S REPORT

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of Bi-State Primary Care Association, Inc. and Subsidiary (collectively, the Association), which comprise the consolidated balance sheets as of June 30, 2022 and 2021, and the related consolidated statements of operations and changes in net assets and cash flows for the years then ended, and the related notes to the consolidated financial statements.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Association as of June 30, 2022 and 2021, and the results of their operations, changes in their net assets, and their cash flows for the years then ended, in accordance with U.S. generally accepted accounting principles.

Basis for Opinion

We conducted our audits in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are required to be independent of the Association and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Association's ability to continue as a going concern within one year after the date that the consolidated financial statements are available to be issued.

Board of Directors
Bi-State Primary Care Association, Inc. and Subsidiary
Page 2

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with U.S. generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with U.S. generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Association's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Association's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Board of Directors
Bi-State Primary Care Association, Inc. and Subsidiary

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the consolidated financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 23, 2022 on our consideration of the Association's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Association's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Association's internal control over financial reporting and compliance.

BI-STATE PRIMARY CARE ASSOCIATION, INC. AND SUBSIDIARY

Notes to Consolidated Financial Statements

June 30, 2022 and 2021

Organization

Bi-State Primary Care Association, Inc. (BSPCA) is a not-for-profit corporation organized in New Hampshire. The Association's mission is to advance access to comprehensive primary care services for all, with special emphasis on those most in need in Vermont and New Hampshire.

Subsidiary

Center for Primary Health Care Solutions, LLC (CPHCS) is a limited liability company formed pursuant to the New Hampshire Limited Liability Company Act. CPHCS's primary purpose is to provide healthcare industry services and other industry-related consulting services. BSPCA is the sole member of CPHCS.

1. Summary of Significant Accounting Policies

Principles of Consolidation

The consolidated financial statements include the accounts of BSPCA and its subsidiary, CPHCS (collectively, the Association). All significant intercompany balances and transactions have been eliminated in consolidation.

Basis of Presentation

The consolidated financial statements of the Association have been prepared in accordance with U.S. generally accepted accounting principles (U.S. GAAP), which requires the Association to report information in the consolidated financial statements according to the following net asset classifications:

Net assets without donor restrictions: Net assets that are not subject to donor-imposed restrictions and may be expended for any purpose in performing the primary objectives of the Association. These net assets may be used at the discretion of the Association's management and the Board of Directors.

Net assets with donor restrictions: Net assets subject to stipulations imposed by donors and grantors. There were no net assets with donor restrictions at June 30, 2022 and 2021.

Use of Estimates

The preparation of consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

BI-STATE PRIMARY CARE ASSOCIATION, INC. AND SUBSIDIARY

Notes to Consolidated Financial Statements

June 30, 2022 and 2021

Income Taxes

BSPCA is a public charity under Section 501(c)(3) of the Internal Revenue Code (IRC). As a public charity, the entity is exempt from state and federal income taxes on income earned in accordance with its tax-exempt purpose. Unrelated business income is subject to state and federal income tax.

CPHCS is a limited liability company; however, for federal tax purposes, it is considered to be a disregarded entity and, as such, CPHCS's income, expenses, losses, gains, deductions and credits are reported on BSPCA's information return. Management believes the services provided by CPHCS are consistent with BSPCA's tax-exempt purpose and its revenue does not constitute unrelated business income.

Management has evaluated BSPCA's tax positions and concluded that there are no unrelated business income or uncertain tax positions that require adjustment to the consolidated financial statements.

COVID-19 and Related Funding

In March 2020, the World Health Association declared the 2019 novel coronavirus disease (COVID-19) a global pandemic and the United States federal government declared COVID-19 a national emergency. The COVID-19 pandemic has impacted and could further impact the Association's operations and the operations of the Association's members as a result of quarantines, travel and logistics restrictions.

