EXPLANATION

This contract provides replacement New Hampshire State Police (NHSP) cruisers with the paint, decals, and equipment necessary to function as a NHSP cruiser. The existing NHSP cruiser fleet is aging with many vehicles having between 150K-200K miles. New vehicles are purchased and placed into service each year to replace high mileage vehicles, which experience increased downtime due to ongoing repairs and maintenance. This contract enables NHSP cruisers to be prepared and deployed within 45 days after manufacturer delivery. Minimizing the time between delivery and deployment is critical to ensuring public safety services are not interrupted due to unexpected repairs and maintenance on high mileage cruisers.

The Division of State Police released a Request for Proposal (RFP DOS 2022-107). The RFP was posted on the Purchase & Property website from April 11, 2022 through June 24, 2022. As a result, three (3) proposals were received and evaluated by a committee. The contract was awarded to MHQ, as the highest scoring and lowest cost proposal that complied with the RFP requirements.

Respectfully submitted,

Robert L. Quinn
Commissioner of Safety
