EXPLANATION

This request is **Sole Source** because ParaSharp is a proprietary training model only available through 321 Insight Inc. This contract with 321 Insight Inc. will enable the Department to efficiently provide a customizable training program for paraprofessionals and other educators. Due to a projected shortage of paraprofessionals and to retain current paraprofessionals, these funds will be used to provide professional development as a retention tool to establish a career track for paraprofessionals to foster interest in teaching.

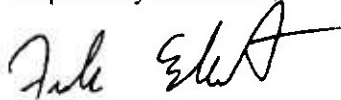

321 Insight Inc. will consult with various stakeholders, including the New Hampshire Technical Institute (NHTI). Existing and substantive offerings could be supplemented by the on-line, instant-access videos and mini-lessons that 321 Insight Inc. offers. The Department seeks to train paraprofessionals and assist school districts in attracting and retaining high-quality paraprofessionals, and the immediacy of the offerings of 321 Insight Inc. will fill a gap in the available programming offered across the state. The Department is eager to build meaningful partnerships with agencies that train and certify paraprofessionals,

and as a supplemental and “instant-access” option, this professional development (PD) series is uniquely positioned to provide the required services at the most expeditious time in the school year’s cycle to the broadest audience possible.

321 Insight Inc. provides online and hybrid training that will enable the Department to provide training to paraprofessionals and other educators quickly and nimbly to meet the demand and prepare the incoming workforce. 321 Insight Inc.’s, ParaSharp, is a professional development series that builds confidence, improves paraprofessional effectiveness, and increases job satisfaction. With easy-to-use videos, interactive discussions, planning and tracking tools and more, this program series helps para-educators feel supported and skilled. Blending both facilitated PD (in-person or virtual), with access to on-demand asynchronous training, ParaSharp provides NHED with the connection and guided approach that staff need, with opportunities for ongoing learning in between PD sessions. 321 Insight Inc. will provide training sessions around customizable topics that could include areas such as: Educator Wellness, Teaching Students, Regulation Skills, and Proactive Behavior Support. Included also are 800 licenses for access to ParaSharp on-demand Professional Development - customized for New Hampshire.

Based on the success of the Department and 321 Insight Inc.’s partnership in the 2022-2023 school year, awareness of the paraprofessional professional development opportunities has increased. Interest in ParaSharp access also continues to rise as more educators learn about this resource. 321 Insight inc. seeks to continue the partnership with the Department and build on this groundswell of interest, delivering both in-person and virtual learning opportunities that continue to meet the needs of educators across the state. In addition, the need for targeted professional development for educators supporting English Language Learners (ELL) students has been identified, and 321 Insight has added ELL to the list of topics available for the state.

Respectfully Submitted,

Frank Edelblut
Commissioner of Education
