REQUESTED ACTION

Authorize the Department of Health and Human Services, Division of Economic Stability, to enter into a **Sole Source** amendment to an existing contract with New Hampshire Children's Trust, Inc. (VC# 218449), Concord, NH to revise the scope of work to expand the ongoing support of Family Resource Centers across the state to achieve the "Family Resource Center of Quality" designation of national standards, sustain kinship navigation and Community Collaborations, facilitate coordination of Family Resource Centers and the Early Childhood Regional System, and expand upon marketing for child care scholarship assistance by increasing the price limitation by \$2,854,760 from \$7,724,887 to \$10,579,647, with no change to the completion date of June 30, 2024, effective July 1, 2023, upon Governor and Council approval. 48.16% Federal Funds. 51.84% General Funds.

The original contract was approved by Governor and Council on June 30, 2021, item #41, amended on October 13, 2021, item #20, on April 6, 2022, item #8, and most recently on January 18, 2023, item #19.

Funds are anticipated to be available in State Fiscal Year 2024, upon the availability and continued appropriation of funds in the future operating budget, with the authority to adjust budget line items within the price limitation and encumbrances between state fiscal years through the Budget Office, if needed and justified.

See attached fiscal details.

EXPLANATION

This request is **Sole Source** because MOP 150 requires all amendments to agreements previously approved as sole source to be identified as sole source and the Department is adding additional funding and revising the scope of work. The Contractor is uniquely qualified to provide statewide support and effectively apply evidence-based standards and services to NH's network of Family Resource Centers with the goal of strengthening families statewide.

The purpose of this request is for the Contractor to expand the infrastructure and support for the statewide network of Family Resource Centers.

This request includes:

1. Family Resource Centers. Additional funds will support Family Resource Center infrastructure, Family Resource Center of Quality designation efforts, and staff training. Additional funds will support two (2) existing services at the Family Resource Centers: the Kinship Navigation Program and Community Collaborations.
2. Kinship Navigation. Additional funds will sustain the management and implementation of Kinship Navigation programs in Family Resource Centers through State Fiscal Year 2024.

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
Page 2 of 3

Services are focused on providing resource and economic connections and support to kinship care families. There are currently 1,070 individuals receiving services through the Kinship Navigation program statewide.

3. **Community Collaborations.** Additional funds will sustain cross-sector Community Implementation Teams that connect families to the services they need to support self-sufficiency and economic stability in targeted communities. Services are focused on providing resource connections to families with young children and creating system-level changes designed to help reduce child maltreatment and the risk of children entering foster care.
4. **Expand the Contractor's scope of work to increase marketing and outreach and training opportunities that supports access to resources for families, child care providers, employers, and other stakeholders.** This includes hosting and maintaining the consumer education website, NH Connections, as a source of information dissemination. Marketing and outreach efforts will increase stakeholder awareness and utilization of resource and referral services, NH Child Care Scholarship program; initiatives for workforce, child care supply, and quality improvement.
5. **Expand the Contractor's scope of work to provide infrastructure and technical assistance support to the seven Early Childhood Regional System leads.** The Early Childhood Regional System collaborates and coordinates across key early childhood regional partners, including Family Resource Centers, family support programs, Community Collaborations agencies and the Departments of Health and Human Services and Education. The Contractor will support and provide ongoing capacity building, coordination, communication, performance management, and evaluation.

Approximately 8,700 families will be supported through this amendment:

- 6,400 families will continued to be served annually through the Family Resource Centers;
- Approximately 250 additional families will be served annually through Kinship Navigation; and
- Approximately 200 additional families will be served annually through the work of Community Collaborations targeted communities.

In addition to the families being served, approximately 75 additional community-based agencies will be served annually with training.

The Department will monitor services by:

- Reviewing the process and outcome measures identified in the quarterly reports submitted by the Contractor;
- Meeting with the Contractor monthly to ensure compliance with contractual requirements; and
- Reviewing expenditures and conducting data quality assurance activities on a monthly basis.

Should the Governor and Council not authorize this request, the Department will be unable to sustain the management and implementation of the services delivered to families directly and that prevent child maltreatment, including Kinship Navigation; support for the Family Resource Center infrastructure, staff training, Early Childhood Regional System support to enhance coordination of early childhood systems, and Family Resource Center of Quality designation efforts; and expand marketing and messaging about key family programs, including

child care. These services contribute to the development of healthy families, which contribute to the development of healthy communities.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
New Hampshire Children's Trust, Inc.

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of New Hampshire Children's Trust, Inc., which comprise the statement of financial position as of December 31, 2021, and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of New Hampshire Children's Trust, Inc. as of December 31, 2021, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of New Hampshire Children's Trust, Inc. and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Merrimack, New Hampshire
Andover, Massachusetts
Greenfield, Massachusetts
Ellsworth, Maine

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about New Hampshire Children's Trust, Inc.'s ability to continue as a going concern for one year after the date that the financial statements are issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of New Hampshire Children's Trust Inc.'s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about New Hampshire Children's Trust, Inc.'s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Report on Summarized Comparative Information

We have previously audited New Hampshire Children's Trust, Inc.'s 2020 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated June 15, 2021. In our opinion, the summarized comparative information presented herein as of and for the year ended December 31, 2020 is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 27, 2022 on our consideration of New Hampshire Children's Trust Inc.'s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of New Hampshire Children's Trust Inc.'s internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering New Hampshire Children's Trust Inc.'s internal control over financial reporting and compliance.

NEW HAMPSHIRE CHILDREN'S TRUST, INC.

Notes to Financial Statements For the Year Ended December 31, 2021

1. Organization

Vision for New Hampshire – We envision a New Hampshire where all children grow up free from abuse and neglect.

Mission – We lead the drive to ensure safe, stable, and nurturing relationships and environments for children by educating, advocating, and collaborating.

New Hampshire Children's Trust, Inc. (the Organization) is mandated as the Governor's Designated Statewide Prevention Agency under Community-Based Child Abuse Prevention (CBCAP) as the New Hampshire chapter of Prevent Child Abuse America (PCAA), and as a member of the National Alliance of Children's Trust and Prevention Funds (the Alliance). Founded in 1986 as the New Hampshire Children's Trust Fund, a quasi-governmental organization, the agency transitioned to New Hampshire Children's Trust, Inc., a 501(c)(3) nonprofit corporation, in 2011.

