## **EXPLANATION**

This education will benefit the Department of Health and Human Services (DHHS) and Shaun Runyon by improving the overall efficiency of the employee's work. Shaun will develop the skills to assist with issues that require a higher level of expertise in developing Scriptlink code for electronic health record systems that is currently being done through a third party vendor, eventually reducing those added costs to the State.

This course, Technology and Society, explores the relationships among technology, the human condition, and the future through interdisciplinary lenses. Shaun will learn to analyze contemporary trends and the social and cultural implications of those advancements. This employee will develop an awareness of the intersection between technological literacy, social responsibility, and interpersonal experiences.

Shaun Runyon has been employed by the Department of Health and Human Services for ten (10) years, two (2) years in the current position of Program Specialist III with the Information Systems Department at New Hampshire Hospital. This employee is tasked with several ongoing projects to improve the electronic health record by ensuring the data required is captured accurately, while at the same time developing ways to reduce the amount of time the clinical staff spend on documentation.

The Department of Health and Human Services encourages and supports employees who wish to further their professional growth through continuing education in disciplines that are mutually advantageous. Successful completion of the courses will add to the overall strength of the Department to perform its mission for the residents of New Hampshire.

This course will not be taken on State time.

Attached is a fully executed Tuition Agreement for your review.

Respectfully submitted,

Lori A. Weaver Commissioner