During April 2020, the Association received a loan in the amount of \$476,000 pursuant to the Paycheck Protection Program (PPP), a program implemented by the U.S. Small Business Administration (SBA) under the Coronavirus Aid, Relief, and Economic Security Act and the Paycheck Protection Program and Health Care Enhancement Act. The principal amount of the PPP is subject to forgiveness, to the extent that the proceeds are used to pay qualifying expenditures, including payroll costs, rent and utilities, incurred by the Association during a specific covered period. The Association was notified in February 2021 the loan was fully forgiven by the SBA and the lender.

Cash and Cash Equivalents

Cash and cash equivalents consist of demand deposits and money market accounts.

The Association has cash deposits in a major financial institution which exceeds federal depository insurance limits. Because business needs frequently require funds in excess of the Federal Deposit Insurance Corporation (FDIC) insured amount of \$250,000, all funds in the Merrimack County Savings Bank checking account are subject to a nightly sweep, which consists of high-yield savings accounts in other FDIC insured institutions with no individual institution exceeding FDIC limits.

BI-STATE PRIMARY CARE ASSOCIATION, INC. AND SUBSIDIARY**Notes to Consolidated Financial Statements****June 30, 2022 and 2021****Revenue**

Revenue is reported at the estimated net realizable amount that reflects the consideration the Association expects to receive in exchange for providing program services to New Hampshire and Vermont community health centers. These amounts generally do not include variable consideration since the amounts are determined ahead of the provision of services, programs, or memberships. Generally, the Association bills the community health centers directly. Revenue is recognized as performance obligations are satisfied. The Association expects the period of time between the provision of service and receipt of payment for the service to be one year or less. The Association provides program services for stated annual dues. The Association typically receives the payments quarterly for membership dues. The Association also provides event services for a stated registration fee. The Association also receives sponsorships for the events and programs. Pricing and terms of event services are established by the Association. Typically, payments are received in advance of the program or event. Any amounts received before the beginning of the contract period are recorded as deferred revenue.

Performance obligations are determined based on the nature of the services provided by the Association. Revenue for performance obligations satisfied over time is recognized for the general benefits provided. Generally, performance obligations satisfied over time relate to membership dues. The Association measures the period over which the performance obligation is satisfied from the start of the membership period until the end of the fiscal year and recognizes revenue on a straight-line basis over this period. Revenue for performance obligations related to event services, which are satisfied at a point in time, are based upon the stated contract price (registration fee or sponsorship) for the agreed upon performance obligation.

Accounts receivable and deferred revenue related to revenue from contracts with customers was as follows at June 30:

	<u>2022</u>	<u>2021</u>
Accounts receivable	\$ 59,931	\$ 29,568
Deferred revenue	114,633	22,750

U.S. GAAP requires disclosure of opening balances of contracts receivable and deferred revenue which amounted to \$29,349 and \$6,750, respectively, at July 1, 2020.

Grants and Other Receivables

Grants and other receivables are stated at the amount management expects to collect from outstanding balances. All such amounts are considered collectible.

A portion of the Association's revenue is derived from cost-reimbursable grants, which are conditioned upon certain performance requirements and/or the incurrence of allowable qualifying expenses. Amounts received are recognized as revenue when the Association has incurred expenditures in compliance with specific contract or grant provisions. Amounts received prior to incurring qualifying expenditures are reported as deferred revenue. The Association has been awarded cost reimbursable grants of \$9,710,054 that have not been recognized at June 30, 2022, because qualifying expenditures have not yet been incurred.

BI-STATE PRIMARY CARE ASSOCIATION, INC. AND SUBSIDIARY

Notes to Consolidated Financial Statements

June 30, 2022 and 2021

The Association receives a significant amount of grants from the U.S. Department of Health and Human Services (DHHS). As with all government funding, these grants are subject to reduction or termination in future years. For the years ended June 30, 2022 and 2021, grants from DHHS (including both direct awards and awards passed through other Associations) represented approximately 80% and 83%, respectively, of grant revenue.