The Organization impacts the lives of children and families through the following programs:

- **Family Strengthening and Support** - Investments in primary prevention are essential to building a New Hampshire where children grow up free from abuse and neglect, and where all families have access to comprehensive and responsive supports, so they are healthy, learning and thriving now and in the future. The Organization operationalizes this strategy by providing comprehensive supports and services to mission-driven organizations. As New Hampshire's Family Resource Center Facilitation Organization & Quality Specialist (FO), the Organization coordinates resources and public awareness activities, and provides training and technical assistance for the implementation of operational quality control standards for Family Resource Centers (FRC) statewide to standardize practices and service delivery across programs. The Organization developed, implemented, and oversees New Hampshire's Kinship Navigation Program, which provides formal supports and services to kinship families statewide. Additionally, the Organization developed, implemented, and manages New Hampshire's Family Support Data System (FSDS), a common platform for agencies to track and report on program data and family outcomes. Data derived from FSDS is used to inform actions and service delivery. The Organization adheres to the *Strengthening Families Framework* and the *Essentials for Childhood Framework* to create the context for healthy children and

families through programs, policy, and social norms change with the ultimate goal being increased opportunities for *all* New Hampshire children and families.

- Community Education and Advocacy - This strategy focuses on the community and society domains of public health social ecological framework. Informed by the latest research, best practices and emerging best practices in child abuse and neglect prevention, it provides education and support to elected officials; community, faith and business leaders; parents; providers; and concerned citizens. It includes public education and awareness campaigns such as BE PREVENTION, Kinship Navigation, Family Support NH, and creates pathways for participant engagement through activity books and other materials so children can thrive in safe, stable, and nurturing environments.

2. Summary of Significant Accounting Policies

The following is a summary of significant accounting policies used in preparing and presenting the accompanying financial statements.

Basis of Financial Statement Presentation

The financial statements of the Organization have been prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America (GAAP).

Comparative Financial Information

The accompanying financial statements include certain prior-year summarized comparative information in total, but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with GAAP. Accordingly, such information should be read in conjunction with the audited financial statements for the year ended December 31, 2020, from which the summarized information was derived.

Cash and Cash Equivalents

All cash and highly liquid financial instruments with original maturities of three months or less, and which are neither held for nor restricted by donors for long-term purposes, are considered to be cash and cash equivalents.

Accounts Receivable

Accounts receivable consist primarily of noninterest-bearing amounts due for services and programs. The adequacy of the allowance for doubtful accounts for receivables is reviewed on an ongoing basis by the Organization's management and adjusted as required through the provision for doubtful accounts (bad debt expense). At December 31, 2021 and 2020, management believes all receivables to be fully collectable.

Contributions Receivable

Unconditional contributions that are expected to be collected within one year are recorded at net realizable value. Unconditional contributions that are expected to be collected in future years are initially recorded at fair value using present value techniques incorporating risk-adjusted discount rates designed to reflect the assumptions market participants would use in pricing the asset. In subsequent years, amortization of the discounts is included in contribution revenue in the Statement of Activities. The allowance for uncollectable contributions is based on historical experience, an assessment of economic conditions, and a review of subsequent collections. Contributions are written off when deemed uncollectable. Management has determined that no allowance is necessary.

Grants Receivable

Grants receivable, that is, those with a measurable performance or other barrier, and a right of return, are not recognized until the conditions on which they depend have been substantially met. Amounts recorded as grants receivable represent cost-reimbursable contracts and grants, which the incurrence of allowable qualifying expenses and/or the performance of certain requirements have been met or performed. The allowance for uncollectible grants receivable is based on historical experience and a review of subsequent collections. Management has determined that no allowance is necessary.

Property and Equipment

Property and equipment additions over \$2,500 are recorded at cost, if purchased, and at fair value at the date of donation, if donated. Depreciation is computed using the straight-line method over the estimated useful lives of the assets ranging from 3 to 7 years, or in the case of capitalized leased assets or leasehold improvements, the lesser of the useful life of the asset or the lease term. When assets are sold or otherwise disposed of, the cost and related depreciation is removed, and any resulting gain or loss is included in the Statement of Activities. Costs of maintenance and repairs that do not improve or extend the useful lives of the respective assets are expensed.

The carrying values of property and equipment are reviewed for impairment whenever events or circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use and eventual disposition. When considered impaired, an impairment loss is recognized to the extent carrying value exceeds the fair value of the asset. There were no indicators of asset impairment in 2021 or 2020.

Beneficial Interest Held in Trust

The Organization is the beneficiary of an agency endowment fund held at the New Hampshire Charitable Foundation. The beneficial interest in the trust is reported at its fair value, which is estimated as the fair value of the underlying trust assets. Distributions of income from the trust assets are to be used to plan and initiate programs to prevent child abuse and neglect. The value of the beneficial interest in the

trust is adjusted annually for the change in its estimated fair value. Those changes in value are reported as changes in net assets with donor restrictions. The assets in the trust will never be distributed to the Organization.

Net Assets

Net Assets Without Donor Restrictions

Net assets available for use in general operations and not subject to donor (or certain grantor) imposed restrictions. The Board has designated, from net assets without donor restrictions, net assets for an operating reserve.

Net Assets With Donor Restrictions

Net assets subject to donor (or certain grantor) imposed restrictions. Some donor-imposed restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other donor-imposed restrictions are perpetual in nature, where the donor stipulates that resources be maintained in perpetuity. Donor-imposed restrictions are released when a restriction expires, that is, when the stipulated time has elapsed, when the stipulated purpose for which the resource was restricted has been fulfilled, or both.

Revenue and Revenue Recognition

The Organization recognizes contributions when cash, securities or other assets, an unconditional promise to give, or a notification of a beneficial interest is received. Conditional promises to give, that is, those with a measurable performance or other barrier, and a right of return, are not recognized until the conditions on which they depend have been substantially met.

