REQUESTED ACTION

Authorize the Department of Environmental Services to amend an American Rescue Plan Act (ARPA) grant (PO# 1089267) to Whispering Brook Homeowners Association (VC# 400203-B001), Bartlett, NH, by extending the completion date to October 1, 2024, from December 1, 2023, for water system improvements. The original grant was approved by Governor and Council on October 19, 2022, Item #81. This is a no cost time extension. 100% Federal Funds.

EXPLANATION

We are requesting approval of this amendment to provide the Whispering Brook Homeowners Association (Association) additional time to complete water system improvements that will improve water system resiliency and reliability. The Association was awarded funding to rehabilitate and expand the existing pumphouse to accommodate electrical upgrades and new system components, replacement of the existing storage tanks, installation of a new emergency generator, and curb valve installation. Bids for the project came back higher than expected requiring the project scope to be reduced therefore delaying the start to construction. Extension of the completion date is needed to allow for more time to complete the project after the winter season.

To date, \$0 of the original \$60,000 grant has been spent. In the event that other funds become no longer available, general funds will not be requested to support this program.

We respectfully request your approval of this item.

Re: Workers Compensation explanation

NHDES Team,

This letter is written in to address the status of Workers Compensation policy. Whispering Brook Association is a small private Homeowners Association governed by three volunteer officers with annual or special meetings to hold votes by the owners of all 12 units when we need to make major decisions. We do not have any employees.

Consequently, we do not maintain a staff to manage our property, but contract all services through local vendors. This includes services for our water systems management, private road and lawn maintenances, septic system maintenance, electrical and other essential services. These vendors provide their employees with insurance and worker's compensation directly; we do not provide these benefits.

If you need further documentation, or have any questions, please contact me.

Respectfully,

A handwritten signature in cursive script that reads "Gail Doktor".

EXPLANATION

NHDES, through the American Rescue Plan Act funds (ARPA) and the Drinking Water State Revolving Loan Fund (DWSRF) has offered \$300,000 in a combination of grant and loan funds.

The Association will use the grant and loan funding to make water system improvements which serves 12 condominium units located in Bartlett, New Hampshire. These improvements include the rehabilitation and expansion of the existing pumphouse, replacement of the existing atmospheric and hydropneumatics tanks, and new emergency generator. This project will improve water quality, quantity and reliability.

ARPA of 2021 is a \$1.9 trillion economic stimulus bill passed by the 117th United States Congress and signed into law by President Biden on March 11, 2021, to speed up the United States' recovery from the economic health effects of the COVID-19 pandemic and the resultant recession. The Act defines eligible uses of the state and local funding, including responding to public health emergencies, responding to workers performing essential work during the COVID-19 emergency, providing revenue relief to states and making investments in water, sewer, and broadband infrastructure. This is an allowable use of ARP FRF funds under Section 602 (c)(1)(D) to make necessary investments in water, sewer, or broadband infrastructure.

In accordance with the final rule from the US Treasury Department for water and wastewater infrastructure investments, project eligibility is aligned with the Environmental Protection Agency's Clean Water State Revolving Fund (CWSRF) and Drinking Water State Revolving Fund (DWSRF). This project is an eligible DWSRF infrastructure project.

The final DWSRF loan amount will be based on the total DWSRF funds disbursed and may be less than \$240,000. The loan interest rate may be adjusted downward if the DWSRF loan rate in effect upon project completion is less than the current rate of 1.256% for twenty years. There is currently a balance of \$43,484,346 in the DWSRF available for new loans.

In the event that federal funds become no longer available, General funds will not be requested to support this program. The grant agreement has been approved by the Attorney General's Office as to form, substance and execution.

We respectfully request your approval of this item.

Re: Workers Compensation explanation

NHDES Team,

This letter is written in to address the status of Workers Compensation policy. Whispering Brook Association is a small private Homeowners Association governed by three volunteer officers with annual or special meetings to hold votes by the owners of all 12 units when we need to make major decisions. We do not have any employees.

Consequently, we do not maintain a staff to manage our property, but contract all services through local vendors. This includes services for our water systems management, private road and lawn maintenances, septic system maintenance, electrical and other essential services. These vendors provide their employees with insurance and worker's compensation directly; we do not provide these benefits.

If you need further documentation, or have any questions, please contact me.

Respectfully,

A handwritten signature in cursive script that reads "Gail Doktor".
