July 27, 2023

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
State House
Concord, New Hampshire 03301

REQUESTED ACTION

Authorize the Department of Environmental Services (NHDES) to enter into a grant agreement with the Town of Fitzwilliam, NH (VC# B001-177388) totaling \$55,475 for partial funding of replacement of a plow truck, effective upon Governor and Council approval through September 30, 2024. 45% Federal Funds, 55% VW Settlement Funds.

Funding is available in the account as follows:

	<u>FY 2024</u>
03-44-44-443010-2278-072-500572	\$55,475
Dept. of Environmental Services, DERA Funds, Grants Federal	

EXPLANATION

Under the Diesel Emission Reduction Act (DERA) the U.S. Environmental Protection Agency (EPA) provides funding to states for projects that reduce harmful emissions produced by older diesel engines, including replacement of heavy-duty vehicles such as dump/plow trucks. The new engines must meet more stringent emissions standards. Utilizing federal EPA funds, matched with funding from New Hampshire's Volkswagen Environmental Mitigation Trust Fund, NHDES has \$1,500,000 available for grants.

The first three rounds of request for proposals were conducted from July 15, 2022, through March 30, 2023. Ten entities submitted eligible proposals for funding. Eight proposals were approved for funding (see Attachment A for the scoring results). The Town of Fitzwilliam requested partial funding to replace a plow truck.

The Town of Fitzwilliam's project will replace a 1997 International truck which mainly serves as a plow truck, sander, and hauler. The truck has accumulated over 170,000 miles and is experiencing numerous failures which require frequent and costly maintenance. Rust has spread throughout the truck; within the cab, the floorboards on the driver's side have rusted through, meaning the operator is exposed to the pavement below. The dump body has rusted off the back of the truck, resulting in

and the Honorable Council

having to mount sand/salt spreader directly to the frame. The truck has required frequent maintenance for its axles, tie rods, actuator, ignition, radiator cap, rotors, and pads. Further, the truck's springs are weak and require replacement, and the truck is leaking motor oil. The Town wishes to replace this 1997 truck with a new, fuel-efficient truck which will reduce downtime, maintenance, and costly repairs.

The DERA program has a mandatory minimum cost share requirement for a diesel-for-diesel replacement project of 75 percent. NHDES will provide a grant of \$55,475 or 25 percent, whichever is less, of the total replacement cost (estimated at \$221,900) to the Town of Fitzwilliam for the replacement of the truck.

This agreement has been approved as to form, substance, and execution by the Office of the Attorney General. In the event federal funds become no longer available, general funds will not be requested to support this program.

We respectfully request your approval.

Robert R. Scott
Commissioner