A portion of revenue is derived from cost-reimbursable contracts and grants, which are conditioned upon certain performance requirements and/or the incurrence of allowable qualifying expenses. Amounts received are recognized as revenue when we have incurred expenditures in compliance with specific contract or grant provisions. Amounts received prior to incurring qualifying expenditures are reported as refundable advances in the Statement of Financial Position. Grant revenue from contributions that were initially conditional, which became unconditional with restrictions during the reporting period, and for which those restrictions were met during the reporting period, is reported as net assets without donor restrictions.

Revenue derived from providing program services is recognized as the services are provided. Program service fees paid in advance are deferred to the period to which they relate. Payment for trainings and conferences is required before the service is provided and is recorded as a contract liability until the performance obligation is met. Due to the nature and timing of the performance and/or transfer of services, certain contract liabilities at December 31 of each year are recognized in the following year.

Donated Services and In-Kind Contributions

Volunteers contribute significant amounts of time to program services, administration, and fundraising and development activities; however, the financial statements do not reflect the value of these contributed services because they do not meet recognition criteria prescribed by GAAP. GAAP allows recognition of contributed services only if (a) the services create or enhance nonfinancial assets, or (b) the services would have been purchased if not provided by contribution, require specialized skills, and are provided by individuals possessing those skills. Donated professional services are recorded at the respective fair value of the services received. Contributed goods are recorded at fair value at the date of donation and as expenses when placed in service or distributed. Donated use of facilities is reported as a contribution and as an expense at the estimated fair value of similar space for rent under similar conditions. If the use of the space is promised unconditionally for a period greater than one year, the amount is reported as a contribution and an unconditional promise to give at the date of the gift, and the expense is reported over the term of use.

Functional Allocation of Expenses

The costs of providing the Organization's various programs and activities have been summarized on a functional basis in the Statement of Activities. The Statement of Functional Expenses presents the natural classification detail of expenses by function. Certain categories of expenses are attributed to more than one program or supporting function. Accordingly, certain costs have been allocated among the programs and supporting services benefited on a reasonable basis that is consistently applied. Expenses that relate solely to the functional categories are directly charged, however, there are certain expenses that are allocated. Expenses that are allocated include utilities, repairs and maintenance, depreciation, certain insurances, interest, salaries and wages, benefits, and payroll taxes, which are allocated based on time and effort estimates.

Measure of Operations

The Statement of Activities reports all changes in net assets, including changes in net assets from operating and non-operating activities. Operating activities consist of those items attributable to the Organization's ongoing programs and services. Non-operating activities are limited to resources outside of those programs and services and are comprised of non-recurring gains and losses on sales and dispositions, interest, and changes in the beneficial interest held in trust.

Income Taxes

The Organization has been recognized by the Internal Revenue Service (IRS) as exempt from federal income taxes under Internal Revenue Code (IRC) Section 501(a) as an organization described in IRC Section 501(c)(3), qualifies for charitable contribution deductions, and has been determined not to be a private foundation. The Organization is annually required to file a Return of Organization Exempt from Income Tax (Form 990) with the IRS. In addition, the Organization is subject to income tax on net income that is

derived from business activities that are unrelated to its exempt purpose. In 2021 and 2020, the Organization was not subject to unrelated business income tax and did not file an Exempt Organization Business Income Tax Return (Form 990-T) with the IRS.

Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates.

Financial Instruments and Credit Risk

Deposit concentration risk is managed by placing cash and money market accounts with financial institutions believed to be creditworthy. The Organization carefully manages its bank accounts and monitors deposits to ensure insurance limits are not exceeded. To date, no losses have been experienced in any of these accounts. Credit risk associated with receivables is considered to be limited due to high historical collection rates.

Fair Value Measurements

Certain assets and liabilities are reported at fair value in the financial statements. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal, or most advantageous, market at the measurement date under current market conditions regardless of whether that price is directly observable or estimated using another valuation technique. Inputs used to determine fair value refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability based on the best information available. A three-tier hierarchy categorizes the inputs as follows:

- Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities that are accessible at the measurement date.
- Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability, and market-corroborated inputs.
- Level 3 – Unobservable inputs for the asset or liability. In these situations, inputs are developed using the best information available in the circumstances.

In some cases, the inputs used to measure the fair value of an asset or a liability might be categorized within different levels of the fair value hierarchy. In those cases, the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. Assessing the significance of a particular input to entire measurement requires judgment, taking into account factors specific to the asset or liability. The categorization of an asset or liability within the hierarchy is based upon the pricing transparency of the asset or liability and does not necessarily correspond to the assessment of the quality, risk, or liquidity profile of the asset or liability.

New Accounting Standards to be Adopted in the Future

Contributed Nonfinancial Assets

In September 2020, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2020-07, *Not-for-Profit Entities (Topic 958): Presentation and Disclosures by Not-for-Profit Entities for Contributed Nonfinancial Assets*, intended to improve transparency in the reporting of contributed nonfinancial assets, also known as gifts-in-kind, for not-for-profit organizations. Examples of contributed nonfinancial assets include fixed assets such as land, buildings, and equipment; the use of fixed assets or utilities; materials and supplies, such as food, clothing, or pharmaceuticals; intangible assets; and recognized contributed services. The ASU requires a not-for-profit organization to present contributed nonfinancial assets as a separate line item in the Statement of Activities, apart from contributions of cash or other financial assets. It also requires certain disclosures for each category of contributed nonfinancial assets recognized. The amendments in this ASU should be applied on a retrospective basis and will be effective for the Organization for the year ending December 31, 2022. Early adoption is permitted. The Organization is currently in the process of evaluating the impact of adoption of this ASU on the financial statements.

Leases

In February 2016, the FASB issued ASU 2016-02, *Leases*. The ASU requires all leases with lease terms more than 12 months to be capitalized as a right of use asset and lease liability on the Statement of Financial Position at the date of lease commencement. Leases will be classified as either finance leases or operating leases. This distinction will be relevant for the pattern of expense recognition in the Statement of Activities. This ASU will be effective for the Organization for the year ending December 31, 2022. The Organization is currently in the process of evaluating the impact of adoption of this ASU on the financial statements.

