EXPLANATION

The purpose of this request is to accept grant funds from the Federal Department of Health and Human Services, Administration for Strategic Preparedness & Response (ASPR) to fund the Investing in New Hampshire's Medical Reserve Corps (MRC) Volunteers program.

New Hampshire has thirteen Regional Public Health Networks (RPHN) that oversee thirteen MRC units with 1,583 credentialed volunteers. The RPHNs and MRC Units are geographically located throughout New Hampshire and serve 1.3 million residents and another 4.3 million tourists annually. The MRC volunteers support all hazard emergency responses such as infectious disease outbreaks, point of dispensing (POD) operations, annual School-Based Clinics (SBC) for vaccine administration, disaster sheltering, radiological reception center operations, and medical surge operations at Alternate Care Sites (ACS) and Neighborhood Emergency Help Centers (NEHC).

The New Hampshire Department of Health and Human Services (NH DHHS) recognizes the value and contributions of the Medical Reserve Corps (MRC) volunteers to increase community resilience to all hazard incidents. With these Federal funds, NH DHHS seeks to increase MRC volunteer recruitment and retention efforts by providing volunteer liability protection, which is currently only available during declared public health incidents or states of emergency. Volunteer participation outside of declared disasters has decreased because of liability concerns. NH DHHS plans to utilize these funds to provide liability protection for two years while exploring legislation to address the standing need for liability protections for MRC volunteers. This funding ensures a robust volunteer capability to respond to all-hazard incidents regardless of a disaster declaration.

Additionally, NH DHHS plans to provide funding for medical screening program for N95 fit testing and the development and implementation of a robust training and exercise cycle at no cost to the volunteers. New online training opportunities will focus on Point of Dispensing (POD) operations, Volunteer Recruitment and Retention, and Crisis Communication. In-person trainings and exercises focus on CPR/First Aid/AED and Stop The Bleed certifications, credentialing CPR/First Aid/AED and Stop The Bleed instructors, Neighborhood Emergency Help Centers (NEHC) practices, Survivor and Family Assistance Center (SFAC) Operations, and disaster shelter operations. NH DHHS intends to competitively procure a contractor to develop educational materials, job aids, and online videos for publication.

The Honorable Ken Weyler, Chairman
His Excellency, Governor Christopher T. Sununu

The funds are to be budgeted as follows:

- Class 018 These funds will be used for staff to assist in training and exercises with the MRC Volunteers as needed beyond the staff's normal workday. Many of the trainings and drills occur outside normal business hours.
- Class 020 These funds will be used to purchase supplies to support the MRC volunteers such as training supplies, tourniquets, bandages, backpacks for necessary supplies in the field when deployed, and general office supplies.
- Class 041 These funds will be used for Audit Set Aside per State requirement.
- Class 060 These funds will be used for the benefits associated with the Overtime for staff as requested above in class 018.
- Class 070 These funds will be used for staff members to travel to trainings, drills and exercises. DHHS staff will at times be the trainers and teachers of these events which are held at various locations around NH.
- Class 102 These funds will be used to contract with vendors for trainings including POD Online training, Volunteer Recruitment and Retention training, Triage training, Medical Countermeasures Distribution training, and other necessary trainings that will be required for current and prospective volunteers who are actively deployed in emergency events.

In response to the anticipated two-part question, "Can these funds be used to offset General Funds?" and "What is the compelling reason for not offsetting General Funds?" the Division offers the following information: The funds are provided for a specified purpose by The Administration for Strategic Preparedness & Response (ASPR) as defined in the Notice of Grant Award and cannot be used to offset general funds.

Area served: Statewide

Source of Funds: 100% Federal funds from the Federal Department of Health and Human Services, The Administration for Strategic Preparedness & Response (ASPR).

If Federal Funds become no longer available, General Funds will not be requested to support the program expenditures.

Respectfully Submitted,

Lori A. Weaver

Definitions:

Cooperative Agreement - The Federal Grant and Cooperative Agreement Act of 1977, 31 U.S.C. 6305 defines the cooperative agreement as an alternative assistance instrument to be used in lieu of a grant whenever substantial Federal involvement with the recipient during performance is anticipated. The difference between grants and cooperative agreements is the degree of Federal programmatic involvement rather than the type of administrative requirements imposed. Therefore, statutes, regulations, policies, and the information contained in this policy statement that are applicable to grants also apply to cooperative agreements, unless the award itself provides otherwise. **Link to HHS Grants Policy Statement: [HHS Grants Policy Statement](#)**

Authorizing Official - the individual(s), named by the applicant/recipient organization, who is authorized to act for the applicant/recipient and to assume the obligations imposed by the federal laws, regulations, requirements, and conditions that apply to grant applications or awards.