Investments and Investment Income

Investments in equity securities with readily-determinable fair values and all investments in debt securities are measured at fair value in the consolidated balance sheets. Investment income or loss (including gains and losses on investments, interest, and dividends) is included in the change in net assets without donor restrictions unless the income or loss is restricted by donor or law.

Investments are exposed to various risks, such as interest rate, credit, and overall market volatility. As such, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the consolidated balance sheets.

Property and Equipment

Property and equipment are carried at cost, less accumulated depreciation. Maintenance, repairs and minor renewals are expensed as incurred and renewals and betterments are capitalized. Provision for depreciation is computed using the straight-line method over the useful lives of the related assets. The Association's capitalization policy is applicable for acquisitions greater than \$5,000.

Contributions

Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received, which is then treated as cost. The gifts are reported as net assets with donor restrictions if they are received with donor stipulations that limit use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, net assets with donor restrictions are reclassified as net assets without donor restrictions and reported in the consolidated statements of operations and changes in net assets as net assets released from restriction. Contributions whose restrictions are met in the same period as the support is received are recognized as net assets without donor restrictions.

Subsequent Events

For purposes of the preparation of these consolidated financial statements, management has considered transactions or events occurring through September 23, 2022, the date that the consolidated financial statements were available to be issued. Management has not evaluated subsequent events after that date for inclusion in the consolidated financial statements.

BI-STATE PRIMARY CARE ASSOCIATION, INC. AND SUBSIDIARY**Notes to Consolidated Financial Statements****June 30, 2022 and 2021****2. Availability and Liquidity of Financial Assets**

The Association regularly monitors liquidity required to meet its operating needs and other contractual commitments. The Association has various sources of liquidity at its disposal, including cash and cash equivalents, investments and a \$350,000 line of credit (Note 5).

Financial assets available for general expenditure within one year were as follows at June 30:

	<u>2022</u>	<u>2021</u>
Cash and cash equivalents	\$ 1,675,159	\$ 1,539,885
Investments	1,356,319	1,355,591
Grants and other receivables	<u>1,016,104</u>	<u>827,352</u>
Financial assets available to meet general expenditures within one year	<u>\$ 4,047,582</u>	<u>\$ 3,722,828</u>

The Association had average days cash and cash equivalents on hand of 91 and 118 at June 30, 2022 and 2021, respectively. The Association manages its cash available to meet general expenditures following three guiding principles:

- Operating within a prudent range of financial soundness and stability;
- Maintaining an average days cash on hand of 90 to 180 days; and
- Maintaining sufficient reserves to provide reasonable assurance that long-term commitments and obligations will continue to be met, ensuring the sustainability of the Association.

3. Investments and Deferred Compensation Investments

Financial Accounting Standards Board Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurement*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants, and also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The fair value hierarchy within ASC Topic 820 distinguishes three levels of inputs that may be utilized when measuring fair value:

- Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.
- Level 2: Significant observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.
- Level 3: Significant unobservable inputs that reflect an entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

BI-STATE PRIMARY CARE ASSOCIATION, INC. AND SUBSIDIARY**Notes to Consolidated Financial Statements****June 30, 2022 and 2021**

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The fair market value of the Association's investments and deferred compensation plan investments are measured on a recurring basis. The following table sets forth the Association's assets by level within the fair value hierarchy at June 30:

Notes to Schedule of Expenditures of Federal Awards

Year Ended June 30, 2022

1. Summary of Significant Accounting Policies

Expenditures reported on the schedule of expenditures of federal awards (the Schedule) are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), wherein certain types of expenditures are not allowable or are limited as to reimbursement.

2. De Minimis Indirect Cost Rate

Bi-State Primary Care Association, Inc. and Subsidiary (collectively, the Association) has not elected to use the 10% de minimis indirect cost rate allowed under the Uniform Guidance.