Credit Losses

In June 2016, the FASB issued ASU 2016-13, *Measurement of Credit Losses on Financial Instruments*. The ASU requires a financial asset (including trade receivables) measured at amortized cost basis to be presented at the net amount expected to be collected. Thus, the Statement of Activities will reflect the measurement of credit losses for newly recognized financial assets, as well as the expected increases or decreases of expected

credit losses that have taken place during the period. This ASU will be effective for the Organization for the year ending December 31, 2023. The Organization is currently in the process of evaluating the impact of adoption of this ASU on the financial statements.

3. Liquidity and Availability

Financial assets available for general expenditure, that is, without donor or other restrictions limiting their use, within one year of the Statement of Financial Position date, are comprised of the following at December 31, 2021 and 2020:

	<u>2021</u>	<u>2020</u>
Financial assets at year end:		
Cash and cash equivalents	\$ 1,499,772	\$ 639,010
Accounts receivable	500	22,875
Contributions receivable	100,000	-
Grants receivable	372,093	247,022
Loan receivable	10,302	10,302
Beneficial interest held in trust	<u>1,841,236</u>	<u>1,602,751</u>
Total financial assets	3,823,903	2,521,960
Less amounts not available to be used within one year:		
Board-designated reserve	(524,380)	(180,013)
Net assets with donor restrictions:		
Beneficial interest held in trust	<u>(1,841,236)</u>	<u>(1,602,751)</u>
Total financial assets available within one year	1,458,287	739,196
Additional liquidity resources:		
Bank line of credit	<u>300,000</u>	<u>300,000</u>
Total financial assets and liquidity resources available within one year	<u>\$ 1,758,287</u>	<u>\$ 1,039,196</u>

Time and purpose restricted net assets, included in net assets with donor restrictions, are expected to be met in less than one year and, therefore, are available for spending.

The Organization regularly monitors liquidity required to meet its operating needs and other contractual commitments, while also striving to maximize the investment of its available funds. In addition to financial assets available to meet general expenditures over the next year, the Organization operates with a balanced budget and anticipates collecting sufficient revenue to cover general expenditures not covered by donor-restricted resources.

4. Loan Receivable

In 2016, the Organization entered into a one-year, unsecured \$10,000 loan agreement with the New Hampshire Community Loan Fund (the Fund). The Organization has renewed the loan agreement annually and the loan has a current maturity date of June 30, 2022. Interest is compounded annually at a rate of 1% per annum. The Fund is a nonprofit voluntary corporation that provides services to lower income households and disadvantaged people in the form of housing, educational resources, and financing for community based development projects. The Organization believes the Fund directly implements the Center for the Study of Social Policy's Strengthening Families' Protective Factors by providing concrete supports to these families in times of need and increasing their social connections. Through the Fund's financial support of other community organizations, it also helps indirectly with the implementation of the Strengthening Families Framework last two Protective Factors: Parental Resilience, Knowledge of Parenting and Child Development, and Social and Emotional Competence of Children.

As discussed in Note 2, the Organization is required to report its fair value measurements in one of three levels, which are based on the ability to observe in the marketplace the inputs to the Organization's valuation techniques. Level 3 is for assets measured using inputs that are unobservable, and is used in situations for which there is little, if any, market activity for the asset. Using Level 3 valuation technique, the estimated fair value of the loan receivable at December 31, 2021 and 2020 has been determined to be \$10,302 and \$10,302, respectively.

5. Property and Equipment

Property and equipment is comprised of the following at December 31, 2021 and 2020:

	<u>2021</u>	<u>2020</u>
Furniture, fixtures, and equipment	\$ 36,127	\$ 71,413
Less accumulated depreciation	<u>(11,104)</u>	<u>(32,471)</u>
Total	<u>\$ 25,023</u>	<u>\$ 38,942</u>

Depreciation expense totaled \$3,539 and \$13,819 for the years ended December 31, 2021 and 2020, respectively.

6. Beneficial Interest Held in Trust

The Organization is the beneficiary of an agency endowment fund created by New Hampshire RSA 169-C:39-c and held at the New Hampshire Charitable Foundation (the

Foundation). Pursuant to the terms of the resolution establishing this fund, property contributed to the New Hampshire Charitable Foundation is held as a separate fund specifically for the benefit of the Organization. A second agency endowment fund, the Lucy Fowlkes Breed Legacy Fund, was created in 2010. In accordance with its spending policy, the Foundation makes distributions from these funds to the Organization.

The beneficial interest held in trust is reported at its fair value, which is estimated as the fair value of the underlying trust assets. As discussed in Note 2, because there are no observable market transactions for assets similar to the beneficial interest held in trust, the valuation technique used by the Organization is a Level 3 fair value measure.

	General Endowment	Lucy Fowlkes Breed Legacy Fund	Total
Beneficial interest held in trust, beginning of year	\$ 1,585,858	\$ 16,893	\$ 1,602,751
Investment return	314,651	3,351	318,002
Amount distributed to the Organization	(69,194)	(737)	(69,931)
Foundation fees	<u>(9,481)</u>	<u>(105)</u>	<u>(9,586)</u>
Beneficial interest held in trust, end of year	<u>\$ 1,821,834</u>	<u>\$ 19,402</u>	<u>\$ 1,841,236</u>

The change in the fair value of the beneficial interest held in trust is recognized in net assets with donor restrictions in the Statement of Activities.

7. Accrued Expenses

Accrued expenses at December 31, 2021 and 2020 consist primarily of accrued salaries and accrued earned time.

8. Contract Liabilities

Upon receipt of a prepayment for services, the Organization recognizes a contract liability in the amount of the prepayment for its performance obligation to transfer goods and services in the future. At December 31, 2021 and 2020, the Organization has recorded contract liabilities of \$123,428 and \$117,514, respectively. These amounts will be recognized as revenue when the Organization transfers goods and services and, therefore, satisfies its performance obligations.

Contract liabilities activity was as follows for the years ended December 31, 2021 and 2020:

	<u>2021</u>	<u>2020</u>
Beginning balance	\$ 117,514	\$
Activity, net	<u>5,914</u>	<u>117,514</u>
Ending balance	\$ <u>123,428</u>	\$ <u>117,514</u>

9. Line of Credit

The Organization has a line of credit with a bank that is secured by all assets of the Organization. In May 2020, maximum borrowing on the line was increased from \$50,000 to \$300,000. The line is payable on demand, with regular monthly payments of all accrued unpaid interest. Interest is variable based upon changes in an independent index, which is the highest Wall Street Journal Prime Rate, and is calculated using a rate of 1.5% over the index. At December 31, 2021 and 2020, the balance on this line of credit was \$0. The line was not utilized in 2021 or 2020.

