\$175,000

**EXPLANATION**

Grant monies totaling \$363,000 have been made available to NHDES through the Water Infrastructure Improvement for the Nation (WIIN) Act, Assistance for Small and Disadvantaged Communities Drinking Water Grant administered by the United States Environmental Protection Agency (EPA). NHDES proposes to use the funds to assist a select list of small and disadvantaged water systems to provide funding assistance for improvements to their drinking water systems necessary to comply with the Safe Drinking Water Act (SDWA), address water supply capacity issues or respond to a drinking water contaminant.

The Drinking Water and Groundwater Bureau (DWGB) intends to use the grant funds to develop and implement a small/disadvantaged grant program for the neediest water systems in the State. Initially, two community water systems are identified as meeting eligibility requirements for the subawards. Additional eligible recipients will be identified as funding allows. Mountain View Water Works will use the grant funds for water system improvements including developing a new water supply well with associated infrastructure, controls, and water treatment needs. This project will improve water quantity and quality issues as well as improve resiliency.

In the event that grant funds no longer become available, General funds will not be requested to support this program. This agreement has been approved by the Attorney General's Office as to form, substance and execution.

We respectfully request your approval of this item.
