EXPLANATION

NHDOE respectfully requests authority to enter into a grant agreement in an amount not to exceed \$150,000 with Berlin School District to support Berlin Middle High School's objectives to promote energy use reduction, responsible energy behavior within their school, allow necessary energy efficiency upgrades, and other initiatives approved by NHDOE. The project being undertaken is upgrading the interior lighting throughout the entirety of Berlin Middle High School to new LEDs. This project will be administered by Berlin Middle High School.

NHDOE issued a Notice of Funding Availability (NOFA) on May 18, 2022 for the School Energy Efficiency Development (SEED) Grant Program, a competitive grant program open to public schools to fund energy efficiency projects. Applications for the NOFA were accepted until the NOFA closed on July 20, 2022. NHDOE received eight applications that were reviewed and scored by an Evaluation Team made up of five State employees. The scoring sheet is attached.

In the event Federal Funds are no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

This certification is required by the regulations implementing Sections 5151-5160 of the Drug-Free Workplace Act of 1988 (Pub. L. 100-690, Title V, Subtitle D; 41 U.S.C. 701 et seq.). The January 31, 1989, regulations were amended and published as Part II of the May 25, 1990, Federal Register (pages 21681-21691), and require certification by grantees (and by inference, sub-grantees and sub-contractors), prior to award, that they will maintain a drug-free workplace. Section 3017.630(c) of the regulation provides that a grantee (and by inference, sub-grantees and sub-contractors) that is a State may elect to make one certification to the Department in each federal fiscal year in lieu of certificates for each grant during the federal fiscal year covered by the certification. The certificate set out below is a material representation of fact upon which reliance is placed when the agency awards the grant. False certification or violation of the certification shall be grounds for suspension of payments, suspension or termination of grants, or government wide suspension or debarment. Grantees using this form should send it to:

Griffin Roberge, State Energy Program Manager, New Hampshire Department of Energy,
21 South Fruit Street, Suite 10, Concord, NH 03301

The Grantee identified in Section 1.3 of the General Provisions agrees to comply with the provisions of Executive Office of the President, Executive Order 12529 and 45 CFR Part 76 regarding Debarment, Suspension, and Other Responsibility Matters, and further agrees to have the Grantee's representative, as identified in Sections 1.11 and 1.12 of the General Provisions execute the following Certification:

CERTIFICATION REGARDING DEBARMENT, SUSPENSION, AND OTHER RESPONSIBILITY MATTERS - PRIMARY COVERED TRANSACTIONS

Instructions for Certification

- (1) By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
- (2) The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Energy (NHDOE) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
- (3) The certification in this clause is a material representation of fact upon which reliance was placed when NHDOE determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, may terminate this transaction for cause or default.
- (4) The prospective primary participant shall provide immediate written notice to the NHDOE to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
- (5) The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76.
- (6) The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by NHDOE.
- (7) The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by NHDOE, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
- (8) A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Non-procurement List (of excluded parties).
- (9) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
- (10) Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, NHDOE may terminate this transaction for cause or default.

CERTIFICATION REGARDING BUILD AMERICA, BUY AMERICA (Buy America) COMPLIANCE

The Grantee identified in Section 1.3 of the General Provisions agrees to comply with the provisions of the Build America, Buy America Act (Buy America) Pub. L. No. 117-58, §§ 70901-52 under the Infrastructure Investment and Jobs Act (IIJA), Pub. L. No. 117-58, as well as the *Initial Implementation Guidance on Application of Buy America Preference in Federal Financial Assistance Programs for Infrastructure* memorandum from the Office of Management and Budget (OMB) dated April 18, 2022, and further OMB or US Department of Energy (USDOE) guidance once issued.

Buy America seeks to strengthen Made in America Laws and bolster America's industrial base, protect national security, and support high-paying jobs. Buy America requires that the New Hampshire Department of Energy (NHDOE) and the Grantees of federal funding shall ensure that "none of the funds made available for a Federal financial assistance program for infrastructure, including each deficient program, may be obligated for a project unless all of the iron, steel, manufactured products, and construction materials used in the project are produced in the United States."

Definitions:

Infrastructure includes, at a minimum, the structures, facilities, and equipment for, in the United States:

- Roads, highways, and bridges;
- Public transportation;
- Dams, ports, harbors, and other maritime facilities;
- Intercity passenger and freight railroads;
- Freight and intermodal facilities;
- Airports;
- Water systems, including drinking water and wastewater systems;
- Electrical transmission facilities and systems;
- Utilities;
- Broadband infrastructure;
- Buildings and real property; and
- Facilities that generate, transport, and distribute energy.

Further, the "infrastructure" in question must either be publicly owned or serve a public function; privately owned infrastructure that is not open to the public, such as a personal residence, is not considered "infrastructure" for purposes of this requirement. In cases where the "public" nature of the infrastructure is unclear, the Grantee should contact NHDOE. NHDOE will consult with the USDOE which will render a determination.