3. Basis of Presentation

The Schedule includes the federal grant activity of the Association. The information in this Schedule is presented in accordance with the requirements of the Uniform Guidance. Because the Schedule presents only a selected portion of the operations of the Association, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the Association.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Board of Directors
Bi-State Primary Care Association, Inc. and Subsidiary

We have audited, in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the consolidated financial statements of Bi-State Primary Care Association, Inc. and Subsidiary (collectively, the Association), which comprise the consolidated balance sheet as of June 30, 2022, and the related consolidated statements of operations and changes in net assets and cash flows for the year then ended, and the related notes to the consolidated financial statements, and have issued our report thereon dated September 23, 2022.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the consolidated financial statements, we considered the Association's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Association's internal control. Accordingly, we do not express an opinion on the effectiveness of the Association's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Board of Directors
Bi-State Primary Care Association, Inc. and Subsidiary

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Association's consolidated financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Association's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Association's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE
FOR THE MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL
OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

Board of Directors
Bi-State Primary Care Association, Inc. and Subsidiary

Report on Compliance for the Major Federal Program

Opinion on the Major Federal Program

We have audited Bi-State Primary Care Association, Inc. and Subsidiary's (collectively, the Association) compliance with the types of compliance requirements identified as subject to audit in the Office of Management and Budget *Compliance Supplement* that could have a direct and material effect on its major federal program for the year ended June 30, 2022. The Association's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the Association complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended June 30, 2022.

Basis for Opinion on the Major Federal Program

We conducted our audit of compliance in accordance with U.S. generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the Association and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for the major federal program. Our audit does not provide a legal determination of the Association's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the Association's federal programs.

Board of Directors
Bi-State Primary Care Association, Inc. and Subsidiary

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Association's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with U.S. generally accepted auditing standards, *Government Auditing Standards* and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Association's compliance with the requirements of the major federal program as a whole.

In performing an audit in accordance with U.S. generally accepted auditing standards, *Government Auditing Standards* and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Association's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the Association's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the Association's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Board of Directors
Bi-State Primary Care Association, Inc. and Subsidiary

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

EXPLANATION

The purpose of this request is to continue facilitating the participation of certain Federally Qualified Health Centers (FQHCs) to provide medications for substance use disorder (MSUD), formerly referred to as medication assisted treatment, and an array of necessary supports to pregnant, postpartum, and parenting women diagnosed with opioid use disorder (OUD), along with their newborn and infant children.

The Contractor shall continue the currently contracted role as a facilitating organization (FO) to support at least two (2) subcontracted FQHCs to increase their capacity to provide and to deliver comprehensive integrated MSUD services and supports. The FO will provide project management, organizational support, and ensure compliance for themselves and all subcontracted sites with contract, State, and Federal regulations and standards.

The subcontracted FQHCs will provide integrated MSUD, meaning that not only will pregnant, postpartum, and parenting women diagnosed with OUD receive necessary MSUD, they will also receive additional targeted, integrated services such as: obstetrical/gynecological care; Neonatal Abstinence Syndrome care; childbirth and parenting education; employment support and assistance with applying for and obtaining benefits appropriate for pregnant, postpartum, and parenting women such as enrolling in Medicaid; food and housing services; transportation; and childcare. MSUD is the use of medications, in combination with counseling and behavioral therapies, to provide a "whole-patient" approach to the treatment of OUD.

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
Page 3 of 3

In addition to continuing to support providers in delivering comprehensive integrated MSUD services and supports for the target population, the Contractor will collaborate with local and regional public health and provider networks, including the Doorways and recovery community organizations, to align and coordinate substance misuse treatment and recovery support services.

Approximately 70 individuals will be served from July 1, 2022 to September 29, 2022.

The Department will continue to monitor contracted services by reviewing reports, surveys and other necessary data; critical and sentinel event reports; and performance measures indicating the effectiveness of the Contractor and the delivery of services under this agreement.