Principle Investigator (PD/PI) - the individual (s) designated by the recipient to direct the project or program being supported by the grant. The PI/PD is responsible and accountable to officials of the recipient organization for the proper conduct of the project, program, or activity (Source: 45 CFR 75.2).

STANDARD TERMS AND CONDITIONS:

This cooperative agreement is subject to the terms and conditions as stated here in Section III (Terms and Conditions) of this NOA. Refer to the "order of precedence" that explains the laws and regulations that govern the award in the event of any inconsistencies:

1. Federal Statutes
2. Federal Regulations
3. Executive Orders
4. OMB Policies to include 2 CFR 200
5. Terms and Conditions attached to the ASPR Notice of Award (including any Special Programmatic and Administrative Terms and Conditions).

1. Revision of Budget and Program Plans (45 CFR 75.308):

Any revisions to the budget of ASPR Cooperative Agreements require prior approval from both the assigned Grants Management Specialist and HHS Project Officer. This request must be formal and signed by the Authorized Official of the award. Formal amendments to the Notice of Award are for approved requests that require significant re-budgeting (over 25% of the total budget). Requests less than 25% of the total budget that are approved will be approved via email or memorandum by the ASPR Grants Office. The recipient has the option to request a formal amendment to the Notice of Award if budget revision is less than 25% of total budget.

The following request prior approval for budget revisions:

- a. A need for additional Federal Funding.
- b. A change in a key person(s) identified in the proposal or the award document.
- c. The approved Recipient Program Manager's absence from the project for more than three (3) months, or a 25-percent reduction in his or her time devoted to the project.
- d. The inclusion of additional costs that require prior approval in accordance with the applicable cost principles for Federal Funds and your cost share match.
- e. The inclusion of pre-award costs.
- f. A sub-award to another entity under which it will perform a portion of the substantive project or program under the award if it was not included in the approved budget. This does not apply to your contracts for acquisition of supplies, equipment, or general support services you need to carry out the project or program.
- g. The transfer of funds among direct cost categories, functions and activities for awards in which the Federal share of the project exceeds the simplified acquisition threshold and the cumulative amount of such transfers exceeds or is expected to exceed 10 percent of the total budget as last approved by the Grants Management Specialist. A transfer that would cause any Federal appropriation or part thereof to be used for purposes other than those consistent with the original intent of the appropriation is prohibited.

Please note: a change in the scope or objective of the project or program under the award, even if there is no associated budget revision also requires prior approval.

2.Supporting Information:

Information such as consultant agreements, vendor quotes, and service agreements may be required in order to support proposed costs. Our receipt of this information does not constitute approval or acceptance of any

term or condition included therein. For the purpose of clarity, all subcontractors or other arrangements included in the Recipient's proposal and/or the final approved budget do not require additional approval to commence performance. This additional information is required if the cost exceeds \$750,000.00 and has not been provided otherwise. Should the US Government have any concerns, said concerns will be communicated within 10 days of receipt.

The government's due diligence review and continuous monitoring will include but not be limited to information on performance, ownership and organization, assets and operations, business/company management experience and strategy, processes and policies, business/company reputation and affiliations, litigation, regulatory, financial standings, upper management and key personnel's personal capitalization or ventures, business/company agreements, sales, transfers, partnerships, mergers, acquisitions, or takeovers etc. Based on these reviews, additional supporting information may be required from the Recipient.

(b) \$25,000,000 or more in annual gross revenues from Federal procurement contracts (and subcontracts) and Federal financial assistance subject to the Transparency Act, as defined at 2 CFR 170.320 (and subawards); and

iii. The public does not have access to information about the compensation of the executives through periodic reports filed under section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m(a), 78o(d)) or section 6104 of the Internal Revenue Code of 1986. (To determine if the public has access to the compensation information, see the U.S. Security and Exchange Commission total compensation filings at <http://www.sec.gov/answers/execomp.htm>.)