10. Net Assets

Board-Designated Net Assets

Board-designated net assets have been established to 1) meet the Organization's operational demands given its uneven annual cash flow cycle; 2) be prepared for managing uncertainties associated with federal funding; and 3) be positioned to take advantage of opportunities for new initiatives and program expansion. Board policy states that any interim use of these funds, when used to assist with the Organization's cash flow, should be replaced within sixty days. The balance of board-designated net assets at December 31, 2021 and 2020 was \$524,380 and \$180,013, respectively.

Net Assets With Donor Restrictions

Net assets with donor restrictions are comprised of the following at December 31, 2021 and 2020:

	<u>2021</u>	<u>2020</u>
Subject to the passage of time:		
Operating support - future years	\$ 100,000	\$ -
Subject to expenditure for a specified purpose:		
Strengthening Families Framework	45,000	37,800
Summit sponsorships	-	5,900
Other	<u>689</u>	<u>2,689</u>
	145,689	46,389
Perpetual in nature:		
Beneficial interest held in trust	<u>1,841,236</u>	<u>1,602,751</u>
Total	<u>\$ 1,986,925</u>	<u>\$ 1,649,140</u>

Net assets were released from donor restrictions by incurring expenses satisfying the restricted purpose or by occurrence of the passage of time or other events specified by the donors as follows for the years ended December 31, 2021 and 2020:

	<u>2021</u>	<u>2020</u>
Satisfaction of purpose restrictions:		
Strengthening Families Framework	\$ 37,800	\$ 97,300
Summit sponsorships	22,250	4,500
New Hampshire Family Now podcasts	-	7,000
My Voice Matters	-	3,000
Other	<u>6,000</u>	<u>1,000</u>
Total	<u>\$ 66,050</u>	<u>\$ 112,800</u>

11. Grants and Conditional Contributions

The Organization was awarded federal Community-Based Child Abuse Prevention (CBCAP) grants from the U.S. Department of Health and Human Services. These funds are from the Child Abuse Prevention and Treatment Act Title II program and are allocated to states on a per child formula. Since 1996, the Governor of New Hampshire has designated New Hampshire Children's Trust, Inc. as the State Lead Agency eligible to apply for and receive these funds. The CBCAP funds are used to strengthen and improve prevention programs and activities. Whereas CBCAP is a cost-reimbursable grant, \$368,778 and \$368,063 have not been recognized at December 31, 2021 and 2020, respectively, because qualifying expenditures have not yet been incurred.

In June 2019, the Organization was awarded a grant with the State of New Hampshire Department of Health and Human Services to provide Family Resource Center (FRC) facilitation and organization services in an amount not to exceed \$1,004,646 and with a completion date of June 30, 2021. In December 2019, the grant was amended to increase the funding to \$3,021,874, retroactive to October 1, 2019 with no change to the completion date. Under this grant, the Organization provides coordination, support, training, and technical assistance for the implementation of operational and quality control standards for all FRC's statewide in order to increase the number of FRC's receiving the Family Resource Center of Quality (FRC-Q) designation and standardize FRC and FRC-Q delivery of services. The Organization also provides support to kinship caregivers who are caring for family members because of the placement by the Division of Children, Youth and Families (DCYF). In July 2021, the Organization was awarded a second grant in an amount not to exceed \$2,533,600 and with a completion date of June 30, 2023. Whereas these are cost-reimbursable grants, \$2,084,904 and \$1,296,731 have not been recognized at December 31, 2021 and 2020, respectively, because qualifying expenditures have not yet been incurred.

Grant revenue from federal agencies is subject to independent audit under the Office of Management and Budget's Uniform Grant Guidance, and review by grantor agencies. The review could result in the disallowance of expenditures under the terms of the grant or reductions of future grant funds. Based on prior experience, the Organization's management believes that costs ultimately disallowed, if any, would not materially affect the financial position of the Organization.

At December 31, 2021 and 2020, contributions of approximately \$0 and \$20,000, respectively, have not been recognized in the accompanying Statement of Activities because the conditions on which they depend have not yet been met.

12. Donated Professional Services and Materials

The Organization benefits from personal services provided by a substantial number of volunteers. Those volunteers have donated significant amounts of time and services in the Organization's program operations and in its fundraising campaigns. The following donated services and goods met the criteria for recognition in these financial statements for the years ended December 31, 2021 and 2020 based upon GAAP:

<u>Description/purpose</u>	<u>2021</u>	<u>2020</u>
Baby to Baby supplies	\$ 5,200	\$ -
Legal consultation	-	3,343
Board retreat meeting space	2,346	-
Subscription fees	1,158	775
Total	\$ <u>8,704</u>	\$ <u>4,118</u>

13. Retirement Plan

The Organization participates in a tax-deferred annuity plan qualified under Section 403(b) of the Internal Revenue Code. The plan covers full-time employees of the Organization who have worked at least 1,000 hours during the 12-month period immediately following the date of hire. Employees may make contributions to the plan up to the maximum amount allowed by the Internal Revenue Code. Contributions made to the plan by the Organization for the years ended December 31, 2021 and 2020 totaled \$43,696 and \$22,728, respectively.

14. Designated Funds with New Hampshire Charitable Foundation

The Organization is the beneficiary of three designated funds held at the New Hampshire Charitable Foundation (the Foundation). Under these agreements, amounts that are donor designated for this purpose are transferred permanently to the Foundation. In accordance with FASB ASC 958-605-25, amounts received for the endowment fund are not recorded as income and are not included as assets in these financial statements. Rather, the contributions are recorded as assets and as income of the Foundation. The fair market value of these endowment funds was as follows at December 31, 2021 and 2020:

	<u>2021</u>	<u>2020</u>
GPCF Child Abuse Fund	\$ 383,897	\$ 334,254
Lou and Lutza Smith Endowment Fund	534,450	465,339
Lou and Lutza Smith Administrative Endowment Fund	<u>356,222</u>	<u>310,158</u>
Total	<u>\$ 1,274,569</u>	<u>\$ 1,109,751</u>

In accordance with its spending policy, the Foundation makes distributions from the funds to the Organization to offset its supporting services expenses. Total distributions received were \$48,420 and \$38,515 for the years ended December 31, 2021 and 2020, respectively.