As referenced in Exhibit C-1 of the original contract, the parties have the option to extend the agreement for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval. The Department is exercising its option to renew services for the remaining three (3) months of available renewal. In part, this decision is based on the fact that the subcontracted FQHCs have been integral partners and supports for the Regional Doorway system and continuing funding these contracts will avoid creating critical service gaps.

Should the Governor and Council not authorize this request, pregnant, post-partum, and parenting women in New Hampshire diagnosed with OUD and their infants and children may not receive the treatment necessary to overcome their addiction and may also not receive important parenting-specific services and supports which could improve the mothers' health and wellbeing as well as that of their infants and children. Not receiving these needed services could lead to serious health and social consequences, including overdose, incarceration, or death for the mother; involvement with DCYF, which may include termination of custody; and increased likelihood of being unsheltered and/or unemployed.

Area served: Statewide

Source of Funds: 100% Federal Funds. Assistance Listing #93.788, FAIN # H79TI083326.

In the event that the Other Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Shibinette
Commissioner

EXPLANATION

The purpose of this request is to continue facilitating the participation of certain Federally Qualified Health Centers and hospitals to provide medication assisted treatment and an array of necessary supports to pregnant, postpartum, and parenting women diagnosed with opioid use disorder.

The Contractor will support a minimum of (3) Federally Qualified Health Centers and/or hospitals to increase their capacity to provide and to deliver comprehensive integrated Medication Assisted Treatment services and support for pregnant, postpartum, and parenting women with opioid use disorder, along with their newborn and infant children.

Integrated Medication Assisted Treatment services are a critical component to address the opioid crisis in New Hampshire. The programs supported by this contract are evidence-based options that have expanded the State's capacity to provide treatment and recovery supports to women, as well as their infants and children affected by their mother's use of opioids.

Approximately 500 individuals will be served from September 30, 2021 to June 30, 2022.

In addition to continuing support to providers in delivering comprehensive integrated medication assisted treatment services and supports for the target population, the Contractor will collaborate with local and regional networks, including the Doorways, to align services.

The Department will continue to monitor contracted services by reviewing reports, surveys and other necessary data; critical and sentinel event reports; and performance measures indicating the effectiveness of the Contractor and the delivery of services under this agreement. The Contractor will:

- Ensure that 50% of women referred to the program who consent to treatment and qualify based on clinical evaluation will enter opioid use disorder treatment as reported by the Sites;
- Ensure 75% of women identified by American Society of Addiction Medicine criteria as in need of a higher level of care will be referred to treatment services in order to increase referral of pregnant and postpartum women to Opioid Use Disorder treatment providers as reported by the Sites; and

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
Page 3 of 3

- Attempt to lower positive urine drug screens for illicit substances for pregnant women served in this program by five percent (5%) through State Fiscal Year 2022, as reported by the Sites.

As referenced in Exhibit C-1 of the original contract, the parties have the option to extend the agreement for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval. The Department is exercising its option to renew services for nine (9) months of the one (1) available year remaining.

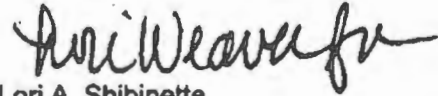

Should the Governor and Council not authorize this request, pregnant, postpartum, and parenting women in New Hampshire diagnosed with opioid use disorder and their infants and children may not receive the services and supports necessary to overcome their addiction, which could negatively affect the mothers' health as well as the health of their infants and children.

Area served: Statewide

Source of Funds: Assistance Listing #93.788, FAIN # H79TI083326.

In the event that the Other Funds become no longer available, General Funds will not be requested to support this program.

Respectfully,

Lori A. Shibinette.

EXPLANATION

This request is **Retroactive** because sufficient funds in State Fiscal Year 2021 were not available in the operating budget considering the grant amount awarded, and due to delay by the Substance Abuse and Mental Health Services Administration in approving New Hampshire's requests for continued State Opioid Response Grant funding the efforts to add the state appropriations were deferred. This request is **Sole Source** because the contract was originally approved as sole source and MOP 150 requires any subsequent amendments to be labeled as sole source. The Contractor was identified as the organization for this scope of work based on its role and well-established professional and technical assistance relationships with the State's Federally Qualified Health Centers and hospitals, which allows services to be established quickly and efficiently in the targeted geographic areas.