Project means the construction, alteration, maintenance, or repair of infrastructure in the United States.

Construction Materials includes an article, material, or supply—other than an item of primarily iron or steel; a manufactured product; cement and cementitious materials; aggregates such as stone, sand, or gravel; or aggregate binding agents or additives—that is, or consists primarily of:

- Non-ferrous metals;
- Plastic and polymer-based products (including polyvinylchloride, composite building materials, and polymers used in fiber optic cables);
- Glass (including optic glass);
- Lumber; or
- Drywall.

Domestic content procurement preference means and refers to the same thing as "Buy America Preference." These terms mean all iron and steel used in the project are produced in the United States; the manufactured products used in the project are produced in the United States; or the construction materials used in the project are produced in the United States.

Buy America Preference:

None of the funds provided under this grant to the Grantee may be used for a project for infrastructure unless:

1. All iron and steel used in the project are produced in the United States—this means all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States;
2. All manufactured products used in the project are produced in the United States—this means the manufactured product was manufactured in the United States; and the cost of the components of the manufactured product that are mined, produced, or manufactured in the United States is greater than 55 percent of the total cost of all components of the manufactured product, unless another standard for determining the minimum amount of domestic content of the manufactured product has been established under applicable law or regulation; and
3. All construction materials are manufactured in the United States—this means that all manufacturing processes for the construction material occurred in the United States.

The Buy America Preference only applies to articles, materials, and supplies that are consumed in, incorporated into, or affixed to an infrastructure project. As such, it does not apply to tools, equipment, and supplies, such as temporary scaffolding, brought into the construction site and removed at or before the completion of the infrastructure project. Nor does a Buy America Preference apply to equipment and furnishings, such as movable chairs, desks, and portable computer equipment, that are used at or within the finished infrastructure project but are not an integral part of the structure or permanently affixed to the infrastructure project.

The Grantee and its subcontractor, subgrantee, or other person, firm, or corporation, will provide the best available documentation illustrating compliance with the Buy America Preference. NHDOE reserves the right to request additional information from the Grantee to further demonstrate compliance with the Buy America preference. Compliance may be met by providing the following:

1. A written statement from the manufacturer demonstrating that the iron, steel, manufactured products, or construction materials purchased from that manufacturer were produced in the United States.
2. Photographic evidence that the iron, steel, manufactured products, or construction materials were produced in the United States.
3. Other documentation pre-approved by the NHDOE.

Waivers:

When necessary, the Grantee may seek a waiver from the Buy America Preference requirements. Any issued waiver is made by the USDOE. The Grantee must contact the NHDOE with its intent to seek a waiver from the Buy America Preference requirements. NHDOE will submit the waiver request on behalf of the Grantee to USDOE. Requests to waive the application of the Buy America Preference must be in writing. Waiver requests are subject to public comment periods of no less than 15 days, as well as review by the Office of Management and Budget (OMB). Current timeframe estimate from request to approval is 45-60 days.

Waivers must be based on one of the following justifications:

1. Applying the Buy America Preference would be inconsistent with the public interest (Public Interest);
2. The types of iron, steel, manufactured products, or construction materials are not produced in the United States in sufficient and reasonably available quantities or of a satisfactory quality (Nonavailability); or
3. The inclusion of iron, steel, manufactured products, or construction materials produced in the United States will increase the cost of the overall project by more than 25 percent (Unreasonable Cost).

Requests to waive the Buy America Preference must include the following:

- Waiver type (Public Interest, Nonavailability, or Unreasonable Cost);
- Recipient name and Unique Entity Identifier (UEI);
- A detailed justification as to how the non-domestic item(s) is/are essential the project;

- A certification that the Grantee made a good faith effort to solicit bids for domestic products supported by terms included in requests for proposals, contracts, and non-proprietary communications with potential suppliers;
- Total estimated project cost, with estimated Federal share and recipient cost share breakdowns;
- Total estimated infrastructure costs, with estimated Federal share and recipient cost share breakdowns;
- A brief description of the project, its location, and the specific infrastructure involved;
- List and description of iron or steel item(s), manufactured goods, and/or construction material(s) the recipient seeks to waive from the Buy America Preference, including name, cost, country(ies) of origin, and relevant PSC and NAICS codes for each;
- A justification statement—based on one of the applicable justifications outlined above—as to why the items in question cannot be procured domestically, including the due diligence performed (e.g., market research, industry outreach) by the recipient to attempt to avoid the need for a waiver. This justification may cite, if applicable, the absence of any Buy America-compliant bids received for domestic products in response to a solicitation; and
- Anticipated impact to the project if no waiver is issued.

The USDOE and the NHDOE may request, and the Grantee must provide, additional information for consideration of this waiver. The USDOE's final determination regarding approval or rejection of the waiver request may not be appealed.