15. Operating Leases

In August 2016, the Organization renewed the lease on its office space for a five-year period. As part of the agreement, the Organization is also required to pay monthly estimated real estate taxes based on its proportionate share of the leased office space. In July 2019, the Organization amended the lease agreement, which included moving its office space to a larger suite, but at the same location, and extending the term until December 2022. In July 2020, the Organization amended its office space lease agreement to occupy additional office space. Rent expense, which is included in

occupancy in the Statement of Functional Expenses, totaled \$64,337 and \$55,470 for the years ended December 31, 2021 and 2020, respectively.

The following is a schedule of future minimum rental payments as of December 31, 2021:

<u>Year</u>	<u>Amount</u>
2022	\$ <u>66,333</u>
Total future minimum rental payments	\$ <u>66,333</u>

In July 2022, the Organization entered into a five-year non-cancellable lease for new office space at a new location, commencing on October 1, 2022.

In 2018, the Organization entered into a 48-month non-cancellable lease agreement for office equipment, scheduled to expire in 2022. In July 2020, the Organization amended the lease agreement to include the cost of additional office equipment, increasing the fixed monthly rental payments from \$394 to \$518.

16. Concentration of Risk

A material part of the Organization's revenue is dependent upon government sources, the loss of which would have a materially adverse effect on the Organization. During the years ended December 31, 2021 and 2020, federal grants and contracts accounted for 87.2% and 86.7%, respectively, of total operating revenues.

17. Agency Agreement with New Hampshire Division for Children, Youth, and Families

The Organization acts as an agent on behalf of the New Hampshire Division for Children, Youth, and Families (DCYF), where the Organization purchases goods or pays for services when authorized and requested by DCYF. These requests are referred to as "flex fund" requests and DCYF reimburses the Organization for the purchases or payments. DCYF determines the families that are eligible to receive the goods or services. Whereas the Organization is acting in a fiscal agent capacity, the activity under this agreement is not recorded as revenues and expenses, in accordance with GAAP. Total activity in 2021 and 2020 amounted to \$14,493 and \$45,851, respectively.

18. Commitments and Contingencies

COVID-19

The COVID-19 outbreak in the United States of America has resulted in economic uncertainties. The disruption is expected to be temporary, but there is considerable uncertainty around the duration and scope. The extent of the impact of COVID-19 on

the Organization's operational and financial performance will depend on certain developments, including the duration and spread of the outbreak, impact on those served, funders, employees, and vendors all of which are uncertain and cannot be predicted. At this point, the extent to which COVID-19 may impact the Organization's financial condition or results of operations is uncertain; however, to date the Organization has been able to operate at 100% capacity.

19. Subsequent Events

Subsequent events have been evaluated through October 27, 2022, the date the financial statements were available to be issued.

State House
Concord, New Hampshire 03301

REQUESTED ACTION

Authorize the Department of Health and Human Services, Division of Economic and Housing Stability, to enter into a **Sole Source** amendment to an existing contract with New Hampshire Children's Trust, Inc. (VC #218449), Concord, NH for the ongoing support of Family Resource Centers (FRCs) across the state to receive the "Family Resource Center of Quality" (FRC-Q) designation to achieve national standards, assist youth and families involved with the Juvenile Justice system, further support the Kinship Navigator Program, provide training to community-based providers of family support services, and to continue addressing health disparities across the state by exercising a contract renewal option by increasing the price limitation by \$2,991,422 from \$4,733,465 to \$7,724,887, and extending the completion date from June 30, 2023 to June 30, 2024, effective upon Governor and Council approval. 52.36% Federal Funds. 47.64% General Funds.

The original contract was approved by Governor and Council on June 30, 2021, item #41, amended on October 13, 2021, item #20, and most recently amended on April 6, 2022, item #8.

Funds are available in the following accounts for State Fiscal Year 2023, and are anticipated to be available in State Fiscal Years 2024, upon the availability and continued appropriation of funds in the future operating budget, with the authority to adjust budget line items within the price limitation and encumbrances between state fiscal years through the Budget Office, if needed and justified.

See attached fiscal details.

EXPLANATION

This request is **Sole Source** because MOP 150 requires all amendments to agreements previously approved as sole source to be identified as sole source. The Contractor is uniquely qualified to provide statewide support to FRCs because the Contractor has been working effectively applying evidence-based standards and services to kinship families with the goal of strengthening families statewide.

The purpose of this request is for the Contractor to continue to provide infrastructure and support for the statewide network of FRCs, including the Kinship Navigation Program, community-based training, and the Community Health Workers (CHW) staffing support, with additional funds appropriated within Senate Bill 444 (SB444) to support the services. In addition, this request will expand the scope of services to include Juvenile Justice Integration.

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
Page 2 of 3

SB444 was signed into law by the Governor on June 17, 2022, effective July 1, 2022. SB444 was enacted to mitigate adverse childhood experiences and appropriated the sum of \$1,000,000 to the Department to provide continued support to the FRCs as services include work designed to mitigate adverse childhood experiences. This funding will allow the FRCs to better serve families, prepare for "Family Resource Center of Quality" (FRC-Q) designation, enhance coordination with early childhood systems such as Adverse Childhood Experiences Response Team, Community Collaborations and support evidence-based programs including homevisiting programs, and support the current critical work of the FRCs.