The purpose of this request is to continue facilitating the participation of Federally Qualified Health Centers and hospitals to provide medication assisted treatment and an array of necessary supports to pregnant, postpartum, and parenting women diagnosed with opioid use disorder. The Contractor shall continue to support at least five (5) Federally Qualified Health Centers and/or hospitals to increase their capacity to provide and to deliver comprehensive integrated Medication Assisted Treatment services and supports for pregnant, postpartum, and parenting women with opioid use disorder, along with their newborn and infant children.

These services are needed due to the opioid crisis in New Hampshire. The programs supported by this contract are evidence-based options that have expanded the State's capacity to provide treatment and recovery support to pregnant, post-partum, and parenting women with opioid use disorders, as well as their infants and children affected by their mother's use of opioids.

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
Page 3 of 3

In addition to continuing the facilitation of the expansion of medication assisted treatment services and supports for the target population, the Contractor will collaborate with local and regional networks, including the Doorways to align services.

The Department will continue monitoring the effectiveness of the Contractor and the delivery of services under this agreement using the following performance measures:

- The Contractor shall ensure that 50% of women referred to the program who consent to treatment and qualify based on clinical evaluation will enter opioid use disorder treatment as reported by the Sites.
- The Contractor shall ensure 75% of women identified by American Society of Addiction Medicine criteria as in need of a higher level of care will be referred to treatment services in order to increase referral of pregnant and postpartum women to Opioid Use Disorder treatment providers as reported by the Sites.
- The Contractor shall attempt to lower positive urine drug screens for illicit substances for pregnant women served in this program by five percent (5%) through State Fiscal Year 2021, as reported by the Sites.

As referenced in Exhibit C-1 of the original contract, the parties have the option to extend the agreement for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval. The Department is exercising its option to renew services for one (1) year of the two (2) years available.

Should the Governor and Council not authorize this request pregnant, post-partum, and parenting women in New Hampshire diagnosed with opioid use disorder and their infants and children may not receive the support necessary to overcome their addiction which could negatively impact their health and the health of their infants and children.

Area served: Statewide.

Source of Funds: 100% Federal Funds. CFDA #93.788, FAIN T1081885.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

EXPLANATION

This request is sole source due to the limited amount of time remaining to implement services utilizing the federal State Opioid Response funding within the grant time limits. Bi-State Primary Care Association (Contractor) was identified as the organization for this scope of work based on their roles and well-established professional and technical assistance relationships with the State's Federally Qualified Health Centers (FQHCs) and hospitals, which will allow services to be established quickly and efficiently in the targeted geographic areas.

The purpose of this request is to facilitate the participation of FQHCs and hospitals to provide medication assisted treatment (MAT) and an array of necessary supports to pregnant, postpartum, and parenting women diagnosed with opioid use disorder (OUD). The Contractor shall enter into agreements with at least five (5) FQHCs and/or hospitals to increase their capacity to provide and to deliver comprehensive integrated Medication Assisted Treatment (iMAT) services and supports for pregnant, postpartum, and parenting women with OUD, along with their newborn and infant children.

These services are needed due to the urgent nature of the opioid crisis in New Hampshire. The programs supported by this contract are evidence-based options that will expand the State's capacity to provide treatment and recovery support to pregnant, post-partum, and parenting women with opioid use disorders, as well as their infants and children affected by their mother's use of opioids.

The Contractor will facilitate the expansion of iMAT services and supports for this targeted population and collaborate with local and regional networks, including the Doorways to align services. The Contractor will provide support to FQHCs that are interested in developing or enhancing existing capacity to deliver these critical services in their regions.