2. Where and when to report. You must report subrecipient executive total compensation described in paragraph c.1. of this award term:

i. To the recipient.

ii. By the end of the month following the month during which you make the subaward. For example, if a subaward is obligated on any date during the month of October of a given year (i.e., between October 1 and 31), you must report any required compensation information of the subrecipient by November 30 of that year.

C. Exemptions

If, in the previous tax year, you had gross income, from all sources, under \$300,000, you are exempt from the requirements to report:

- v. Above-market earnings on deferred compensation which is not tax-qualified.
- vi. Other compensation, if the aggregate value of all such other compensation (e.g. severance, termination payments, value of life insurance paid on behalf of the employee, perquisites or property) for the executive exceeds \$10,000.

4. Subaward Equal Treatment:

The recipient must comply with 45 CFR 75, including the provision that no State or local government recipient nor any intermediate organization with the same duties as a governmental entity shall, in the selection of service providers, discriminate for or against an organization's religious character or affiliation.

5. Mandatory Disclosures:

The non-Federal entity or applicant for a federal award must disclose, in a timely manner, in writing to the Federal awarding agency or pass-through entity all violations of Federal criminal law involving fraud, bribery, or gratuity violations potentially affecting the Federal award. Failure to make required disclosures can result in any of the remedies described in §200.338 Remedies for noncompliance, including suspension or debarment. (See also 2 CFR part 180 and 31 U.S.C. 3321).

6. English Language:

All Federal financial assistance announcements and Federal award information must be in the English language. Applications must be submitted in the English language and must be in the terms of U.S. dollars. If the Federal awarding agency receives applications in another currency, the Federal awarding agency will evaluate the application by converting the foreign currency to United States currency using the date specified for receipt of the application.

Non-Federal entities may translate the Federal award and other documents into another language. In the event of inconsistency between any terms and conditions of the Federal award and any translation into another language, the English language meaning will control. Where a significant portion of the non-Federal entity's employees who are working on the Federal award are not fluent in English, the non-Federal entity must provide the Federal award in English and the language(s) with which employees are more familiar.

7. Legal and Financial Responsibility:

The recipient organization is legally and financially responsible for all aspects of this grant, including funds provided to sub-recipients.

8. Executive Level II Salary Cap:

For FY 2022, the Consolidated Appropriations Act, 2022 restricts the amount of direct salary to Executive Level II of the Federal Executive Pay scale. Effective January 1, 2023, the Executive Level II salary is \$212,100 annually.

Funds made available by this award shall not be used by the grantee or subrecipient to pay the salary and bonuses of an individual, either as direct costs or indirect costs, at a rate more than current Executive Level II compensation requirements.

9. Facility Physical Security Requirements:

You shall implement at your facility current industry best practices for physical and cyber security. You shall allow ASPR input into the implementation of the physical and cyber security measures. To the extent that ASPR requires modifications, such modifications shall be treated as compensable change(s) and would be reimbursed to the extent not covered under the approved budget for this award.

10. Committee on Foreign Investment in the United States (CFIUS) Acknowledgement:

Foreign Investment. In addition to the requirements above, prior to the close of any "covered transaction," as that term is defined by 50 U.S.C. 4565(a)(4), Recipient acknowledges its requirement to make a voluntary submission of information (e.g., any cooperative agreement, partnership, merger, acquisition, or takeover that is proposed or pending) related to the covered transaction to the Committee on Foreign Investment in the United States ("CFIUS"). The CFIUS package shall be submitted to the Grants Management Specialist for review and comment 10 business days in advance of Recipient's voluntary submission to CFIUS. For the purposes of determining whether a transaction is a "covered transaction," the parties acknowledge that the Recipient's facility is "critical infrastructure" that may be used to produce "critical technologies" in support of "national security," as those terms are defined in 50 U.S.C. 4565(a). Recipient agrees to follow any recommendations issued throughout the CFIUS process, including any determinations with respect to permissibility of the transaction.

14. Sterile Needle Distribution:

Provided, That such limitation does not apply to the use of funds for elements of a program other than making such purchases if the relevant State or local health department, in consultation with the Centers for Disease Control and Prevention, determines that the State or local jurisdiction, as applicable, is experiencing, or is at risk for, a significant increase in hepatitis, infections or an HIV outbreak due to injection drug use, and such program is operating in accordance with State and local law.