This request is also to expand the scope of service to include Juvenile Justice Integration and to add funding for three (3) existing services at the FRCs:

1. Juvenile Justice Integration will continue to advance the Department's initiative to transform and improve the State's Juvenile Justice System by providing a private meeting space at each FRC, as a convenient location for the youth and their family; enabling the Juvenile Probation Parole Officers (JPPO) to meet and work with the youth and family to in a community-based setting. In this environment, the JPPO will work to engage with youth and families in a supportive and collaborative environment. At the initial point of contact with law enforcement, the JPPO will work with youth and their families to conduct a formal Child and Adolescent Needs and Strengths (CANS) assessment. This assessment provides law enforcement with recommendations regarding the level of intervention needed for youth and their families. The Department has determined the FRCs are supportive and convenient locations for youth and their families.
2. Kinship Navigation will expand case management and barrier resolution supports to families that are in a kinship relationship. The added funding will allow the Contractor to provide additional technical assistance, training and support for the ongoing program evaluation to ensure best practices as Kinship Navigator caseloads continue to increase statewide. There are currently 645 Kinship families participating in this program.
3. Training to community-based providers in evidence-based services will be expanded statewide to providers of Comprehensive Family Support Services. Trainings includes Motivational Interviewing, Strengthening Families' Protective Factors and Standards of Quality.
4. Community Health Workers will continue to deliver comprehensive supports provided by FRCs and specifically address some of the economic and health impacts related to COVID-19. CHWs will provide resource identification and connections to mental health, health care, substance use disorder, economic supports, and food and nutrition programs for families.

Through this contract, the Contractor administers a data system used by all FRCs. This data platform is now supporting FRCs with consistent, statewide data collection and outcomes, enabling the Department to measure the positive impact of the services FRCs provides to support family strengthening and child well-being. The data platform provides several dashboards and reports; including periodic, performance metrics, demographic and disparities reports.

Approximately 8,252 families will be supported through this amendment:

- 6,400 families will continued to be served annually through the FRCs;
- Approximately 1,000 families will be served annually through Juvenile Justice Integration;

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
Page 3 of 3

- Approximately 250 additional families will be served annually through Kinship Navigation; and
- Approximately 602 families will be served annually through the work of the CHWs.

In addition to the families being served:

- Approximately 75 additional community-based agencies will be served annually with training; and
- Approximately 15 CHWs will continue to provide support under the Health Disparities Grant to the statewide network of FRCs.

As referenced in Exhibit A, Section 1., Revisions to Form P-37, General Provisions, 3.3, of the original agreement, the parties have the option to extend the agreement for up to four (4) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval. The Department is exercising its option to renew services for one (1) of the four (4) years available.

Should the Governor and Council not authorize this request the Department will be unable to expand the Kinship Navigator Program, train community-based providers and address health disparities due to COVID-19; The Juvenile Justice system will not have these supportive and convenient locations to meet with youth and their families. These services contribute to the development of healthy families, which contribute to the development of healthy communities.

Area served: Statewide.

and the Honorable Council
State House
Concord, New Hampshire 03301

REQUESTED ACTION

Authorize the Department of Health and Human Services, Division of Economic and Housing Stability, to amend an existing contract with New Hampshire Children's Trust, Inc. (VC #218449), Concord, NH, for the ongoing support of Family Resource Centers (FRCs) across the state to receive the "Family Resource Center of Quality" (FRC-Q) designation to achieve national standards and to further develop the Kinship Navigator Program, by increasing the price limitation by \$344,865 from \$4,388,600 to \$4,733,465 with no change to the contract completion date of June 30, 2023, effective upon Governor and Council approval. 100% Federal Funds.

The original contract was approved by Governor and Council on June 30, 2021, Item #41 and most recently amended with Governor and Council approval on September 29, 2021, item #20.

Funds are available in the following accounts for State Fiscal Years 2022 and 2023, with the authority to adjust budget line items within the price limitation and encumbrances between state fiscal years through the Budget Office, if needed and justified.

See attached fiscal details.

EXPLANATION

For the past few years, there has been a declining rate of New Hampshire families utilizing the Child Care and Development Fund (CCDF) assistance, known as the Child Care Scholarship, demonstrating the need for a campaign to improve public awareness of the program and its benefits. The purpose of this request is to modify the scope of work of the contract to include the creation of a campaign to promote awareness of the availability of child care assistance through the CCDF Program. The campaign's target audience will include parents and caregivers of young children, child care centers (including those not currently accepting CCDF funding), community leaders and prospective recipients and stakeholders. The campaign will also include benchmarks and an evaluation to track an anticipated five percent (5%) increase in enrollment of eligible children, expansion of the number of child care providers accepting CCDF funds, and the number of child care slots paid, in part, with CCDF funds. Given the state's current workforce challenges and the increased cost of child care, the Department seeks to educate the community about the availability of CCDF assistance.

The purpose of this request is also to add funding for the Kinship Navigator program which provides case management and barrier resolution supports to families that are in a kinship relationship. The added funding will allow the Contractor to provide additional technical

and the Honorable Council

assistance, training, and support for the ongoing program evaluation to ensure best practices as Kinship Navigator caseloads continue to increase statewide.

The Contractor will continue to:

- Support Family Resource Centers (FRC) with applying for, and acquiring, the Family Resource Center of Quality (FRC-Q) designation;
- Ensure ongoing implementation of the Kinship Navigator Program; and
- Provide infrastructure and support for the statewide network of Family Resource Centers.

The Contractor will support the statewide network of fifteen (15) FRCs that will provide kinship navigation to approximately 500 families annually.

Should the Governor and Council not authorize this request, FRCs throughout the state will experience diminished benefits of effective, research-based frameworks, and will continue to experience underutilization of the Child Care and Development Fund program that helps strengthen families and increase access to resources available in their communities to further their well-being.

Area served: Statewide

Source of Federal Funds: Assistance Listing Number #93.575, FAIN #2101NHCS08

Assistance Listing Number #93.136, FAIN #NU17CE924984

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Lon A. Shibnette
Commissioner

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
State House
Concord, New Hampshire 03301

REQUESTED ACTION

Authorize the Department of Health and Human Services, Division of Economic and Housing Stability, to amend an existing contract with New Hampshire Children's Trust, Inc. (VC#218449), Concord, NH, to support Family Resource Centers (FRCs) across the state to receive the "Family Resource Center of Quality" designation, to achieve national standards, and to implement the Kinship Navigator Program. The Department is requesting an expansion of the contract with New Hampshire Children's Trust to leverage its role as the facilitating organization for New Hampshire's network of FRCs, to address health disparities and influencing factors due to COVID-19 for priority populations, including racial and ethnic minorities and rural populations, by increasing the price limitation by \$1,855,000 from \$2,533,600 to \$4,388,600 with no change to the contract completion date of June 30, 2023, effective upon Governor and Council approval. 81% Federal Funds 19% General Funds.