The Department will monitor the effectiveness of the Contractor and the delivery of services under this agreement using the following performance measures:

- The Contractor shall ensure that fifty percent (50%) of women referred to the program who consent to treatment and qualify based on clinical evaluation will enter OUD treatment as reported by the Sites.
- The Contractor shall ensure seventy-five percent (75%) of women identified by ASAM criteria as in need of a higher level of care will be referred to treatment services in order to increase referral of pregnant and postpartum women to OUD treatment providers, as reported by the Sites.
- The Contractor shall attempt to lower positive urine drug screens for illicit substances for pregnant women served in this program by five percent (5%) from State Fiscal Year 2020 to State Fiscal Year 2021, as reported by the Sites.

As referenced in the Exhibit C-1 of this contract, the parties have the option to extend contract services for up to two (2) additional year(s), contingent upon satisfactory delivery of services, available funding, agreement of the parties and approval of the Governor and Executive Council.

Should the Governor and Executive Council not authorize this request, pregnant, post-partum, and parenting women in New Hampshire diagnosed with opioid use disorder and their infants and children may not receive the support necessary to overcome their addiction which could negatively impact their health and the health of their infants and children.

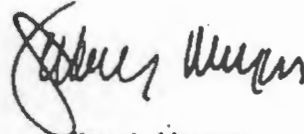

Area served: Statewide.

Source of Funds: 100% Federal Funds from Department of Health & Human Svs, Substance Abuse & Mental Health Svs Admin, Center for Substance Abuse Treatment, CFDA#93.788/ FAIN#T1081685 and FAIN#T1080246.

His Excellency, Governor Christopher T. Sununu
and the Honorable Council

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

SPECIAL PROVISIONS

Contractors Obligations: The Contractor covenants and agrees that all funds received by the Contractor under the Contract shall be used only as payment to the Contractor for services provided to eligible individuals and, in the furtherance of the aforesaid covenants, the Contractor hereby covenants and agrees as follows:

1. **Compliance with Federal and State Laws:** If the Contractor is permitted to determine the eligibility of individuals such eligibility determination shall be made in accordance with applicable federal and state laws, regulations, orders, guidelines, policies and procedures.
2. **Time and Manner of Determination:** Eligibility determinations shall be made on forms provided by the Department for that purpose and shall be made and remade at such times as are prescribed by the Department.
3. **Documentation:** In addition to the determination forms required by the Department, the Contractor shall maintain a data file on each recipient of services hereunder, which file shall include all information necessary to support an eligibility determination and such other information as the Department requests. The Contractor shall furnish the Department with all forms and documentation regarding eligibility determinations that the Department may request or require.
4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. The Contractor hereby covenants and agrees that all applicants for services shall be permitted to fill out an application form and that each applicant or re-applicant shall be informed of his/her right to a fair hearing in accordance with Department regulations.
5. **Gratuities or Kickbacks:** The Contractor agrees that it is a breach of this Contract to accept or make a payment, gratuity or offer of employment on behalf of the Contractor, any Sub-Contractor or the State in order to influence the performance of the Scope of Work detailed in Exhibit A of this Contract. The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.
6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.
7. **Conditions of Purchase:** Notwithstanding anything to the contrary contained in the Contract, nothing herein contained shall be deemed to obligate or require the Department to purchase services hereunder at a rate which reimburses the Contractor in excess of the Contractor's costs, at a rate which exceeds the amounts reasonable and necessary to assure the quality of such service, or at a rate which exceeds the rate charged by the Contractor to ineligible individuals or other third party funders for such service. If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party funders, the Department may elect to:
 - 7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;

Prior to subcontracting, the Contractor shall evaluate the subcontractor's ability to perform the delegated function(s). This is accomplished through a written agreement that specifies activities and reporting responsibilities of the subcontractor and provides for revoking the delegation or imposing sanctions if the subcontractor's performance is not adequate. Subcontractors are subject to the same contractual conditions as the Contractor and the Contractor is responsible to ensure subcontractor compliance with those conditions.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.
6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.
