REQUESTED ACTION

Authorize the Department of Environmental Services (NHDES) to enter into a **Sole Source** contract with the Loon Preservation Committee (LPC), Moultonborough, NH (VC#157114 - B001) in the amount not to exceed \$106,746 for the sample selection, shipping, and laboratory analysis of loon eggs to assess the effect of per- and polyfluoroalkyl substances (PFAS), effective upon Governor & Council approval through June 30, 2023. 100% Emerging Contaminants Funds.

Funding is available in the following account:

FY 2023

\$106,746.00

Dept. Environmental Services, Emerging Contaminants, Contracts for Program Services

EXPLANATION

NHDES is requesting a **Sole Source** contract with LPC because they are uniquely qualified to conduct this study due to their extensive experience researching the NH loon population and already having an archive of non-viable loon eggs harvested from failed nests throughout the state. In addition, a preliminary study by LPC of a smaller subset of eggs found elevated PFAS concentrations that require this follow-up investigation to verify the initial results and include additional data on other regions of the state.

NHDES, in collaboration with LPC, is planning to conduct a study to assess the impact of per- and polyfluoroalkyl substances (PFAS) on loons in NH. The study will involve sampling tissue from 145 non-viable loon eggs representing 82 loon territories on 64 lakes for laboratory analysis of a suite of PFAS compounds with the objective of understanding where significant bioaccumulation of PFAS is occurring in fish and other aquatic organisms. This study is consistent with HB4 (Chapter 346:304, L'20) which tasked NHDES with studying, investigating, and testing for contamination caused by perfluorinated chemicals.

If Emerging Contaminant Funds become no longer available, General Funds will not be requested to support this program. This contract has been approved by the Attorney General's Office as to form, substance, and execution.

We respectfully request your approval.

Robert R. Scott
 Commissioner

Notice: This agreement and all of its attachments shall become public upon submission to Governor and Executive Council for approval. Any information that is private, confidential or proprietary must be clearly identified to the agency and agreed to in writing prior to signing the contract.

Contractor must complete all Services by the Completion Date specified in block 1.7.

4. CONDITIONAL NATURE OF AGREEMENT.

Notwithstanding any provision of this Agreement to the contrary, all obligations of the State hereunder, including, without limitation, the continuance of payments hereunder, are contingent upon the availability and continued appropriation of funds affected by any state or federal legislative or executive action that reduces, eliminates or otherwise modifies the appropriation or availability of funding for this Agreement and the Scope for Services provided in EXHIBIT B, in whole or in part. In no event shall the State be liable for any payments hereunder in excess of such available appropriated funds. In the event of a reduction or termination of appropriated funds, the State shall have the right to withhold payment until such funds become available, if ever, and shall have the right to reduce or terminate the Services under this Agreement immediately upon giving the Contractor notice of such reduction or termination. The State shall not be required to transfer funds from any other account or source to the Account identified in block 1.6 in the event funds in that Account are reduced or unavailable.

5.1 The contract price, method of payment, and terms of payment are identified and more particularly described in EXHIBIT C which is incorporated herein by reference.

5.2 The payment by the State of the contract price shall be the only and the complete reimbursement to the Contractor for all expenses, of whatever nature incurred by the Contractor in the performance hereof, and shall be the only and the complete

compensation to the Contractor for the Services. The State shall have no liability to the Contractor other than the contract price.

5.3 The State reserves the right to offset from any amounts otherwise payable to the Contractor under this Agreement those liquidated amounts required or permitted by N.H. RSA 80:7 through RSA 80:7-c or any other provision of law.

5.4 Notwithstanding any provision in this Agreement to the contrary, and notwithstanding unexpected circumstances, in no event shall the total of all payments authorized, or actually made hereunder, exceed the Price Limitation set forth in block 1.8.

6. COMPLIANCE BY CONTRACTOR WITH LAWS AND REGULATIONS/ EQUAL EMPLOYMENT OPPORTUNITY.

6.1 In connection with the performance of the Services, the Contractor shall comply with all applicable statutes, laws, regulations, and orders of federal, state, county or municipal authorities which impose any obligation or duty upon the Contractor, including, but not limited to, civil rights and equal employment opportunity laws. The Contractor warrants that all personnel engaged in the Services shall be qualified to perform the Services, and shall be properly licensed and otherwise authorized to do so under all applicable laws.

This provision shall survive termination of this Agreement.

7.3 The Contracting Officer specified in block 1.9, or his or her successor, shall be the State's representative. In the event of any dispute concerning the interpretation of this Agreement, the Contracting Officer's decision shall be final for the State.

8. EVENT OF DEFAULT/REMEDIES.

- 8.1.3 failure to perform any other covenant, term or condition of this Agreement.

- 8.2.2 give the Contractor a written notice specifying the Event of Default and suspending all payments to be made under this Agreement and ordering that the portion of the contract price which would otherwise accrue to the Contractor during the period from the date of such notice until such time as the State determines that the Contractor has cured the Event of Default shall never be paid to the Contractor;
- 8.2.3 give the Contractor a written notice specifying the Event of Default and set off against any other obligations the State may owe to the Contractor any damages the State suffers by reason of any Event of Default; and/or

8.3. No failure by the State to enforce any provisions hereof after any Event of Default shall be deemed a waiver of its rights with regard to that Event of Default, or any subsequent Event of Default. No express failure to enforce any Event of Default shall be deemed a waiver of the right of the State to enforce each and all of the provisions hereof upon any further or other Event of Default on the part of the Contractor.

EXHIBIT B
SCOPE OF SERVICES

- A. Project Title:** Testing Common Loon Eggs from New Hampshire for Per- and Polyfluoroalkyl Substances
- B. Project Period:** This Agreement shall become effective on the date of approval by the Governor and Executive Council of the State of New Hampshire and shall continue until June 30, 2023, unless extended in accordance with the terms of the Agreement.
- C. Objectives:** The objective of this research is to evaluate the concentrations of certain per- and polyfluoroalkyl substances (PFAS) in loon eggs to understand where significant bioaccumulation of PFAS is occurring in fish and other aquatic organisms.
- D. Scope of Work:** The Loon Preservation Committee (LPC) identified 145 eggs representing 64 lakes and covering 82 loon territories in New Hampshire for which LPC has one or more archived, non-viable loon eggs that have not been tested within the last 6 years. The most recent egg collected from a given lake will be selected for this study. Each egg will be examined to confirm the suitability of the egg for testing (i.e., no significant cracks or leakage of egg content). If an egg is determined to be unsuitable for testing, or is otherwise unavailable, the next most recent egg from that lake, if available, will be tested.

Eggs will be packaged by LPC and sent to SGS AXYS Analytical Services, Ltd. (SGS AXYS) in Sidney, British Columbia, where the eggs will be homogenized and tested for PFAS congeners using Draft EPA Method 1633. LPC staff will analyze the results of the testing and prepare a report for the State detailing PFAS concentrations of each egg for each congener, summarizing the range of PFAS concentrations found in the samples, and identifying locations at which PFAS concentrations exceed those known to affect the health, breeding success, or survival of other bird species.

This Agreement consists of the following documents: Exhibits A, B, and C, which are all incorporated herein by reference as if fully set forth herein.