The original contract was approved by Governor and Council on June 30, 2021, item #41.

Funds are available in the following accounts for State Fiscal Years 2022 and 2023, with the authority to adjust budget line items within the price limitation and encumbrances between state fiscal years through the Budget Office, if needed and justified.

See attached fiscal details.

EXPLANATION

The purpose of this request is for the Department to expand the scope of work of the contract to increase Community Health worker staffing to meet the need for comprehensive supports provided by FRCs and to address COVID-19 impacts affecting families. This expanded scope work will address COVID-19 health disparities among populations at high risk and underserved, including racial and ethnic minority populations and rural communities. Through this amendment the contractor will expand the workforce of Community Health Workers (CHW) and embed them within the statewide network of FRCs to directly serve individuals and families impacted by the COVID-19 pandemic such as economic and health impacts.

CHWs will connect families to mental health, health care, substance use disorder, financial and budgeting supports, food and nutrition programs, COVID-19 testing, vaccination/immunization, and resource identification. Additionally the contract will expand data quality monitoring for additional family support programs such as the home visiting, Community Collaborations project (data to be collected includes economic needs, social needs, race, ethnicity, language, and access to technology and transportation). This will include enhanced communication strategies such as printing materials in additional languages and prioritizing engagement of families impacted by incarceration and families with young children in order to connect them timely to the services available through the FRCs that support positive outcomes.

His Excellency, Governor Christopher T. Sununu
and the Honorable Council

The Department will continue working with the New Hampshire Children's Trust for its original contract scope to:

- 1) continue its support to the FRCs for Quality Designation and perform individual assessments of the FRCs applying for the Family Resource Center of Quality (FRC-Q) designation, to identify, document deficiencies in meeting standards, help correct deficiencies, and assist each FRC with the application process; and
- 2) implement the Kinship Navigator Program; and
- 3) continue to provide infrastructure and support for the statewide network of FRCs.

The Contractor will work with the Wellness and Primary Prevention Council (established by the NH Legislature with a goal of creating a sustainable, quality system of Family Resource Centers across the state) and Family Support NH to assist FRCs to achieve standards of the National Family Support Network Quality for Family Strengthening and Support for the purpose of acquiring an FRC-Q designation, which includes:

- Providing FRCs with information and trainings on applicable standards and explaining how to acquire the FRC-Q designation;
- Providing technical support to FRCs with the implementation of standards, development of procedures to document practice of standards, and establishment of written plans to meet standards;
- Providing remote or in-person assistance to FRCs with writing the FRC-Q application or other related needs; and
- Participating in the National Family Support Network through a membership with Family Support NH.

The facilitated organization will support FRCs statewide; currently there are fifteen (15) FRCs that will provide kinship navigation to approximately 1,000 families from July 1, 2021, to June 30, 2023.

Should the Governor and Council not authorize this request, FRCs throughout the state will not have the benefit of effective, research-based frameworks to help strengthen families and access resources available in their communities to further their well-being.

REQUESTED ACTION

See attached fiscal details.

EXPLANATION

This request is Sole Source because there are no known viable alternatives to the services provided by the vendor. The Contractor will continue to support system building and infrastructure development to support and assist Family Resource Centers (FRCs) statewide to provide programs that encompass evidence informed standards of family strengthening. Additionally, this contract will ensure primary prevention is provided through a system of qualified centers and will continue to build upon the investment that the State has made in the Resource Centers. The Contractor previously established evidence informed program and services to kinship families statewide. This program is invaluable to the nearly 12,000 eligible families in the state who are raising children of family members who have experienced and/or may be vulnerable to child maltreatment. Through this contract, the vendor administered a data system that all FRC's use. This data platform is now supporting FRCs with consistent, statewide data collection and outcomes, enabling the Department to measure the positive impact of the FRC's and the services they provide for family strengthening and child well-being.

The purpose of this request is for the Contractor to 1) continue its support to the FRC's for Quality Designation 2) to implement the Kinship Navigator Program and 3) to continue to provide infrastructure and support the statewide network of FRC's. Through the FRC Quality Designation, the NHCT will perform individual assessments of the FRC's applying for the Family Resource Center of Quality (FRC-O) designation, to identify, document deficiencies in meeting standards, support the correction of any deficiencies, and to assist each FRC throughout the application process.

His Excellency, Governor Christopher T. Sununu
And the Honorable Council
Page 2 of 2

The facilitated organization will support FRCs statewide; currently there are fifteen (15) FRC's to will provide kinship navigation to approximately 1,000 families from July 1, 2021, to June 30, 2023.

The Contractor will work with the Wellness and Primary Prevention Council and Family Support NH to provide support to FRCs with implementing and meeting the National Family Support Network Quality for Family Strengthening and Support standards for the purpose of acquiring an FRC-Q designation, which includes:

- Providing FRCs with information about the standards: <https://www.nationalfamilysupportnetwork.org/standards-of-quality>;
- Providing technical support to FRCs in the implementation of standards;
- Providing technical support to FRCs in the implementation of procedures to document practice of standards;
- Providing training and technical assistance to FRCs in the development of a written plan to meet standards;
- Traveling to any FRC requesting an in-person consultation;
- Assisting FRCs with completing the FRC-Q application;
- Reviewing FRC-Q applications for accuracy;
- Participating in the National Family Support Network through a membership with Family Support NH; and
- Providing FRCs with information and trainings on acquiring the FRC-Q designation.

As referenced in Exhibit A, Provisions to Standard Contract Provisions, Section 1.1., of the attached contract, the parties have the option to extend the agreement for up four (4) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval.

Should the Governor and Council not authorize this request FRCs throughout the state will not have the benefit of research-based frameworks of family support and subsequently lack resources to help families build on their own strengths and access to resources that are available in their communities to further their well-being.

Area served: Statewide

Source of Funds: #CFDA 93.136, FAIN#NU17CE924984.

#CFDA 93.556, FAIN#191NHPKIN.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Shibinette
